Subject: Human Process Lab Session at IIHMR (August 16-20, 2022 for Batch 1 and August 22-26, 2022 for Batch 2)

Dear Mr. Naman Parashar,

IIHMR University welcomes you on board for a unique learning journey!

The IIHMR University in collaboration with the Indian Society for Applied Behavioural Science (ISABS) offers you an opportunity to learn through experience and experimentation in a Human Process Lab (HPL).

HPL will be facilitated by Professional Members of ISABS. Indian Society for Applied Behavioural Science (ISABS) is a national, non for profit, voluntary, organisation founded in 1972 by eminent academicians and Group of Behavioural Scientists engaged in applying their knowledge and skills for the wellbeing and effectiveness of persons, groups, organisations, communities and Society at large.

It is one of the significant courses that is integrated into the MBA program for more than a decade. HPL is a method of accelerating the process of human empowerment. It facilitates actions and processes that affect not just specific people but also groups and communities, hence it is expected from all the students to be present and involved in every session during these five days.

The pedagogy of an HPL is experiential learning wherein they use T-Group Methodology. Typically, the T-Group learning process involves around 08-12 members working together in a small group. The members learn from and with each other in the "here and now". The focus of the methodology is on sharing feelings, giving and receiving feedback and self-awareness.

THE BROAD OVERARCHING OBJECTIVES OF HPL:

To develop awareness and deepen one's understanding of human behavioural processes to enhance one's potential as well as effectiveness.

AT SELF and INTERPERSONAL LEVEL

- Become aware of one's own patterns of behaviour.
- Realise the impact of one's behaviour on others and other's behaviour on oneself.
- Discovering one's strengths as a person, the roots of values and principles.

AT GROUP and COMMUNITY LEVEL

- Recognize the impact and power of interactions between oneself and the full community.
- Improve one's effectiveness in inter-personal interactions and group work to derive greater mutual satisfaction from them.

AT PERSONAL CHANGE LEVEL

- Dream and commit to future career and life goals for personal growth.
- Identify self-development and learning goals to become a self-directed person.

All the students who have been through this course till date have found this very enriching and meaningful. An open mind, spontaneous and authentic sharing and committed participation will be critical for you to maximize this opportunity for your learning.

DATE and DURATION:

The Learning Laboratories will be conducted for a duration of 5 continuous days from:

August 16-20, 2022 for Batch 1 and August 22-26, 2022 for Batch 2.

Timings: 09:30 AM to 06:30 PM (including breaks for tea-coffee and Lunch).

Detailed schedule including the Batch-Wise Group and Venue will be shared with you on First Day in the Opening Plenary session. Participation on all days is essential for effectiveness for self and others as the same small groups (after they are formed on Day One) will work together across all the 5 days.

For finalizing batch and groups in the learning laboratories, you are required to fill the details given in the form.

The link of the form is given hereunder:

<https://forms.office.com/r/cUFFi5vYBN>

Kindly fill in the form latest by Aug. 09, 2022, 10:00 AM.

Best wishes for a meaningful experience!

Warm regards,

Dr. P.R. Sodani
