Executive Summary

Dr. P. R. Sodani

President
IIHMR University, Jaipur

I am happy to share, the remarkable series of events and initiatives that unfolded at IIHMR University, Jaipur, throughout the month of February 2024.

We hosted the National Conference on "Harnessing Geospatial Intelligence for Advancing Healthcare in Rajasthan." Our commitment to capacity building and knowledge dissemination was further exemplified through a series of training programs conducted for public health officials of Odisha. These sessions aimed at equipping participants with the latest skills and knowledge vital for efficient public health management, reflecting our dedication to empowering healthcare professionals across the nation.

Our collaboration with esteemed organizations such as the Nirbhaya Squad Jaipur and UNICEF Rajasthan further underscores our commitment to addressing critical societal issues. The transformative sessions conducted aimed at enhancing women's safety and improving maternal nutrition are testament to our holistic approach towards societal well-being. Our efforts extended to fostering environmental consciousness and community engagement through initiatives such as capacity-building sessions and cleanliness campaigns. These endeavors not only contribute to environmental sustainability but also instill a sense of responsibility and civic duty among our students and the community at large.

IIHMR university had the privilege of hosting UTKARSH 2024, a groundbreaking healthcare summit, which provided a platform for thought leaders and experts to discuss and deliberate on transformative changes in the healthcare landscape. The month culminated with UMANG, our annual sports day event, and a declamation contest on "One Nation, One Election," providing opportunities for our students to showcase their talents and engage in meaningful discourse on important societal issues.

I extend my heartfelt gratitude to all the participants, organizers, and supporters who contributed to the success of these events and initiatives. Your dedication and commitment are truly commendable.

As we look forward to the upcoming months, let us continue to work together towards our shared goal of creating a healthier, safer, and more sustainable future for all.
