Has been assessed by EHS Alliance Services for the comprehensive study of environmental impacts on institutional working framework to fulfill the requirement of

ENVIRONMENT AUDIT

ACADEMIC YEAR 2023-24

The environment legal compliances and initiatives carried out by the institution have been verified on the report submitted and were found to be satisfactory.

The efforts taken by management and faculty towards environment and sustainability are highly appreciated and noteworthy.

ACKNOWLEDGEMENT

EHS Alliance Services would like to thank the management of IIHMR University for assigning this important work of Environment Audit. We appreciate the cooperation to the teams for the completion of the assessment.

First of all, we would like to thank **Dr. P. R. Sodani - President of IIHMR University** for allowing us to evaluate the environmental performance of the campus.

We would also like to thank **Dr. Susheela Sharma, Chief Admin Officer & Audit Coordinator**, for his continuous support and guidance, without which the completion of the project would not have been possible.

We are also thankful to other members who were actively involved while collecting the data and conducting field measurements.

We are also thankful to

Mr. Hem K. Bhargava	<i>Registrar</i>
Dr. Goutam Sadhu	<i>Professor</i>
Dr. Tripti Bisawa	<i>Coordinator, IQAC</i>
Dr. Hemant Kumar Mishra	<i>Faculty Member</i>

DISCLAIMER

EHS Alliance Services Audit Team has prepared this report for IIHMR University based on input data submitted by the representatives of University complemented with the best judgment capacity of the expert team.

While all sensible care has been taken in its preparation, details contained in this report have been compiled in good faith based on information gathered.

It is further informed that the conclusions are arrived following best estimates and no representation, warranty or undertaking, express or implied is made and no responsibility is accepted by Audit Team in this report or for any direct or consequential loss arising from any use of the information, statements or forecasts in the report.

If you wish to distribute copies of this report external to your organisation, then all pages must be included.

EHS Alliance, its staff and agents shall keep confidential all information relating to your organisation and shall not disclose any such information to any third party, except that in the public domain or required by law or relevant accreditation bodies.

EHS Alliance staff, agents and accreditation bodies have signed individual confidentiality undertakings and will only receive confidential information on a 'need to know' basis.

CONCEPT AND CONTEXT

In India, the process for environmental audit was first mentioned under the Environment Protection Act, 1986 by the Ministry of Environment of forests on 13th march, 1992. As per this act, every person owning an industry or performing an operation or process needs a legal consent and must submit an environmental report or statement.

The National Assessment and Accreditation Council, New Delhi (NAAC) has made it mandatory from the academic year 2019–20 onwards that all Higher Educational Institutions should submit an annual Green, Environment and Energy Audit Report. Moreover, it is part of Corporate Social Responsibility of the Higher Educational Institutions to ensure that they contribute towards the sustainable environment.

In view of the NAAC circular regarding environment auditing, the management decided to conduct an external environment assessment study by a competent external professional auditor.

The term 'Environmental audit' means differently to different people. Terms like 'assessment', 'survey' and 'review' are also used to describe similar activities. Furthermore, some organizations believe that an 'environmental audit' addresses only environmental matters, whereas others use the term to mean an audit of health, safety, and environment-related matters. Although there is no universal definition of environmental audit, many leading companies/institutions follow the basic philosophy and approach summarized by the broad definition adopted by the International Chambers of Commerce (ICC) in its publication of Environmental Auditing (1989).

The ICC defines Environmental Auditing as:

"A management tool comprising a systematic, documented, periodic and objective evaluation of how well environmental organization, management, and equipment are performing with the aim of safeguarding the environment and natural resources in its operations/projects."

This audit focuses on the environmental legal compliances and implementation of rules defined by MoEFCC or state pollution control board. The concepts, structure, objectives, methodology, tools of analysis, and objectives of the audit are discussed below.

INTRODUCTION

Nature is a very precious gift for all life forms. Disturbance in nature causes environmental Problems. These are increasing day by day as a result of the development of urbanization and industrialization on earth. Because of the unplanned utilization of resources, our planet is facing tremendous pressure resulting in a sharp rise in temperature. Therefore, there is an urgent need to plan the consumption of the resources in sustainable manner in order to conserve natural resources for future generation.

Sustainable development is becoming popular in the world for saving the earth. Utilizing resources judiciously can save the earth's precious resources. Measurement of environmental components is the most effective step to conserve and protect natural resources.

Environmental auditing began in the early 1970s with the provision of civil lawsuits for non-compliance with environmental regulations. Environment auditing involves on-site visit, collection of samples, performing analyses, and reporting results to competent authorities.

Industry, the corporate world is initiating auditing for saving natural resources. Academic institutions also can contribute to the preservation and conservation of resources within their premises.

In this, "Environment Audit" report would help everyone to think about preserving resources, show willingness to learn their importance, adopt steps to minimize resource use and set an example for others to follow the path of eco-friendly practices to achieve the goal of sustainable development. Effective implementation of environmental auditing helps in minimization of environmental risks at low cost.

OVERVIEW OF THE UNIVERSITY

The genesis of IIHMR University dates to October 5, 1984, when its sponsoring body, the Indian Institute of Health Management Research, was established. In 2014, IIHMR University was established and incorporated as a postgraduate research university by the Government of Rajasthan vide the IIHMR University, Jaipur Act, 2014 (Act No. 3, of 2014).

The University has four Schools:

- Institute of Health Management Research (IHMR)
- School of Pharmaceutical Management (SPM)
- School of Development Studies (SDS)
- S. D. Gupta School of Public Health (SDG-SPH)

IIHMR University has a multi-disciplinary faculty team that is extensively engaged in academics, research, training, consultancy, partnerships, and collaborations. IIHMR University offers the following postgraduate programs: MBA (Hospital and Health Management), MBA (Pharmaceutical Management), MBA (Development Management).

IIHMR University offers Ph.D. programs in public health, health management, hospital management, digital health, and development studies.

IIHMR University has significantly contributed to the Executive Development and Management Development Programs by consistently engaging in EDPs/MDPs for national and international participants, working with government, national and international NGOs, and private sector organizations. Participants from more than 40 countries benefitted from the EDPs/MDPs.

MISSION & VISION

MISSION

IIHMR University is dedicated to the improvement in standards of health through better management of health care and related programmes. It seeks to accomplish this through management education, research, training, consultation and institutional networking in a national and global perspective.

VISION

To become a world-class higher education institution by promoting education and research for betterment of society.

Facilities in the campus

IIHMR University's beautiful campus is among the best designed and landscaped campuses in the country. Spread over 14.37 acres, the campus is lush green and punctuated by wonderful buildings, tall trees, and pathways. The pictures on this page give you a glimpse into this wonderful world.

GREEN CAMPUS: IIHMR University boasts a pristine, eco-friendly campus adorned with lush greenery, exquisite landscaping, and vibrant flower beds.

COMPUTER LAB: IIHMR University's Computer Center is equipped with cutting-edge technology to support both academic and administrative tasks year-round. In addition to facilitating university activities such as research, teaching, training, and consultancy, the center actively engages in software development, particularly in the healthcare sector.

SPORTS ACTIVITIES: IIHMR University encourages students to engage in sports for leisure and fitness. We offer facilities for various sports including lawn tennis, table tennis, carom, billiards, cricket, football, badminton, basketball, and volleyball. Students often enjoy participating in and spectating these activities in the evenings.

MESS: IIHMR University operates a large mess serving wholesome and nutritious meals to students.

CANTEEN: Students can also dine at on-campus canteen, which offers healthy and affordable food options ranging from spicy samosas to full meals. The menu includes a variety of chocolates and soft drinks to cater to different preferences.

HOSTEL: IIHMR University provides comfortable hostel accommodations on campus, featuring spacious, well-furnished rooms with both air-conditioned and air-cooled options, along with modern amenities for student convenience.

EXECUTIVE SUMMARY

The environment audit is a snapshot in time, in which one assesses campus performance in complying with applicable environmental laws and regulations. Though a helpful benchmark, the audit almost immediately becomes outdated unless there is some mechanism in place to continue the effort of monitoring environmental compliance. Our approach to promoting a Green Campus to inculcate sustainable value systems among the students, so that they carry the learning and practice them in their future endeavors. This will ensure that Sustainability and Environmental practices get embedded in all the institutions and organizations in the country.

A Green Campus is a place where environmentally friendly practices and education combine to promote sustainability in the campus which ultimately offers an institution the opportunity to take the lead in redefining its environmental culture and developing new paradigms by creating sustainable solutions to the environmental, social, and economic needs of the mankind. This is the third environmental audit of the university for doing its bit towards environmental protection and environmental awareness on local and global fronts. The audit criterion is environmental cognizance, waste minimization and management, biodiversity conservation, water conservation, energy conservation, and environmental legislative compliance by the campus. A questionnaire is used during an audit. This audit report contains observations and recommendations for the improvement of environmental consciousness.

WASTE MANAGEMENT

TYPE OF WASTE ON UNIVERSITY CAMPUS

To create effective waste management plans, university first need to know the type of waste being generated at the campus. Below, we have compiled a list of various kinds of waste commonly generated on institutional campus:

1. **FOOD WASTE** - University campus generates food waste. The average mess and canteen generates approximately 14 kg of food waste a day. The reasons for food waste on an educational campus may be over purchasing food to ensure a sufficient supply and then throwing it away, especially in all hostel messes where plentiful stores are essential. And in the cafeteria or hostel mess, students may pile food onto their trays, find it unappealing once they sit down and dutifully scrape it into the garbage. Immediate attention is given to the food waste minimization techniques.
2. **RECYCLABLE PAPER, CARDBOARD, PLASTIC, GLASS AND CANS** - Campus tends to produce vast quantities of these recyclables. Even in the digital age, many students, professors and staff members still prefer handwritten notes and end up with piles of unwanted paper once their courses and projects are complete. And shipments of necessary items throughout the year are likely to arrive in recyclable plastic and cardboard packaging. The same is sold/auctioned to the scrap vendors time to time.
3. **STUDENT CLOTHES AND HOUSEWARES** - As we have mentioned above, many students find it more convenient to throw away their clothes and dorm furnishings at the end of the year than donate or recycle them.
4. **E-WASTE** - Student and facility electronics often form a large portion of a campus's waste — As campus continually upgrade their computing facilities and office computers to keep up with the latest technology, the old computers have to go somewhere. So do old printers, phones, copy machines and other electronics that receive upgrades over the years. Discarded student electronics often become part of a campus's waste stream as well.
5. **CHEMICAL WASTE** - Chemical waste on a campus may come from numerous sources. Campus laboratories generate waste chemicals, as do cleaning services. The detergents used in campus laundry rooms eventually become waste as well. Much of these chemical substances are hazardous waste under Manufacture, Storage and Import of Hazardous Chemicals Rules, 1989 and must undergo specific disposal processes according to state environmental rules and regulations.

Registrar

The IIHMR University
1, Prabhu Dayal Marg

New Sanganer Airport, Jaipur-302029

6. **MAINTENANCE WASTE** - In the maintenance department, spent paints, solvents, adhesives and lubricants all form potentially hazardous waste. Because they are difficult to recycle, spent incandescent light bulbs usually become landfill waste. Spent fluorescent light bulbs, which contain small amounts of mercury, typically require special handling because of the environmental and health risks they pose.
7. **BIOLOGICAL WASTE** - Biological waste from laboratories will require special handling and disposal as per BMW Rules, 2016. IIHMR University has installed number of furnace to manage lab's waste at different labs.
8. **FURNITURE** - Furniture waste on campus has a couple different sources. The campus itself may also get rid of old furniture as it modernizes its classrooms, cafeterias, computer labs and study spaces. Annually sold to a junk dealer.
9. **BOOKS/MAGAZINES/NEWSPAPERS** - Books account for solid waste generation and institutions often generate tons of textbook waste. As courses upgrade to new editions, they may end up throwing their newly obsolete textbooks into the garbage if donation programs cannot use them. Students of IIHMR University donate their text books and notes to junior students or else are auctioned to resellers.
10. **C & D WASTE** - Expansion of campus building and renovation works result significant amount of construction and demolition waste that should be either used for back filling or disposed off through authorised dumping site by CPCB/SPCB.
11. **SOLID WASTE** - The university is managing solid waste by providing via composting and bio gas plant.
12. **HORTICULTURE WASTE** — University campus has lavished greenery and grounds that results significant horticulture waste which is managed by in-house composting system.

ENERGY CONSERVATION

1. List ten ways that you use energy in your institute. (Electricity, LPG, firewood, etc.). Using this list, try to think of ways that you could use less energy every day.

A. Electricity

- Lights, Fans, Air conditioners
- Lab equipment
- Computers in labs, faculty rooms & offices
- Electrical Appliances in Pantry

B. LPG

- Cafeteria and hostel mess

Ways to use less energy

- Replacing the conventional bulbs to LEDs
- Solar PV installed on building roofs
- Use of natural light when possible
- Use large appliances together to reduce energy use.
- Cleaning of Filters on regular basis and replace them whenever needed.
- Sealing cracks and gaps and leaks and adding insulation which leads to saving energy up to 10% on heating and cooling.
- Insulate the room spaces
- Turn off the switch on the socket after use.

2. Are there any energy saving methods employed in your institute? If yes, please specify. If no, suggest some

- Electricity is saved by use of LED bulbs for illumination.
- In Canteen, LPG is saved by use of pressure cookers for cooking food but in pandemic time, canteen was non-operational.
- Switch off fans and lights when not in use
- Various energy conservation awareness programs for students and staff
- Keep the computers and ACs on power saving mode.

3. How many CFL/LED bulbs has your institute installed?

Approx 80 % of Total Conventional bulbs and tube lights are replaced by LED Lights.

4. Do you run "switch off" drills at institute?

Yes

Registrar

The IIHMR University
1, Prabhu Dayal Marg

Near Sanganer Airport, Jaipur-302029

5. Are your computers and other equipment's put on power-saving mode?

Yes

6. Does your machinery (TV, AC, Computer, weighing balance, printers, etc.) run on standby modes most of the time? If yes, how many hours?

Yes, In office hours

Energy Share	kWh	Percentage
Electric Grid kWh	818235	77.64%
Solar PV-kWh	141008	13.38%
HSD-Eq. kWh	65760	6.24%
LPG Eq. kWh	28827	2.74%
Total -kWh	1053830	100%

WATER AND WASTE-WATER MANAGEMENT

1. List uses of water in your institute

Basic use of water in campus:

Drinking – 22.36 KL/month

Gardening – 1194.63 KL/month

Kitchen and Toilets – 146.79 KL/month

Others – 63.73 KL/month

Hostel – 842.40 KL/Month

Total = 2269.71 KL/Month

Water Consumption (KL per Month)

2 How does your institute store water? Are there any water saving techniques followed in your institute?

Water storage in terrace Tanks

Saving Techniques

- Avoid overflow of water-controlled valves are provided in water supply system.
- Close supervision for water supply system.
- Sensor-based taps are installed
- Water Conservation awareness for new students
- Sprinklers usage for gardening and grass cover

3. Locate the point of entry of water and point of exit of waste water in your institute. (Entry and Exit)

Entry - Water comes from Borewells

Exit- From Canteen, Toilets, Hostel, Bathrooms and Labs through covered drainage which is connected to the sewage treatment plant (22 KLD), and treated water is used for gardening purposes

4. Write down ways that could reduce the amount of water used in your institute

Basic ways:

- Close the taps after usage
- Water Conservation awareness for new students
- Maintenance and monitoring of valves in supply system to avoid overflow, leakage and spillage
- Sensor-based taps and push tap are installed to save water

5. Does your institute harvest rainwater?

The university has a rainwater harvesting pond for better groundwater recharge.

6. Is there any water recycling System?

Yes, IIHMR University has fully functional STP (22 KLD) which treated the waste water. And treated water is being used for gardening purpose

Registrar

1, Prabhu Dayal Marg

Near Sanganer Airport, Jaipur-302029

AIR QUALITY MANAGEMENT

1. Are the Rooms in Campus Well Ventilated?

Yes, as per National Building Code, guidelines

2. Window Floor ratio of the Rooms?

Very Good, ample daylight utilization because of big windows.

3. What is the ownership of the vehicles used by your campus?

There are 1 car and 1 van in university.

4. Provide details of Institute-owned vehicles?

1 Car – petrol

1 van – Diesel

5. PUC done?

Yes

6. Specify the type of fuel used by your campus's vehicles

1 Car – petrol

1 van – Diesel

8. Air Quality Monitoring Program (If, Any)

No

ENVIRONMENT LEGISLATIVE COMPLIANCE

1. Are you aware of any environmental Laws Pertaining to different aspects of environmental management?

Yes

2. Does your institute have any rules to protect the environment? List possible rules you could include.

Yes, IIHMR University's- Eco club is conscious about the environment protection and takes proper measures in terms of awareness campaigns, activities, webinar, seminars, etc.

3. Does Environmental Ambient Air Quality Monitoring conducted by the Institute?

No

4. Does Environmental Water and Waste water Quality monitoring conducted by the Institute?

No

5. Does stack monitoring of DG sets conducted by the Institute?

No

6. Is any warning notice, letter issued by state government bodies?

No

7. Does any Hazardous waste generated by the Institute?

No

Registrar
 The IIHMR University
 1, Prabhu Dayal Marg
 Near Sanganer Airport, Jaipur-302029

GENERAL INFORMATION

1. Does your institute have any rules to protect the environment? List possible rules you could include.

- Periodic Plantation drive
- Ban on single use plastic
- Biodegradable waste management through Composting
- Water and energy conservation through posters

2. Are students and faculties aware of environmental cleanliness ways? If Yes Explain

Yes. IIHMR University creates awareness through ECO Club activities, Webinars, cleanliness drives in the community.

3. Does Important Days Like World Environment Day, Earth Day, and Ozone Day etc. eminent in Campus?

Yes, World Environment Day, Ozone Day, Earth Day, World water day, World wetland Day, Earth hour and more are celebrated by campus.

4. Does Institute participate in National and Local Environmental Protection Movement?

Yes

5. Does Institute have any Recognition or certification for environment friendliness?

Certificates are attached in Annexure I

7. Does Institution conduct a green or environmental audit of its campus?

This is the third external audit carried out by the university.

INITIATIVES CARRIED OUT BY UNIVERSITY

➤ Solid Waste Management

- Collect paper waste produced on campus and collaborate with scrap dealers for recycling.
- University is managing biodegradable waste through composting.
- Reduce use of paper by supporting digitization of attendance and internal assessment records.
- Reduce requirement of printed books by updating the e-books and e-journals collection of the University library.
- Take initiatives to spread awareness amongst students about food wastage and ways of minimizing it
- The habit of reusing and recycling non-biodegradable products
- Organizing workshops for students on solid waste management.
- There is ban on single use plastic and plastic crockery in the campus.
- University is in process to install sanitary waste disposal facility by installing incinerator as per CPCB guidelines for the management of sanitary waste -As per Solid Waste Management Rules, 2016

➤ Liquid Waste Management

Maintain leak proof water fixtures.
Continued employment of a caretaker to take immediate steps to stop anywater leakage through taps, pipes, tanks, toilet flush etc.
Reuse of wastewater generated by the Reverse Osmosis (RO) system in gardening.
Urinals are installed in boys washroom to reduce water wastage
STP is installed for waste water treatment

➤ E-waste Management

- University has a separate storeroom for the safe storage of electronic waste. After a certain interval of time university disposes of the E-waste to concerned agencies through the auction process.

➤ Rain water harvesting

- University has a rainwater harvesting pond for better groundwater recharge

➤ Renewable Energy

- The University has also installed solar PV (100 kWp) on the rooftop of building.
- The University is using solar lights for street lights.
- The University believes in using cleaner energy such as LED lighting.

➤ Air Pollution Reduction

- Personal Vehicles (Students) are not allowed in the campus

RECOMMENDATIONS

- Eco-friendly parameters should be included in the purchase of articles and goods for the campus.
- Car-pooling practices can be adopted by campus to minimise air pollution.
- The periodic maintenance schedule for solar PV, rainwater harvesting and STP to achieve optimised efficiencies.
- Environmental Monitoring i.e. Stack Monitoring of DG sets, Water monitoring, air quality monitoring need to be conducted periodically (as per SPCB).
- Agreement with third party authorised vendors should be done for different types of waste management, such as BMW, paper waste, Plastic waste, etc.
- Reduce carbon emission by reducing the LPG and diesel consumption
- Initiate the use of solar geysers in hostel
- Water metering records should be in practice for water auditing and balancing.
- Borewell permission should be taken from CGWA.

CONCLUSION

This audit involved extensive consultation with all the campus team, interactions with key personnel on a wide range of issues related to environmental aspects. Overall, 50% of university campus is for landscaping. IIHMR University is dedicated to promote the environment management and conservation in the campus and community. The audit has identified some suggestions for making the campus premise more environment friendly. The recommendations and suggestions are mentioned for campus to initiate actions.

The audit team opines that the overall site is well-maintained from environmental perspective. The recommendations in this report highlight many ways in which the university can work to improve its actions and become a more sustainable institution.

Online Laundry Solutions

Laundry pickup Drop schedule in IIHMR University.

2nd year Boys

Monday and Thursday Time -7pm to 8.30pm

2nd year girls

Monday and Thursday Time -7pm to 8.30pm

1st year girls

Tuesday and Friday Time 7pm to 8.30pm.

1st year Boys

Tuesday and Friday Time 7pm to 8.30pm.

@Terms & Conditions

- 1) You are eligible for 60 clothes in a month (if it exceeds then it will be charged @ 10 RS per cloth)
- 2) Clothes like blazers, coat, blanket, Jackets, curtains are not included in above 60 clothes
It will charge as per our dry-clean rates.
- 3) We will provide solution within 15 days, if any clothes were lost or damaged by our side then bear only 60% value of that Clothes according to invoice or bill.
- 4) We will not responsible for loss of any socks, handkerchief and innerwear's.
- 5) Our visiting schedule is twice per week (8 times in a month). In a single pickup day we pick up maximum numbers of clothes are 15.
- 6) We are not responsible to remove 100% stains from your clothes.
- 7) We will come to collect the laundry; at that time you can take the clothes and if you are not available than we will bring back the remaining Laundry packets.
- 8) If you give dry-clean woolen and Dry-cleaning clothes in normal wash and they damaged then we will not take any responsibility.
- 9) It is compulsory to acknowledge or sign on the sheet available at the laundry pickup and drop time.
- 10) We provide you every month card and laundry packets.
