3. Course Description

Managerial accounting is the process of identifying, measuring, analyzing, interpreting and communicating information for the pursuit of an organization's goals. This branch of accounting is also known as cost accounting. Managerial accountants use information relating to the costs of products or services purchased by the company. Budgets are also extensively used as a quantitative expression of the business' plan of operation. Individuals in managerial accounting utilize performance reports to note deviations of actual results from budgets.

4. Course Objectives

The course objective is to develop an understanding of principles of costing and budgeting and its relevance in financial management in an organization.
