Executive Summary

Dr. P. R. Sodani

President
IIHMR University, Jaipur

We are delighted to present the report for June 2023, highlighting the activities of IIHMR University.

This month, we successfully conducted several initiatives embodying our commitment to research excellence, collaboration, and knowledge sharing. We organised management development programs and workshops aimed at fostering the growth and development of human resources for health.

IIHMRU, in collaboration with HCL-Tech and CSR Box, jointly organised the Pan India Symposiums 2023, attracting participation from over 200 NGOs and academicians. These symposiums served as platforms for enriching discussions and knowledge exchange.

Additionally, we are conducting a comprehensive survey in Rajasthan funded by WHO to assess household out-of-pocket expenditures related to healthcare. This initiative contributes to crucial research in the field.

Our Master of Public Health students gained valuable global exposure through their participation in a summer training program at Johns Hopkins University, enabling them to acquire invaluable knowledge and experiences.

Throughout the month, IIHMR University remained dedicated to fostering knowledge-sharing initiatives. We organized Masterclasses, the enlightening Know Your Alumni series, and insightful webinars. These endeavors aimed to facilitate the exchange of ideas and experiences between academia and industry experts, reinforcing our commitment to bridging the gap between theory and practice. Furthermore, our esteemed faculty members contributed significantly to the academic community by publishing several research papers and publications, disseminating new knowledge and insights.

In line with our commitment to providing our students with practical experience and exposure to global best practices, we organized exposure visits to various organizations and conferences. These opportunities allowed our students to broaden their horizons and gain valuable insights into the latest advancements in the industry. Additionally, we celebrated International Yoga Day 2023, reaffirming our dedication to promoting health and well-being on a global scale.

We extend our heartfelt gratitude to the Board of Management for their unwavering support and guidance. As we move forward, we remain steadfast in our dedication to providing an exceptional and transformative educational experience to our students.

Abstract

There is a growing global concern for healthcare quality and patient safety and several countries have initiated accreditation and self assessment programmes for improved quality healthcare and patient safety. Both are based on the quality improvement framework and standards. Case studies have shown that: i) Accreditation certification of hospitals and healthcare facilities has been improved the quality of healthcare and related healthcare services. ii) Self-assessment by healthcare organisations has proved to be very useful tool for continuous and sustainable improvement in organization performance, quality of services,

Hyderabad, Telangana, India

ABSTRACT

The advertising, promotion, and sale of goods and services are all being altered by the advent of digital marketing. In this age of globalisation, when the globe is essentially one giant village, routine digital activities may greatly enhance customer service. HR has to ensure that all workers, regardless of position or level, have the necessary digital skills to help the company accomplish its objectives of high productivity and employee happiness and therefore generate a positive corporate image and increase consumer pleasure. With technology evolving at such a breakneck rate, it is imperative that we update our human resources procedures and practises at a much quicker rate if we are to achieve business excellence

Meeting

Synthesis and Translation of Research and Innovation in Polio Eradication (STRIPE) Consortium Meeting

June 28-29, 2023 at The Vintage, Lisbon, Portugal

The Prime objective of the consortium meeting was to identify the lessons learned from the STRIPE project over the last five years, set future priorities and strategies for continuous global health impact. Each country team was expected to share the country level reports on lessons learned, were they able to achieve the goal set for STRIPE project and instructed to share the achievements and areas of impact, strengths, and weaknesses. There were deliberations on the consortium and how consortium can leverage the partnership in efficient way beyond STRIPE project.

IIHMR University showcased the achievements and strength in embedding the STRIPE Knowledge products into the existing degree program MBA Program, MPH (Implementation Science) and Executive MPH Program. IIHMR was also applauded by the funder BMGF to set an example for other country partners. The meeting ended by outlining future priorities, strategies, and action plans for global health impact created by STRIPE Project.

Household Out-of-Pocket Expenditure Survey in Rajasthan

IIHMR University is conducting a Household Out-of-Pocket Survey in Rajasthan supported by World Health Organization (WHO). The major purpose of this study is to understand the current level and nature of Out-of-Pocket Expenditure (OOPE) for healthcare in Rajasthan. The survey will include 5000 sampled households from 33 districts of the state from June to September 2023. The study will inform the impact of government schemes and initiatives in reducing OPPE. The study will help to provide the most recent estimate of such expenditures (the last available estimates being from the 75th National Sample Survey, 2018). Moreover, the survey will feed into a larger body of work being undertaken by the WHO India Country Office for the Government of Rajasthan on the institutionalization of health accounts exercise within the state. The availability of the most recent estimates of OOPE will be essential to provide robust health accounts in the state and to ensure evidence-based policy in the time ahead.

Training has been organized for field teams to collect data from the household level to start the survey.

'आयुष्मान भारत' के लिए आईआईएचएमआर यूनिवर्सिटी और जीआईजेड साथ काम करेंगे

जयपुर। राष्ट्रीय स्वास्थ्य प्राधिकरण (एनएचए) की 'आयुष्मान भारत' प्रधानमंत्री जन आरोग्य योजना' लागू कर रहा है। यूनिवर्सल हेल्थ कवरेज (यूएचसी) के उद्देश्यों को पूरा करने के लिए राष्ट्रीय स्वास्थ्य नीति 2017 की सिफारिश के अनुसार इसे लॉन्च किया गया था। आईआईएचएमआर यूनिवर्सिटी ने एचएमए और गैज के सहयोग से शोधकर्ताओं और प्रारंभिक पेशेवरों के लिए स्वास्थ्य प्रणाली अनुसंधान में बेहतरीन क्षमता निर्माण कार्यक्रम डवलप किया है। पहली कार्यशाला 24-25 मई यूनिवर्सिटी कैम्पस में आयोजित की गई थी। इस अवसर पर, यूनिवर्सिटी के अध्यक्ष डॉ. पी.आर. सोडानी ने कहा कि यह महत्वपूर्ण पहल है। क्योंकि इसका उद्देश्य नीति निर्माण और कार्यान्वयन में सुधार के लिए साक्ष्य प्रदान करके राष्ट्रीय स्वास्थ्य प्राधिकरण के कार्यान्वयन के लिए अनुसंधान क्षमता को बढ़ाना है। वहीं प्रोफेसर डॉ. अनूप खन्ना ने कहा कि यूनिवर्सिटी आयुष्मान भारत योजना के लिए अनुसंधान क्षमता बढ़ाने में परामर्श देगी। इस मौके पर एनएचए के कार्यकारी निदेशक (निराहारी और अनुसंधान) प्रवीण शर्मा ने कहा कि कार्यक्रम आयुष्मान भारत योजना के बेहतर कार्यान्वयन में मदद करेगा। वहीं गैज के परियोजना निदेशक अमित पालीवाल ने कहा कि यह शुरुआती पेशेवरों के लिए डिजाइन किया गया अनूठा कार्यक्रम है।

NHA, IIHMR, GIZ join hands for Ayushman Bharat yojana

Jaipur: National Health Authority, IIHMR University, Jaipur, and the German Society for International Cooperation (GIZ), have joined hands for capacity building in health system research to expedite the implementation of Ayushman Bharat Pradhan Mantri Jan Arogya Yojana (ABPM-JAY), IIHMR said Friday.

The unique capacity building programme has been developed for researchers and early professionals. The first workshop was organised on May 24 and 25 at IIHMR campus. On this occasion, IIHMR president Dr PR Sodani said that "this initiative is very important as it is aiming towards developing research competencies for supporting the NHA implementation by providing evidence for policy formulation and improving the implementation of AB PM-JAY."

...perspective, and not the headline production. As per the health sector in the all India level, we are seeing household level of assets and among them only 10% household, that is, 10% of them, look ready for other consumption purposes. However, the credit available for other consumption purposes was a much higher eight to nine years. It appears that the priority is to consume their credit rather than to produce.

Production Conditions

The sector has been reported to be the one of the most difficult ones. Of the 10% of the household level, production level, which means reportable income, is not ready to report. The credit available for other consumption purposes was a much higher eight to nine years. It appears that the priority is to consume their credit rather than to produce.

In Conclusion

The headline sector has a major role from the perspective of employment generation and sustainable development and it needs to be strengthened. The fall in real wages in real terms, lack of real demand, and non-availability of proper credit facilities are the main reasons for the plight of the sector. It is
