EVENT OUTCOME REPORT

“Master Class Episode no 111”

“Master Class Episode No 111”
Topic: - Business development in clinical research industry across the nations.
Date: - 28 August 2024 from 10:00 am to 01:00 pm
Venue: - New Auditorium Part-A, IIHMR University
Speaker: - Mr. Rajendra Talele, Founder and CEO, EVIASEARCH-Mumbai
Number of participants: - 132 students from Pharmaceutical Management Batch -15
Introduction: - The 111 episode of the Master Class titled Insights into Business development in Clinical research industry as well as CRO, CDMO and CMO INDUSTRY. It was held on 28 th August 2024. This session featured Mr. Rajendra Talele, founder and CEO EVIASEARCH, Mumbai, as the guest speaker. The event was moderated by Dr Ashok Kumar Peepliwal, Professor of School of Pharmaceutical Management and Student moderator Ms. Binali Contractor from MBA Pharmaceutical Management Batch 15. The Session Focused on “Business development in clinical research industry across the nations.”
Objective: - The masterclass aimed to help students gain knowledge about the Business development in Clinical research industry as well as CRO, CDMO and CMO Industry.
Salient Novel Points Covered: Role: Mr. Rajendra Sir, a prominent figure in the pharmaceutical industry, conducted a masterclass focused on the current trends and challenges in the CRO (Contract Research Organization), CDMO (Contract Development and Manufacturing Organization), and CMO (Contract Manufacturing Organization) sectors. He highlighted the significant gap in clinical research and trials within the pharma industry and introduced his startup, EVIASEARCH, as a solution to address this issue. Key Points from the Masterclass • Industry Trends: Mr. Rajendra Sir discussed the latest developments in CRO, CDMO, and CMO industries, emphasizing the increasing demand for outsourcing services due to cost-effectiveness and expertise. • Gap in Clinical Research: He identified a critical gap in the clinical research and trials process, particularly in terms of efficiency, cost-effectiveness, and data management. • EVIASEARCH Solution: Mr. Rajendra Sir explained how EVIASEARCH has been developed to bridge this gap by providing a platform that streamlines clinical research operations, enhances data management, and improves overall efficiency. • Problem Statement: He elaborated on the specific challenges faced by pharmaceutical companies in clinical research and how EVIASEARCH addresses these issues through its innovative approach.

Q &A and Interactive Discussion:

Following Mr. Rajendra Sir's presentation, a lively Q&A session and interactive discussion took place. Participants had the opportunity to ask questions about the CRO, CDMO, and CMO industries, EVIASEARCH, and the future of clinical research. The discussion covered topics such as:

- The potential impact of AI and machine learning on clinical research.
- The challenges of regulatory compliance in the pharmaceutical industry.
- The role of CROs, CDMOs, and CMOs in drug development.

Future Scope: The future scope of this master class lies in equipping students with essential skills and mindset for a successful industry career, making them well-prepared to success in a dynamic and competitive business environment. It also offers a foundation for ongoing professional growth and adaptability in an ever-evolving industry landscape.

Appropriate caption for the Masterclass : “Navigate the complexities of clinical research business development-A case study on EVIASEARCH.”

IIHMR UNIVERSITY, JAIPUR
EVENT OUTCOME REPORT
“Master Class Episode no 112”

“Master Class Episode No 112
Topic: - Critical Thinking & Decision Making
Date: - 31 st August 2024 from 2:30 pm to 5:00 pm
Venue: - New Audi Part A, IIHMR University
Speaker: - Brigadier. Sanjay Baweja (R), Principal Administrative Officer, NHSRC, New Delhi
Number of participants: - 180 students from Hospital & Health Management, Pharmaceutical Management, & Health Analytics
Introduction: - The 112th episode of the Master Class titled "Critical Thinking & Decision Making" was held on August 31st, 2024, at IIHMR University. The session featured Brig. Sanjay Baweja (R), Principal Administrative Officer at the National Health System Resource Centre (NHSRC), New Delhi, as the guest speaker. The event was moderated by Mr. Vinod Tejawani, Dean of Placement & Alumni Relations, and student coordinator Dr. Srabani Chattopadhyay from the MBA HEM 28 batch. The session focused on Critical Thinking & Decision Making.
Objective: - The masterclass aimed at helping students understand the qualities of leadership and implementation of critical thinking
Salient Novel Points Covered: Role: Brig. Baweja emphasized the qualities a leader should possess and methods to implement critical thinking in our daily lives to obtain highest quality of results. Q &A and Interactive Discussion: The session encouraged active participation from students, who asked insightful questions based on the industry requirement and the skills needed to work in the future.
Future Scope: The future scope of this master class lies in equipping students with essential skills and mindset for a successful industry career, making them well-prepared to success in a dynamic and competitive business environment. It also offers a foundation for ongoing professional growth and adaptability in an ever-evolving industry landscape.

EVENT OUTCOME REPORT

“Master Class Episode no 113”

“Master Class Episode No 113
Topic: - Innovation Imperative: Driving Pharmaceutical Development.
Date: - 06 September 2024 from 11:30 am to 01:00 pm
Venue: - New Audi, IIHMR University
Speaker: - Mr. Vivek Hattangadi sir Chief mentor – B Black Belt Brand Builders, Ahmedabad , Gujarat, India
Number of participants: - 198 students from Pharmaceutical Management Batch 15 and 16 and Students of Healthcare Analytics.
Introduction: - The 113 episode of the Master Class titled: Innovation Imperative: Driving Pharmaceutical Development, key concepts and applications - held on 06 rd Sep 2024, at IIHMR University. This session featured: - Mr. Vivek Hattangadi sir , Chief mentor – B Black Belt Brand Builders, Ahmedabad , Gujarat, India., as the guest speaker. The event was moderated by Dr. Sudhindher Singh Chowhan, and student moderator Shefali Karmore from the MBA PM15 batch and Priyanka Sing from PM 16 batch. The session focus on : 13 Unshakable laws of Pharma Brand Building
Objective: - To understand the 13 unshakable laws of pharma brand building, develop robust knowledge of your brand, differentiate your brand, and embed patient centricity in your brand.
Salient Novel Points Covered: Role: Develop robust knowledge of your brand, differentiate your brand not the generic molecule, dump pharma mindset and develop FMCG mindset, know competitors like the back of your hand, invest in building world-class communication skills, brand audit is a must, branding starts with the brand name, embed patient centricity in your brand, move away from the red ocean to the blue ocean, focus on prescription generation, invest in phygital marketing. Q &A and Interactive Discussion: Role play exercises to demonstrate application of the 13 laws, Q&A session to clarify doubts and address questions.
Future Scope: Apply learnings in real-world scenarios, future trends in pharma branding and marketing, next steps to continue building knowledge and skills in pharma brand building..

IIHMR UNIVERSITY, JAIPUR

EVENT OUTCOME REPORT

“Master Class Episode no 114”

“Master Class Episode No 114”	
Topic: “Workshop on Mobility, Scholarships & Higher Studies”	
Date: 10 th September 2024 from 11:00 am to 1:00 pm	
Venue: Old Audi, IIHMR University	
Speaker: ING. Pawan Kumar Mishra, PG D, Assistant professor & South Asia Coordinator Faculty of Business & Economics, Mendel University in Brno	
Number of Participants: 100 students from MBA Hospital & Health Management Batch - 28	
Introduction: The 114 episode of the Master Class, Workshop on Mobility, Scholarships & Higher Studies, held on 10 th September 2024, at IIHMR University. This session featured – ING. Pawan Kumar Mishra, PG D, Assistant professor & South Asia Coordinator Faculty of Business & Economics, Mendel University in Brno., as the guest speaker. The event was moderated by Ms. Kirti Agarwal , Manager-Strategic Planning and Partnership. The session focused on “Workshop on Mobility, Scholarships & Higher Studies.”	
Objective: The master class aimed to help students understand and learn more about Entrepreneurship and Innovations taking place in Start-up Ecosystem in India.	
Salient Novel Points Covered:	
Role: Mr. Pawan Kumar Mishra focused on	
1. Global Mobility Opportunities – Insights into student exchange programs, internships, and international collaborations that enhance academic and professional growth. 2. Scholarship Avenues – Guidance on securing fully funded and merit-based scholarships from prestigious universities, governments, and private organizations. 3. Higher Education Pathways – Comprehensive overview of undergraduate, postgraduate, and doctoral study options across various disciplines and countries. 4. Application & Admission Strategies – Expert advice on crafting compelling applications, writing standout statements of purpose (SOPs), and securing strong recommendation letters. 5. Career & Research Prospects – Insights into industry trends, networking opportunities, and research funding for students aiming for academic or professional careers abroad. 6. Alumni & Success Stories – First-hand experiences from successful scholars who navigated mobility and scholarship processes to achieve academic excellence. 7. Digital & Hybrid Learning Trends – Exploring online and hybrid education models, micro-credentials, and certifications that complement traditional degrees. 8. Financial Planning & Budgeting – Practical tips on managing tuition fees, living expenses, and part-time work opportunities for self-sufficient student life.	

Q&A and Interactive Discussion: Personal experiences from alumni and scholarship recipients.

- ◆ Challenges in securing funding and how to overcome them.
- ◆ Best platforms to find mobility programs and international internships.
- ◆ Open Q&A session for participants to clarify doubts.

Future Scope: The workshop on **Mobility, Scholarships & Higher Studies** has long-term potential to evolve and expand in various impactful ways. Here are some key future scopes:

1. Expansion of Global Opportunities

- More universities and organizations are offering **international mobility programs**, exchange initiatives, and remote learning opportunities.
- Increased **government-backed scholarships** and funding options for students from developing countries.
- Greater emphasis on **bilateral agreements** between universities for credit transfers and dual-degree programs.

2. Career & Research Advancement

- Stronger links between universities and **multinational industries**, offering **internship and research fellowships**.
- Growth of **interdisciplinary programs** focusing on AI, sustainability, healthcare, and emerging technologies.
- More **funding for doctoral and postdoctoral research**, making global academic careers more accessible.

4. Evolving Immigration & Post-Study Work Policies

- Countries are expanding **post-study work visas** to attract global talent (e.g., Canada, UK, Australia).
- More flexible **remote work and digital nomad visa options**, allowing graduates to work globally.

5. Strengthening Alumni & Mentorship Networks

- Establishment of **stronger alumni networks** to guide new applicants through the process.
- **Mentorship programs** connecting scholarship recipients with aspiring students.
- More **peer-to-peer learning platforms** where students share experiences on applications and higher studies.

6. Future Workshops & Collaborations

- **Annual or biannual workshops** with live interactions with university representatives and scholarship providers.
- Collaboration with **ed-tech platforms**, embassies, and government agencies for real-time guidance.
- Specialized sessions on **entrepreneurship, innovation, and startup funding** for students aiming for business ventures.

The future of **higher education, scholarships, and mobility** is expanding rapidly, with digital advancements and global collaboration making it more accessible than ever. This workshop can continue to evolve as a **platform for knowledge-sharing, networking, and career building** on a global scale.

Appropriate caption for the seminar: “Unlock Global Opportunities: Explore Mobility, Scholarships & Higher Studies!”

EVENT OUTCOME REPORT

“Master Class Episode no 116”

“Master Class Episode No 116
Topic: - Insight into mapping your career path from campus to corporate.
Date: - 12 September 2024 from 2:30 pm to 3:30 pm
Venue: - Old Audi, IIHMR University
Speaker: - Mr. Hitesh V Khandelwal, Regional Business Manager at Johnson & Johnson , Pune, Maharashtra.
Number of participants: - 126 students from Pharmaceutical Management Batch -15 and Batch-16
Introduction: - The 116 episode of the Master Class titled Insight into mapping your career path from campus to corporate : key skillsets and their applications - held on 12 th September 2024, at IIHMR University. This session featured:- - Mr. Hitesh V Khandelwal, Regional Business Manager at Johnson & Johnson , Pune, Maharashtra, as the guest speaker. The event was moderated by Mr Vinod Tejwani, Placement Committee, School of Pharmaceutical Management and student moderator Ms. Salony Priya from the MBA PM15 batch. The session focus on into “Mapping your career path from campus to corporate : key skillsets and their applications”.
Objective: - The masterclass aimed to provide students with in-depth knowledge of oncology and hematology, offering insights into the healthcare industry, specifically focused on cancer care and patient outcomes.
Salient Novel Points Covered: Role: Hitesh V. Khandelwal, Regional Business Manager at Johnson & Johnson, shared his extensive experience of over eight years in sales and marketing. He emphasized the critical role of leadership, innovation, and connectedness in the pharmaceutical industry, especially in oncology and hematology. His passion for improving the lives of cancer patients through creative strategies and patient-focused solutions highlighted the impact of these sectors. Q&A and Interactive Discussion: The session encouraged active engagement, with students asking insightful questions regarding the skills required to enter the corporate world and the challenges in the oncology sector. Mr. Khandelwal’s responses offered valuable lessons on leadership, teamwork, and adaptability in an ever-evolving healthcare landscape.
Future Scope: This masterclass serves as a foundation for students to build the necessary skills to thrive in the healthcare industry. By learning from a dynamic leader like Mr. Khandelwal, students are better equipped to pursue successful careers in oncology, hematology, and the broader pharmaceutical sector, with a focus on improving patient care and driving innovation.

EVENT OUTCOME REPORT

“Master Class Episode no 117”

“Master Class Episode No 117
Topic: - Pharmaceutical Business: Marketing and Sales Strategies.
Date: 19 th Sept. 2024 Time: 10:30 AM to 01:30 PM
Venue: - IIHMR University
Speaker: - Mr. Roopesh Mathur, Chief Executive Officer, Jeevan Rekha Super-Specialty Hospital, Jaipur, Rajasthan.
Number of participants: - 116 students from Pharmaceutical Management Batch -16
Introduction: - Episode 117: Master Class on "Pharmaceutical Business: Marketing and Sales Strategies held on 19th September 2024 at IIHMR University, this session featured Mr. Roopesh Mathur, Chief Executive Officer of Jeevan Rekha Super-Specialty Hospital, Jaipur, Rajasthan, India, as the guest speaker. The event was moderated by Dr. Ashok Peepliwal, Professor at the School of Pharmaceutical Management, IIHMR University. The session, scheduled from 10:30 AM to 01:30 PM, focused on key aspects of marketing and sales strategies in the pharmaceutical business, providing valuable insights into industry practices and management approaches.
Objective: - The masterclass aimed to help students gain knowledge about marketing and sales strategies in the pharmaceutical industry and explore the opportunities available in this sector in India.
Salient Novel Points Covered: Role: Mr. Roopesh Mathur emphasized recent trends, concepts, and the scope of marketing and sales strategies in the pharmaceutical business. He also highlighted the importance of each sector within the pharmaceutical industry and its impact on business growth and success. Q &A and Interactive Discussion: The session encouraged active participation from students, who asked insightful questions based on the industry requirement and the skills needed to work in the future.
Future Scope: The future scope of this master class lies in equipping students with essential skills and a strategic mindset for a successful career in pharmaceutical marketing and sales. It prepares them to excel in a dynamic and competitive business environment while providing a strong foundation for ongoing professional growth and adaptability in an ever-evolving industry landscape.

IIHMR UNIVERSITY, JAIPUR

EVENT OUTCOME REPORT

“Master Class Episode no 123”

“Master Class Episode No 123
Topic: - Leveraging AI for capacity building in healthcare
Date: - 27 th November 2024 from 3:30 pm to 4:30 pm
Venue: - New Audi Part A, IIHMR University
Speaker: - Dr. Aditya Bhandari (Senior Programme Officer , Maternity Foundation) Dr. Arunabh Ray (Maternity Foundaton) and Dr. PR Sodani Sir for the welcome address.
Number of participants: - 80 students from Hospital & Health Management, Pharmaceutical Management, & Health Analytics
Introduction: - The 123th episode of the Master Class titled " Leveraging AI for capacity building in Healthcare " was held on 27 th November, 2024, at IIHMR University. Dr. Aditya Bhandari (Senior Programme Officer , Maternity Foundation) Dr. Arunabh Ray (Maternity Foundation) and Dr. PR Sodani Sir for the welcome address. The event was moderated by Dr. PR Sodani sir, and student coordinator Dr. Kassamkuthiyal Rohan George from the MBA HOM 28 batch. The session focused on Leveraging AI for capacity building in healthcar
Objective: - The masterclass aimed to help students understand the function of Maternity Foundation and how AI is used to build new talent , infrastructure and leverage the use to improve healthcare
Salient Novel Points Covered: Role: Dr. Aditya Bhandari showcased the use of safe delivery app, to help heathcare workers to understand the process of safe delivery and other areas of maternity health. Q &A and Interactive Discussion: The session encouraged active participation from students, who asked insightful questions based on the industry requirement and the skills needed to work in the future.
Future Scope: The session on the Maternity Foundation introduced the Safe Delivery App , a vital tool for healthcare workers in remote areas to improve maternal and child health. The app provides step-by-step guidance on managing obstetric and neonatal emergencies through videos and animations. It bridges knowledge gaps in low-resource settings, empowering midwives and nurses to deliver life-saving care. Success stories showcased its impact in reducing maternal and infant mortality. The app is a crucial step towards achieving better health outcomes globally.
Appropriate caption for the webinar: “ LEVERAGING AI TO IMPROVE HELTHCARE ”

IIHMR UNIVERSITY, JAIPUR

EVENT OUTCOME REPORT

"Master Class Episode No 124"

Topic: Artificial Intelligence in Healthcare and Implementation Science

Date: 2nd December 2024

Time: 4:00 PM

Venue: IIHMR University

Guest Speaker: Dr. Waqar M. Naqvi, Founder Director, Ad Vivum Education and Research (Doha/India), and International FAIMER Institute Fellow (2024-25).

Moderated by: Dr. Piyusha Majumdar, Associate Professor at IIHMR University.

Student Coordinator: Dr. Snehgatha Biswas, MPH (IS), Cohort-2, IIHMR University.

Introduction:

The 124th episode of the IIHMR University online masterclass series focused on "Artificial Intelligence in Healthcare and Implementation Science." The session attracted students, professors, and public health professionals globally, including attendees from India, Somalia, Yemen, Iran, and Nepal. The program was led by Dr. Waqar M. Naqvi, who provided insights into the transformative role of AI in healthcare and implementation science.

Salient Novel Points Covered:

1. Revolutionizing Healthcare: Dr. Naqvi discussed how AI enhances diagnostic accuracy, optimizes patient care, and transforms the medical industry.
2. Application in Implementation Research: Insights into AI's ability to analyze complex datasets, monitor real-time cases, and identify gaps in healthcare delivery.
3. Ethical Considerations: Discussion on ethical challenges associated with AI integration in healthcare.
4. Digital Health Tools: Introduction to S.A.R.A.H., a WHO-developed smart AI tool engaging users in multiple languages and accessible 24/7.

Q&A and Interactive Discussion:

The session included an open Q&A segment, where attendees posed questions about AI's practical applications in public health and maternal healthcare. Dr. Naqvi answered enthusiastically, blending expertise with humor, making the session highly interactive.

Conclusion and Future Scope:

The masterclass was a significant learning opportunity, providing valuable insights into the potential of AI in healthcare. It left participants inspired to explore further integration of AI into public health systems. The session equips attendees with a strategic mindset for embracing AI's possibilities in healthcare.

IIHMR UNIVERSITY, JAIPUR

EVENT OUTCOME REPORT

“Master Class Episode no 125”

“Master Class Episode No 125”	
Topic: “Exploring Future Horizons: Career Opportunities and Innovations in the Pharmaceuticals and Life Sciences Industry”.	
Date: 17 th Jan 2025	
Time: 4:00 PM to 5:00 PM	
Venue: IIHMR University Jaipur	
Guest speaker: Dr. (Prof.) Manasranjan M. Rout, Director, Impeerical Consulting Pvt. Ltd., New Delhi, India	
Number of participants: 200+ students from PM Batch 15 & 16 and HM Batch 28 & 29	
Introduction: Episode 125: Master Class on "Exploring Future Horizons: Career Opportunities and Innovations in the Pharmaceuticals and Life Sciences Industry" was held on 17th January 2025 at IIHMR University. The session featured Dr. (Prof.) Manasranjan M. Rout, Director of Impeerical Consulting Pvt. Ltd., as the guest speaker. The event was moderated by Mr. Vinod Tejawani, Dean – Placements and Alumni Relations, IIHMR University. Mr. Yash Soni were the student coordinators. Scheduled from 4:00 PM to 05:00 PM, the session delved into emerging trends, career paths, and innovations shaping the pharmaceutical and life sciences sectors, offering invaluable insights for aspiring professionals. Dr. Rout took the stage to explore the transformative landscape of pharmaceuticals and life sciences, emphasizing technological innovations and career growth avenues. He shared practical insights into navigating this dynamic industry, covering essential aspects such as interdisciplinary opportunities, R&D advancements, and the global impact of innovation. The session progressed with Dr. Rout elaborating on the evolving roles within pharmaceuticals and life sciences, including personalized medicine, digital health, and regulatory sciences. This led to an engaging Q&A session, where students actively sought guidance on career planning and industry requirements. Dr. Rout provided thoughtful responses, further enriching their understanding. The event concluded with a vote of thanks and expressing gratitude for Dr. Rout's time and valuable insights. A group photograph captured the event's spirit of learning and interaction.	

Objective: The masterclass aimed to equip students with insights into the latest career trends and innovations in the pharmaceuticals and life sciences industry, preparing them for future challenges and opportunities in this dynamic field.

Salient Novel Points Covered:

Innovations: Dr. Rout highlighted groundbreaking developments in pharmaceuticals, including personalized medicine, AI-driven drug discovery, and biotechnology advancements.

Career Scope: The speaker emphasized the need for interdisciplinary skills and adaptability to leverage opportunities in emerging areas such as regulatory affairs, clinical research, and healthcare analytics.

Future Vision: Students gained a clear understanding of how global trends and regional dynamics intersect to shape career opportunities in this sector

Future Scope: This masterclass empowered students to explore diverse career pathways in the life sciences and pharmaceutical industries. It encouraged them to adopt a forward-thinking approach and prepare for challenges through continuous learning and innovation.

EVENT OUTCOME REPORT

“Master Class Episode 126”

(By: Dr. Abhishek Dadhich, Assistant Professor, Delhi Pharmaceutical Sciences and Research University (DPSRU), New Delhi)

Event Category: Master Class Episode
Topic: Redefining Quality as " Fitness of Use" from Pharmaceutical Perspective
Date & Time: 27 th January 2025 & 11-1 PM
Venue: Class of MBA PM 15, IIHMR University, Jaipur.
Details of Speakers: Dr. Abhishek Dadhich, Assistant Professor, Delhi Pharmaceutical Sciences and Research University (DPSRU), New Delhi
Number of Participants: 12
Introduction: The 126th episode of the master class Series, titled “Redefining Quality as " Fitness of Use" from Pharmaceutical Perspective,” was held on 27 January 2025 at IIHMR University, Jaipur. The speaker was Dr. Abhishek Dadhich, an Assistant Professor at Delhi Pharmaceutical Sciences and Research University (DPSRU), New Delhi. Dr. Saurabh Kumar Banerjee (Dean SPM) hosted the guest, and Sakshi Arun Zod was the student moderator of the session.
The objective of the Session: To emphasize the critical role of quality in the pharmaceutical industry, highlighting its impact on safety, efficacy, regulatory compliance, and customer trust, and to explore holistic approaches like Total Quality Management (TQM) for embedding quality throughout organizational processes.
Salient Novel Points Covered: Proactive Quality Strategies: Focus on defect prevention rather than correcting errors and fostering trust. • Myths About Quality Debunked: Addressing misconceptions, such as the high cost of quality and the belief that quality is intangible or solely the responsibility of specific departments. • Quality as a Competitive Driver: Linking robust quality systems to innovation, market position, customer satisfaction. • TQM Principles: Detailed insights into continuous improvement, zero defects, and customer-centric practices supported by statistical tools and quality circles.
Future Scope: Integration of Advanced Technologies: Leveraging AI, IoT, and automation to enhance quality control and efficiency. Regulatory Innovations: Adapting to evolving compliance requirements with cutting-edge quality management frameworks. Global Standardization: Aligning quality practices across regions to facilitate international market access. Sustainability in Quality Management: Implementing eco-friendly practices without compromising product quality.

EVENT OUTCOME REPORT

“Master Class Episode Report 128”

(By: (i) Mr. Thomas J. Bollyky, Bloomberg Chair in Global Health, Senior Fellow for International Economics, Law and Development, Council on Foreign Relations; (ii) Dr. Jay Lemery, Professor of Emergency Medicine, Director, Climate and Health Program, Chief Section of Wilderness and Environmental Medicine, University of Colorado School of Medicine)

Event Category: Master Class Episode 128
Topic: “One Health in Action”
Date & Time: 03 February 2025 & 11:30 AM to 12:30 PM
Venue: New Auditorium, IIHMR University, Jaipur
Details of Speakers: (i) Mr. Thomas J. Bollyky, Bloomberg Chair in Global Health, Senior Fellow for International Economics, Law and Development, Council on Foreign Relations; (ii) Dr. Jay Lemery, Professor of Emergency Medicine, Director, Climate and Health Program, Chief Section of Wilderness and Environmental Medicine, University of Colorado School of Medicine
Number of Participants: approx. 150
Introduction: IIHMR University had the distinct honor of organizing a MasterClass on ‘One Health in Action.’ The event witnessed the esteemed presence of officials from the United States Embassy, highlighting the global significance of the discussion.
Objective of the Session: This event highlighted One Health in Action, including the global significance.
Salient Novel Points Covered: The MasterClass covered critical topics such as biodiversity, decarbonization, and antimicrobial resistance. Mr. Thomas J. Bollyky provided deep insights into how demographic shifts, animal health, climate change, and the complexities of healthcare data impact overall health. Dr. Jay Lemery underscored the crucial role of pollution, climate change, and industrialization in affecting the ecosystem, calling for urgent interventions to mitigate these challenges. Both speakers emphasized the importance of a resilient healthcare system capable of sustaining and effectively responding to medical emergencies and disaster situations. They further shared valuable information on specialized programs offered by the University of Colorado to equip healthcare professionals with disaster preparedness and sustainability strategies.
Future Scope: The MasterClass reaffirmed IIHMR University’s commitment to fostering discussions and collaborations that enhance the healthcare sector’s ability to tackle emerging global health threats.

IIHMR UNIVERSITY, JAIPUR
EVENT OUTCOME REPORT
“Master Class Episode 129”

Event Category: Master Class Episode 129
TOPIC: Expanding Horizons Learning Beyond Syllabus
DATE: 25 th February 2025 from 3:00pm to 5:00pm.
VENUE: Old Auditorium, IIHMR University, Jaipur
SPEAKER: Mr. Raja Ganguly (Vice President, Lupin Ltd, Mumbai)
NUMBER OF PARTICIPANTS: 127 students from 1 st year, MBA(Pharmaceutical Management)
INTRODUCTION: The 129 th episode of the Master Class, titled – “ Expanding Horizons Learning Beyond Syllabus” held on: 25 th February, 2025, at IIHMR University, Jaipur. The speaker was Mr. Raja Ganguly (Vice President, Lupin Ltd, Mumbai) . The event was moderated by Dr. Sudhinder Singh Chowhan and student moderator Ms. Bhumika Patidar from the PM-16.
OBJECTIVE: The session aimed to equip students with practical industry insights beyond academic learning. It focused on essential topics like data analysis, brand building, market research, campaign designing, and team initiatives, providing a strategic understanding of real-world applications in pharmaceutical management.
SALIENT NOVEL POINTS COVERED : ROLE: The session emphasized bridging the gap between theoretical knowledge and practical industry applications. Through discussions on data analysis, brand planning, market research, campaign designing, and patient support programs, participants gained insights into strategic decision-making, innovative brand-building approaches, and real-world marketing execution. The session encouraged critical thinking, problem-solving, and teamwork, essential for excelling in the pharmaceutical industry. KEY TAKE AWAY POINTS FROM THE SESSION: • The session emphasized the importance of data analysis in making crucial business decisions. • A strong brand is a promise kept, highlighting the significance of brand building. • Understanding the voice of various stakeholders and leveraging market research for informed decision-making. • Creating impactful campaigns that capture sensory elements and address market needs. • Focusing on patient-centricity and creating impactful patient support programs. • Initiatives like quarterly cycle meetings and monthly connects to enhance team collaboration and productivity. • Strategic planning and execution for successful product launches, focusing on pre-launch, launch, and post-launch phases. Q&A and Interactive Session : The session encouraged active participation from students, who not only clarified their conceptual doubts about the Market Dynamics and Trends in Pharmaceutical Marketing Analytics, but also asked relevant questions about how to co-relate their previous experiences in the Pharmaceutical industry and progress further in their career. Future Scope: Participants would gain a deeper understanding of strategic marketing, including data analysis for crucial business decisions, brand building with a focus on delivering on brand promises, and leveraging market research to understand stakeholder needs. Furthermore, the emphasis on essential skills like strategic thinking, adaptability, and out-of-the-box thinking prepares participants for leadership roles in the evolving pharmaceutical industry, where creating value for patients, doctors.

EVENT OUTCOME REPORT

“MASTER CLASS EPISODE 130TH”

“MASTER CLASS EISODE 130TH”
TOPIC: "Unlocking Opportunities: IBM Skills Build Orientation Session"
DATE: 27 TH February 2025, 4:30 PM to 5:30 PM IST.
VENUE: New Auditorium Part A, IIHMR University Jaipur.
SPEAKER: Ms. Tanuja Singh, Sr. Engagement Associate, CSR BOX, Ahmedabad
NUMBER OF PARTICIPANTS: 197 students from 1 st year (MBA Hospital and Health, Pharmaceutical, Health Analytics, and Development Management).
INTRODUCTION: A session on CSRBOX in collaboration with IBM Skills Build was conducted at IIHMR University, Jaipur, by Ms. Tanuja Singh (Senior engagement associate) CSRBOX Ahmedabad on 27/02/2025. The session mainly focused on how students can leverage this platform for their personal and professional growth—the event aimed at enhancing digital and career-oriented skills among students. Mr. Vinod Tejawani moderated the event, and the Dean of Placements and Alumni Relations and student moderator Dr. Anirudh Kumar Halder from the HM-29 moderated the event. The session was focused on “Unlocking Opportunities- IBM Skills Build Orientation Session.”
OBJECTIVES: The primary objective of the session was to introduce students to IBM SkillsBuild, an online learning platform offering various courses, certifications, and career development resources. The session aimed to help students understand how they can utilize this platform for upskilling, career readiness, and job opportunities.
SALIENT NOVEL POINTS COVERED: ROLE: *Introduction to IBM SkillsBuild. * IBM SkillsBuild is a free digital learning platform providing industry-relevant skills in technology, business, and soft skills. * The platform offers certifications recognized by the industry. * Courses on AI, cybersecurity, cloud computing, data science, business communication, and design thinking. * Personalized learning paths based on career interests. * Access to IBM mentors and industry experts for career guidance. * Real-world projects and internship opportunities with IBM and its partners. * How to Navigate the Platform: * Step-by-step guidance on how to register and create a learning profile. * Explore different courses, modules, and interactive learning resources. * Tips on how to earn IBM digital badges and certifications to showcase skills. * Career Growth and Industry Readiness: * Importance of upskilling in the digital era.

“MASTER CLASS EPISODE 131 TH”

“MASTER CLASS EISODE 131ST”
TOPIC: "Community-Driven Health Transformation in Implementation Science"
DATE: 08 th March 2025, 6:00 PM to 7:00 PM IST.
VENUE: Online.
SPEAKER: Dr. Sima Morgan, MD, PhD in Health Administration, and MPH in Public Health Leadership, US
NUMBER OF PARTICIPANTS: 31 students from MPH (IS & JHU), Other Country like Iran and Bangladesh.
INTRODUCTION: A session on Community-Driven Health Transformation was conducted online at IIHMR University, Jaipur, by Dr Sima Morgan (President and CEO at Key Patient Insights) on 08/03/2025. The session mainly focused on how a community-driven approach can transform public health. Dr Sima mentioned about strategies like: Community Advisory Boards, Participatory Action Research, Co-Design, where people actively shape healthcare solutions. She Also explained the importance of engaging community; healthcare programs are often created without considering local needs, culture, or the people affected. Connecting policy and practice is important for better public health
OBJECTIVES: The primary objective of the session was to introduce students to Community-Driven Health Transformation, a strategy for effective implementation health program. The session aimed to help students understand how they can engage community on health program for upskilling, career readiness, conducting research and job opportunities.
SALIENT NOVEL POINTS COVERED:
ROLE: 1. Introduction to Community-Driven Health Transformation 2. Benefits of Community-Driven Approaches 3. Community Engagement Strategies, 4. Community Advisory Boards (CABs) 5. Participatory Action Research (PAR) 6. Community Health Workers (CHWs) and Peer Educators 7. Focus Groups and Community Forums 8. Asset-Based Community Development (ABCD) 9. Community-Based Participatory Evaluation (CBPE) 10. Public Health Campaigns with Community Input 11. Volunteer and Peer Support Networks 12. Co-Design in Public Health 13. Speaker's Related Projects

Community Advisory Boards (CABs)

What are CABs?

- Groups of community members advising on projects, policies, or research.
- Ensure local voices shape decision-making.

Community-driven mental health intervention: Community Advisory Board (CAB) in Texas

In Texas, a Community Advisory Board (CAB) was formed in response to a growing mental health crisis, particularly among underserved populations. Recognizing a shortage of professional mental health workers, the CAB brought together community leaders, pastors, and volunteers to develop a grassroots intervention. Drawing inspiration from successful global models like *Sangath* in India and *The Friendship Bench* in Zimbabwe, the CAB designed a training program to equip non-professionals with basic mental health support skills. Through workshops and awareness campaigns, they worked to reduce stigma, encourage open conversations, and provide accessible mental health support.

The initiative quickly gained traction, with volunteers offering guidance, active listening, and referrals to professional care when necessary. By leveraging community trust and existing social networks, the program proved both cost-effective and culturally relevant. As a result, **treatment completion rates increased**, and **more people sought help without fear of judgment**. The CAB's efforts demonstrated that community-driven mental health care can be a powerful supplement to traditional clinical approaches, making mental health services more inclusive and accessible. Participatory Action Research (PAR)

In Chile, a Participatory Action Research (PAR) project was conducted with trainee teachers to address issues of violence and exclusion in classrooms. Over several months, participants engaged in workshops exploring the links between violence and inequality, and discussed nonviolent approaches to foster inclusive learning environments.

jprm.scholasticahq.com

Through this collaborative process, the trainee teachers identified instances of exclusion and developed strategies to promote inclusivity. The project highlighted both the opportunities and challenges of implementing PAR in educational settings, emphasizing the importance of active participation and reflection in creating meaningful change.

IIHMR UNIVERSITY, JAIPUR

EVENT OUTCOME REPORT

“MASTER CLASS EPISODE 132”

“MASTER CLASS EISODE 132”
TOPIC: “Pharma Success - Building Top Performers”
DATE: 11 TH March 2025, 11:00 AM to 12:30 PM IST.
VENUE: Teams Meeting (Online).
SPEAKER: Mr. Tavinder Jit Singh Vasudeva, President & Chief Business Officer, Global Markets, Micro Labs Ltd., Gurugram, India.
NUMBER OF PARTICIPANTS: 103 students from 1 st year (MBA Hospital and Health, Pharmaceutical, Health Analytics, and Development Management).
INTRODUCTION: A session on Pharma Success - Building Top Performers was conducted by IIHMR University, Jaipur, by Mr. Tavinder Jit Singh Vasudeva, President & Chief Business Officer, Global Markets, Micro Labs Ltd., Gurugram, India on 11/03/2025. The session mainly focused on how students can grow in the pharmaceutical industry by enhancing their skills and performance to achieve excellence in the pharma sector. Mr. Vinod Tejwani moderated the event; Dean of Placements and Alumni Relations and student moderator Harshal Bari from the PM-16 moderated the event. The session was focused on “Building Top Performers”
OBJECTIVES: The primary objective of the masterclass was to equip students with practical strategies and skills to build high-performing teams and foster a culture of continuous improvement and success within the pharmaceutical industry.
SALIENT NOVEL POINTS COVERED: * Strategic leadership techniques to drive team performance in the pharmaceutical sector. * Importance of aligning individual goals with organizational objectives for optimal performance. * Methods to identify and nurture top performers through personalized coaching. * Leveraging data analytics to assess performance metrics and identify improvement areas. * Building a culture of accountability and continuous learning to sustain high performance. * Developing emotional intelligence as a critical skill for pharma leaders. * Techniques for effective communication and collaboration within pharma teams. * Fostering innovation and creativity to address emerging challenges in the industry. * Applying situational leadership principles to cater to diverse team needs. * Strengthening decision-making skills through real-world case studies and interactive discussions.

Pharma Success Building Top Performers

The Rise Of India's Pharmaceutical Industry To A Forecasted \$450 Billion _Forbes

- Along with this, by focusing on the quality of medicines being produced, it now has over 650 U.S. FDA-approved plant sites, the highest outside the U.S., providing a strong base for conducting clinical trials and developing new drugs.
- To make India more competitive, the corporate tax rate has been slashed to 22% for existing companies and 15% for new manufacturing companies. The Indian government has strengthened intellectual property laws and is also offering a concessional tax rate of 10% on income from patents developed and registered in India.

IIHMR UNIVERSITY, JAIPUR
EVENT OUTCOME REPORT
“Master Class Episode 133”

“Master Class Episode 133”
TOPIC: Basics of Digital Health and Healthcare Applications
DATE: 20 th March, 2025 from 4:00pm to 5:00pm.
VENUE: New Auditorium- Part A, IIHMR University, Jaipur
SPEAKER: Dr. Narayan Pendse (Vice President- Medical Strategy and Operations, Fortis Healthcare Corporate)
NUMBER OF PARTICIPANTS: 129 students from 1 st year MBA (Hospital and Health Management), MBA(Pharmaceutical Management) and MBA(Development Management) , MBA (Healthcare Analytics)
INTRODUCTION: The 133 rd episode of Master class Session titled – “Basics of Digital Health and Healthcare Applications” held on: 20 th March, 2025, at IIHMR University. This session featured the guest speaker Dr. Narayan Pendse (Vice President- Medical Strategy and Operations, Fortis Healthcare Corporate). The event was moderated by Mr. Vinod Tejwani, Dean, Placements and Alumni Relations and Student Co-ordinator Ms. Divya Gupta from batch HM-29.
OBJECTIVE: This session aims to introduce the fundamentals of digital health and its impact on modern healthcare. Participants will gain insights into key healthcare applications, their benefits, and challenges. The expert discussed emerging trends and technologies shaping digital healthcare. By the end, attendees understood the role of digital solutions in enhancing patient care and hospital management.
Salient Novel Points Covered: ROLE: Dr. Narayan Pendse provided an insightful overview of the current landscape of the Digital healthcare industry, focusing on its regulatory framework, key terminologies, and various roles and verticals. He discussed the importance of an efficient Hospital Management Information System as well as difficulties in adapting to new changing technologies by the stakeholders, especially the doctors. KEY TAKEAWAY POINTS FROM THE SESSION: • Digital Health & the Digital Circle – Digital health integrates technology like telemedicine, AI, and mobile apps for efficient healthcare delivery. • Hospital Digitalization – HMIS and EMR streamline operations, enhance patient data management, and improve decision-making. • HMIS & EMR for Financial & Operational Efficiency – These systems reduce paperwork, optimize billing, and enhance resource utilization. • Business Transformation in Healthcare – Digital platforms enable virtual care, AI diagnostics, and data-driven decision-making. • Government Initiatives in Digital Health – Programs like ABDM and NDHM promote a unified, tech-driven healthcare ecosystem in India. Q&A and Interactive Session : The session encouraged active participation from students, who not only clarified their conceptual doubts about the hospital sector, but also asked relevant questions about how to co-relate their previous experiences in the health and hospital industry and progress further in their career integrating digital platforms.

Future Scope: The future of digital health will be driven by AI, IoT, and big data for predictive healthcare and personalized treatment. Enhanced HMIS and EMR systems will improve interoperability and real-time data access. Telemedicine, blockchain, and government initiatives will further transform healthcare, making it more accessible, efficient, and patient-centric.

IIHMR UNIVERSITY, JAIPUR
EVENT OUTCOME REPORT
“Master Class Episode 134”

“Master Class Episode 134”
TOPIC: Future Trends: AI and the Evolution of Pharmaceutical Digital Marketing
DATE: 09 th April, 2025 from 10:00 am to 5:00pm.
VENUE: G-03 IT Lab, IIHMR University, Jaipur
SPEAKER: Shailaja Dwivedi Pathak Co-Founder of Pareizo Media
NUMBER OF PARTICIPANTS: 109 students from 1 st year MBA (Pharmaceutical Management)
INTRODUCTION: The 133 rd episode of Master class Session titled – “Basics of Digital Health and Healthcare Applications” held on: 9 th April, 2025, at IIHMR University. This session featured the guest speaker Shailaja Dwivedi Pathak Mam (Co-Founder of Pareizo). The event was moderated by Dr. Sudhinder Singh Chauhan, Associate Professor, and Student Co-ordinator Mr. Ruparel Meet Manojbhai from batch PM-16.
OBJECTIVE: This session aims to introduce us with pharmaceutical digital marketing is poised for transformation through AI, enhancing data analysis, personalized marketing strategies, and streamlined drug development processes. Participants will gain insights into the usage of digital tools, their benefits, and challenges. The expert discussed emerging trends and technologies shaping digital healthcare. By the end, attendees understood the role of digital Marketing and AI in the pharmaceutical industry.
Salient Novel Points Covered: ROLE: Shailaja Mam discussed the concepts of influencer, radio, and electronic marketing. A brief discussion about digital marketing channels. The importance of SEO, PPC, Geotagging of brands, Neumonics for easy remembrance to HCPs. Mam focused on understanding the gaps between the pharma companies, HCPs, and patients through digital tools. KEY TAKEAWAY POINTS FROM THE SESSION: • Digital Marketing Channels in Pharma – Concepts of Influencer, Mobile & Viral, Radio & TV ads, Electronic Billboards, SEO, PPC, Social Media, Content & Email Marketing. • Engagement Strategies –Use of Infographics & mnemonics to strengthen brand identity amongst HCPs. Personalization using prescription data (IMS, SMSRC). • Localized Strategy – Importance in understanding per capita income in specific areas to build brand strategies according to localized recognition. • Regulatory Compliance – Using AI to ensure compliance with regulatory standards and streamline the marketing strategies according to them. • Government Initiatives in Digital Health – Programs like ABDM and NDHM promote a unified, tech-driven healthcare ecosystem in India. Q&A and Interactive Session: The session encouraged active participation from students, who not only clarified their conceptual doubts about the marketing and the upgrade to AI in pharmaceutical Industry, but also asked relevant questions about how to co-relate the effective use of digital tools and social media for marketing purposes and progress further in their career integrating digital platforms to marketing strategies. A Case study was also discussed, solving doubts and concepts of AI usage in Digital Marketing, a new era in the pharmaceutical industry.

Future Scope: The future of AI in pharmaceutical digital marketing is characterized by advancements enhancing data-driven insights, enhanced customer insights, personalized patient engagement, and automation of marketing processes. It will also help in collecting data from different sources available like SMSRC, IQVIA and many other set of data for marketing and research purposes.

IIHMR UNIVERSITY, JAIPUR
EVENT OUTCOME REPORT
“Master Class Episode 135”

“Master Class Episode 135”
TOPIC: “Data-Driven Decision Making: The Secret Weapon of Successful Pharma Sales & Marketing”.
DATE: 11th April 2025 – from 10:00 AM to 01:00 PM IST.
VENUE: IIHMR University, Jaipur
SPEAKER: Ms Viral Pandya Vaidya, General Manager Business Operations Group, Lupin Mumbai, India
NUMBER OF PARTICIPANTS: 119 students from 1st year MBA (Pharmaceutical Management)
INTRODUCTION: The 135 th episode of Master class Session titled -“Data-Driven Decision Making: The Secret Weapon of Successful Pharma Sales & Marketing” held on: 11 th April, 2025 at IIHMR University. This session featured the guest speaker Ms. Viral Pandya Vaidya (General Manager Business Operations Group, Lupin Mumbai, India). The event was moderated by Dr. Sudhinder Singh Chowhan Associate Professor, School of Pharmaceutical Management, IIHMR University, Jaipur, Rajasthan, India and Student Co-ordinator Mr. Akshat Shrimal, Batch: MBAPM-16 and Ms. Juhi Jain, Batch: MBAPM-16
OBJECTIVE: This session aims to introduce detailed overview of Market data analysis, Brand planning, Regulatory understanding, and Evolving trends within the Pharmaceutical Industry. By the end, attendees understood the role of Data driven decision making in enhancing Pharma sales and marketing.
Salient Novel Points Covered: ROLE: Ms. Viral Pandya Vaidya provided an insightful overview of the digital healthcare industry's current landscape, emphasizing how data-driven decision making is revolutionizing pharma sales and marketing. She shed light on the regulatory framework and key industry terminologies that marketers must understand to make informed, compliant decisions. Highlighting the various roles and verticals within the sector, she explained how structured data can help identify high-potential markets, personalize engagement strategies, and optimize resource allocation. However, she also pointed out that one of the major hurdles in implementing data-driven approaches is the resistance to technological adaptation by key stakeholders, particularly doctors, which can slow down the effective execution of data-led strategies. KEY TAKEAWAY POINTS FROM THE SESSION: 1. Data Analysis of Leading Pharmaceutical Corporations: The foundation of any strong strategy begins with accurate data analysis. Reports from reputed sources such as SMRC, Pharma rack, IQVIA, and RWE (Real World Evidence) data were thoroughly examined. These datasets provided critical insights into prescription patterns, market penetration, sales volume, and channel performance. Focus was also given to a top pharma company with 30 distinct divisions , supported by a field force of 200–300 Medical Representatives (MRs) . By leveraging the company’s CRM (Customer Relationship Management) platform , patterns in doctor engagement, call averages, order frequency, and doctor segmentation were analyzed. Key takeaways included: • Division-wise performance mapping • MR activity consistency and effectiveness • Doctor and chemist feedback loops • CRM adoption rate and feedback quality

2. Brand Plan Development: A structured brand plan is pivotal in building strong product positioning. The framework followed includes three strategic questions:

- **Where am I?** (Current Market Position): Evaluation of brand health metrics such as market share, prescription audit data, awareness, and availability.
- **Where do I want to go?** (Aspirational Goals): Targets for brand growth, prescription uplift, category leadership, or regional dominance.
- **How do I get there?** (Strategic Path): Channel-wise marketing strategies, product differentiation, HCP (Healthcare Professional) education, and digital engagement plans.

3. Regulatory Framework Understanding: In today's compliance-driven environment, understanding and adhering to regulatory affairs is non-negotiable. The report studies key Indian pharmaceutical guidelines, including:

- **UCPMP (Uniform Code for Pharmaceutical Marketing Practices):** A guideline for ethical marketing practices, limiting giveaways, and mandating transparency.
- **NLEM (National List of Essential Medicines):** Understanding pricing constraints and policy impacts on listed drugs.
- **FDC (Fixed Dose Combination) Guidelines:** Analyzing approvals, bans, and compliance for combination drugs.

4. Market Trend Identification and Analysis: Staying ahead in the pharmaceutical market demands constant awareness of both prescription and consumer trends. Key trends observed include:

- **BGx (Branded Generics):** Dominant in semi-urban and rural markets, offering margin flexibility.
- **TGx (Trade Generics):** Retailer-driven models emphasizing discounts and shelf availability.
- **GGx (Generic Generics):** Pure generics competing on price, mainly in government tenders or low-cost markets.

Additionally, the role of **consumer marketing** in pharma is growing, especially in OTC and preventive care segments. Marketing strategies are now expanding through:

- **ATL (Above the Line)** – TV, Print, and Radio for mass awareness
- **BTL (Below the Line)** – Doctor CME programs, retail engagement, patient education materials
- **TTL (Through the Line)** – Integrated campaigns combining both ATL and BTL elements using digital channels

5. OTC, Diagnostics, and Patient-Centric Approaches: With patients becoming active participants in their healthcare journey, the rise of **OTC (Over-the-Counter)** products and **diagnostic-driven treatments** is noteworthy. Brand strategies are now shifting towards a **patient-centric approach**, which includes:

- Symptom-based communication
- In-clinic visual aids and QR code-based info guides
- Diagnostic tie-ups for early detection and adherence
- Empowering patients through self-care content and helpline support

Q&A and Interactive Session : The session encouraged active participation from students, who not only clarified their conceptual doubts about the Pharma sector, but also asked relevant questions about how to co-relate their previous experiences in the Pharmaceutical Industry and progress further in their career integrating Data driven decision making.

Future Scope: The future of data-driven decision making in pharma sales and marketing lies in hyper-personalized outreach, predictive analytics, and AI-powered strategies. Pharma companies will increasingly rely on real-time data to forecast demand, optimize multichannel engagement, and enhance customer targeting. Integration with real-world evidence and CRM systems will drive smarter, outcome-based marketing. As technology advances, data will become the central driver of strategic decisions, improving both efficiency and impact.

Data-Driven Decision Making: The Secret Weapon of Successful Pharma Sales & Marketing

Friday, 11th April 2025

10:00 AM to 01:00 PM (IST)

IIHMR UNIVERSITY, JAIPUR
EVENT OUTCOME REPORT
“Master Class Episode 136”

“Master Class Episode 136”
TOPIC: “Drug Approval Process and Regulatory Challenges”
DATE: 01st May 2025 – from 10:00 AM to 3:30 PM (IST)
VENUE: IIHMR University, Jaipur
SPEAKER: Dr. Varsha Pradhan, Partner – Regulatory Affairs, Roche Products (India) Pvt. Ltd., New Delhi, India
NUMBER OF PARTICIPANTS: 126 students from 1st year MBA (Pharmaceutical Management)
INTRODUCTION: The 136 th episode of Master class Session titled -“Drug Approval Process and Regulatory Challenges held on: 01 st May, 2025 at IIHMR University. This session featured the guest speaker Dr. Varsha Pradhan (Partner – Regulatory Affairs, Roche Products (India) Pvt. Ltd., New Delhi, India). The event was moderated by Dr. Ashok Kumar Peepliwal, Professor, School of Pharmaceutical Management, IIHMR University, Jaipur, Rajasthan, India and Student Co-ordinator Ms. Kasturi Sawarkar, Batch: MBAPM-16
OBJECTIVE: This session aims to introduce detailed overviews of Regulatory frameworks and authorities, navigating regulatory challenges, understanding drug approval types and filings, Global drug licensing and export procedures, Regulatory application beyond initial approvals, Developing practical regulatory knowledge.
Salient Novel Points Covered: ROLE: Dr. Varsha Pradhan provided an insightful overview of pharmaceutical regulatory affairs integrated with foundational business laws, making it particularly suitable for advanced learners. It begins with the application of Indian business statutes—such as the Contract Act and Consumer Protection Act—to pharmaceutical operations, establishing a unique legal-business interface. A distinctive feature is the in-depth exploration of India’s drug regulatory evolution, including lesser-covered laws like the Excise Duties and Narcotic Drugs Acts. It further delves into national pharmaceutical policy, highlighting aspects of industrial licensing and R&D funding under the DPCO, which are often overlooked in similar programs. It provides a global perspective through detailed study of WHO and ICH guidelines, international drug approval processes, and licensing challenges across various regions including the EU, Africa, Asia, and Australia-New Zealand. Advanced regulatory topics such as SUPAC (Scale-Up and Post-Approval Changes), CMC documentation for APIs, and computerized system validations add a technical edge. Additionally, the inclusion of biosimilars and biologics regulations, electronic submission protocols like ICH M2-eCTD, and global pharmacovigilance practices underscores the program’s relevance to current industry standards and international compliance. KEY TAKEAWAY POINTS FROM THE SESSION: 1. Understanding of Core Business Laws in Pharma Participants gain insights into how general business laws such as the Indian Contract Act, Sale of Goods Act, Consumer Protection Act (1986), and Information Technology Act impact the pharmaceutical industry. These laws form the legal backbone of business transactions and operations, helping professionals navigate commercial and contractual obligations within the pharma sector. 2. Indian Drug Regulatory Framework The session offers an in-depth look into the evolution of drug regulation in India, including the Pharmacy Act (1948), Drugs and Cosmetics Act (1940), and Excise Duties Act (1955). This historical and regulatory perspective helps

professionals understand the rationale behind current practices and anticipate regulatory expectations in compliance and audit situations.

3. National Pharmaceutical Policy and DPCO

A critical takeaway is the focus on Drug Price Control Order (DPCO) and its relationship with industrial licensing, R&D, and public healthcare access. Learners understand how government controls on drug pricing affect pharmaceutical marketing strategies and innovation incentives. WHO and ICH Guidelines for Global Compliance

It emphasizes international harmonization through WHO certification and ICH guidelines (S, E, M). This equips learners to work in cross-border regulatory roles, preparing dossiers that meet the standards of various global regulatory agencies.

5. Drug Approval Processes and Global Licensing

Participants are introduced to drug approval pathways including IND (Investigational New Drug Application), NDA (New Drug Application), ANDA (Abbreviated New Drug Application), and DMF (Drug Master File) in the USFDA system. It also highlights the regulatory challenges of international licensing in the EU, Asia, Africa, and Australia-New Zealand, essential for companies aiming to expand globally.

6. Active Pharmaceutical Ingredient (API) Regulatory Requirements

This part covers the CMC (Chemistry, Manufacturing, and Control) requirements, documentation of API sections, registration samples, and post-approval change management. Understanding these technical and regulatory details is vital for ensuring quality and consistency in manufacturing.

7. Regulation of Biologicals and Biosimilars

Participants explore the US and EU guidelines on biosimilars, which are a growing segment in global therapeutics. It also addresses growth drivers for biosimilars in India and the regulatory pathways for their approval, helping professionals align with emerging trends.

8. Electronic Pharmaceutical Documentation & Submission

It delves into electronic documentation systems, including ICH M2-eCTD standards for submitting regulatory documents electronically. Participants also learn about SOPs, batch records, and documentation practices required for global audits and compliance.

9. Post-Marketing Surveillance (PMS) and Pharmacovigilance

A key learning area is the concept of medicine safety, ADR (Adverse Drug Reaction) reporting, and pharmacovigilance regulations across countries like the US, EU, and Turkey. Professionals learn to monitor and manage risks even after drug approval, a critical responsibility in regulatory and quality roles.

10. Pharmaceutical Qualification and Validation

Finally, the session explains Qualification and Validation (Q&V) principles, scope, and types of documentation required to validate computerized systems in the industry. This is crucial for ensuring regulatory compliance in manufacturing and data handling systems, especially under USFDA and EU inspections.

Future Scope: The Master Class on “Drug Approval Process and Regulatory Challenges” offers significant future scope for professionals and students in the pharmaceutical and healthcare industries. As global regulatory frameworks become more complex and essential to the success of drug development, this master class equips participants with the knowledge needed to navigate international systems such as those of the USFDA, EMA, and WHO. It opens career opportunities in regulatory affairs, pharmacovigilance, compliance, and quality assurance across multinational companies. Additionally, with the pharmaceutical industry increasingly focused on biologics, biosimilars, and personalized medicine, professionals trained in these regulatory pathways are in high demand. The session also benefits aspiring entrepreneurs and startup founders by providing a solid foundation in the regulatory lifecycle of drugs, helping them bring products to market efficiently and compliantly.

IIHMR UNIVERSITY, JAIPUR
EVENT OUTCOME REPORT
“Master Class Episode 137”

“Master Class Episode 137”	
TOPIC: “Foundation & Framework of Regulatory Affairs : An Overview, function & global significance Overview of US Submission & Europe post approval.	
DATE: 2nd May 2025 – from 10:00 AM to 01:30 PM IST.	
VENUE: IIHMR University, Jaipur (ONLINE MODE)	
SPEAKER: Dr. Ankit Trivedi (Senior Team lead at Syenos Health)	
NUMBER OF PARTICIPANTS: 60 students from 1st year MBA (Pharmaceutical Management)	
INTRODUCTION: The 136 th episode of Master class Session titled -“ Foundation & Framework of Regulatory Affairs : An Overview, function & global significance Overview of US Submission & Europe post approval. ” held on: 02 nd May 2025 at IIHMR University. This session featured the guest speaker Dr. Ankit Trivedi (Senior Team lead at Syenos Health) . The event was moderated by Dr. Ashok Peepliwal, Professor, School of Pharmaceutical Management, IIHMR University, Jaipur, Rajasthan, India and Student Co-ordinator Mr. Bhadoriya Mohit Netrapal, Batch: MBAPM-16.	
OBJECTIVE: This session aims to introduce detailed overview of Regulatory Affairs, Guidelines, Regulatory understanding, and Evolving trends within the Pharmaceutical Industry. By the end, attendees understood the role of Regulatory Environment in Pharma Buisness.	
Salient Novel Points Covered: The session began with a warm introduction, followed by a deep yet simple explanation of what Regulatory Affairs truly means in the pharmaceutical industry. Here are the key takeaways from the masterclass: 1. Role of Regulatory Affairs in Pharma: The speaker explained how Regulatory Affairs acts as a bridge between pharmaceutical companies and global health authorities. It ensures that all products meet safety, efficacy, and quality standards before reaching the market. 2. Drug Approval Process (USA, EU, etc.): He walked us through the entire drug approval lifecycle — right from pre-clinical data, Investigational New Drug (IND) submission, clinical trial phases, to the final New Drug Application (NDA) or Marketing Authorization Application (MAA). 3. Country-Specific Regulations: We learned how different countries like the USA (FDA), Europe (EMA), Australia (TGA), Canada (Health Canada), Brazil (ANVISA), and Russia (Minzdrav) have unique regulatory frameworks. The speaker emphasized the importance of customizing submissions as per local guidelines. 4. Types of Regulatory Submissions: He explained the difference between ANDA, NDA, MAA, and CTD formats. We also understood what variations, renewals, and supplemental filings. 5. Labeling & Product Lifecycle Management: A special focus was given to how product labels must comply with region-specific laws, and how Regulatory teams continue to manage the product even after it is launched — through updates, renewals, and post-market surveillance	

6. Challenges in Regulatory Affairs:

From managing country-specific requirements to dealing with ever-evolving guidelines, the speaker shared real-world challenges faced by Regulatory professionals — especially while working with multiple global markets.

7. Role of Technology & Tools:

We also got a brief overview of modern tools used in Regulatory Affairs such as document management systems, eCTD submission tools, and global databases like IDMP.

Q&A and Interactive Session : The session encouraged active participation from students, who not only clarified their conceptual doubts about the Pharma sector, but also asked relevant questions about how to co-relate their previous experiences with Regulatory Norms.

Future Scope: The future of Regulatory Affairs in the pharmaceutical industry is both dynamic and full of opportunity. As more pharmaceutical companies aim to expand globally, the need for professionals who understand diverse international regulatory requirements is steadily increasing. Regulatory Affairs is no longer limited to just compliance and documentation—it is now a strategic function that plays a vital role in product development, global launches, and lifecycle management. With the rise of digital technologies, the field is moving towards electronic submissions (eCTD), AI-assisted regulatory tracking, and advanced data management tools. Moreover, the emergence of personalized medicine, biosimilars, and advanced biologics presents new regulatory challenges, making the role of regulatory professionals even more critical. Growing markets in Latin America, Southeast Asia, and Africa are also creating fresh opportunities. In addition, the post-COVID era has shown a shift towards remote working and global collaboration, making cross-border regulatory roles more accessible. Overall, Regulatory Affairs offers a stable, evolving, and impactful career path for those who are detail-oriented, adaptable, and willing to keep pace with global healthcare advancements.

Foundation and framework of Regulatory affairs: An Overview, function, and Global significance *along with* Overview of US submission and Europe post approval
