Subject: IIHMR University: e-Reporting/e-Joining of Newly Admitted Students in MBA Programs 2020-22

Dear Paras Soni,

Greetings from IIHMR University, Jaipur!!

Hope you and your family are doing well and are safe in the current challenging situations. First of all, I would like to welcome you in the MBA Program 2020-22 of the IIHMR University, Jaipur. I am happy to share with you that we have scheduled the e-reporting/ e-joining of the newly admitted students in MBA Programs 2020-22 (MBA HM/ MBA PM/ MBA RM) on July 20-21, 2020. You are required to complete and submit the **Student Reporting Form** (see the link given below) at the earliest, but not later than July 19, 2020 at 05:00 PM. The information submitted by you through this form will be used for official purposes for your MBA program in the University. The University Academic section may contact you, if any information is pending/ missing in your official record available with the University during July 20-21, 2020.

Link for Student Reporting Form: <https://form.jotform.com/201740523588052>

The **e-inauguration** of the MBA Programs 2020-22 (MBA HM/ MBA PM/ MBA RM) is scheduled on Wednesday, July 22, 2020. A two-day **e-induction program** for newly joined students of MBA programs is scheduled on July 23-24, 2020. The detailed information on e-inauguration program and e-induction program will be shared with you at the earliest.

This year, before the core courses teaching starts, the University has scheduled Six basic courses (Non-credit), each of one-week duration, which will be conducted through online mode (Microsoft Teams Application) during July 27 to September 4, 2020 to engage and connect the students with the University and to provide them opportunities to learn new knowledge and skills through basic courses, which would be useful for you to progress in your studies. The basic courses are as follows:

- 1) Design Thinking
- 2) Basic Excel
- 3) **Social and Economic Environment**
- 4) Written Analysis and Communication
- 5) Excel Application and PowerPoint Presentations
- 6) Health and Wellness: What You Need to Know about COVID-19?

The core courses teaching will start from September 7, 2020. The Teaching Calendar 2020-21 will be shared by the academic section of the University in due course of time. The University's IT department will share the information related to ERP, Student's Email ID, and CollPoll ID to you very soon.

Look forward to have you a great learning experience at IIHMR University.

Faculty/Instructor Name:	: Prof. Rahul Ghai, Dr Sazzad Parvez and Dr. Piyusha Majumdar
Mode of Delivery	: Online (through Microsoft Teams) <i>Course Instructor/Faculty will decide the timings for each day. The same will be communicated to students to connect on the online platform)</i>

Course Description:

India is a veritable ancient civilization that is more than 5000 years old. Indian society is characterized by an immense sociological and geographical diversity. Tenacious continuity of some structural features interwoven with dynamic change of social and economic formations has created a multifarious tapestry that has its own unique share of paradoxes, stark contrasts, ironies but equally hope, celebration and promise for India.

Home to 1.1 billion people and the world's largest democracy, India has been a living, breathing paradox since the 21st century began. The drivers, challenges, opportunities and threats to socio-economic prosperity vary widely within the Indian peninsula to the point that India could be characterised as having nearly all the complexities of Africa plus, in many areas, the affluence of the United States, attributable to its rising 375 million middle class.

The economic development and resultant urbanization has created diversified development process in India. Economic development has led to economic growth, GDP and per capita income but such coverage does not reach many of the poor. Exclusion is often concentrated by region (e.g., rural north and east India), or among ethnic, tribal and racial minorities. Discrimination and entrenched structures of inequality are embedded in socio-economic foundations that are constituted by historical-political-social-cultural development.

The COVID-19 has accentuated these inequalities and disparities in more than one ways. The imposition of the lockdown as a measure to contain the exponential progression of the COVID-19 pandemic has hit the unskilled and semi-skilled migrant labourers the most. In the last few months, we have all been witness to harrowing, nerve-wrenching and bone chilling images of the exodus of these marginal and "invisible" drivers of the informal economy of urban India. Indian highways

emptied of most vehicles were lined with bedraggled, poor pedestrians, many carrying all their worldly belongings in bundles on top of their heads walking to their home villages, hundreds or thousands of miles away across states.

The impact of Covid-19 and resultant lockdown has affected socio-economic situation of millions of people in India. It has resulted in loss of job and decline GDP in economic terms. In view of the adverse consequences of ill health on overall economic development and poverty reduction, government should ensure universal health coverage. The positive impact that health has on growth and poverty reduction occurs through a number of mechanisms, such as through a reduction of production losses due to fewer worker illnesses, the increased productivity of adults. Additionally, intrinsic value, would lead to a more just and sustainable development.

Many of the determinants of health and health inequities in populations/ethnic/ minority/ tribal groups have social, cultural, environmental and economic origins, that extend beyond the direct influence of the health sector and health policies. Though the shared values of socio-cultural contexts are complex, understanding them is critical to health and well-being policy development.

The unfolding of the corona pandemic across the globe and in India has underscored its urban nature, to go after population concentrations and congested built environments. The post corona recovery has to make sense of the morphology and the diffused pattern of urbanization in contemporary India: beginning to be understood as 'India's urbanization "puzzle".' Metropolitanization exists alongside diffused combinations of localized socio-economic opportunities, clusters, cottage industries, and market towns partially interlinked by developmental corridors. The spatial configurations of these geographies have been hit the most in the corona crisis.

This foregrounds the ensuing discussion about the context of 'rurban' India. New configurations of rural-urban Interdependencies / linkages and continuum that characterize the complexity and dynamism of social spectrum between 'rural' and 'urban' is better understood by a recalibration and unpacking of concepts like 'rural', 'urban' and 'rurban'. Urban and rural socioeconomic environments are intimately tied together in a synergetic fashion, so that urban sustainability cannot be divorced from rural sustainability.

Course Objectives:

- To learn perspectives about contemporary social economic environment in India
- To understand multifaceted relations of social economic realities and quality of development transformations in India
- To foster critical inquiry regarding emergent social economic environments and post COVID on- going transformations

Course Content:

Module No.	Theme
1.	Economy and Society a. World Economy and Society b. India's Macroeconomic Environment and Society
2.	Growth and Development a. Economic Growth and Development b. India's Economic and Business problems
3.	Natural Resources, Policies and Development a. Natural Resources and Economic Development b. Economic Policies and Development Covid-19 and Economic implications
4.	a. Influence of Culture and Social Factors on Health b. Social Determinants of Health c. Health Belief Model (COVID-19 HBM)
5.	Transforming Geographies of Difference and socio economic realities
