IIMR UNIVERSITY

JOHNS HOPKINS BLOOMBERG SCHOOL OF PUBLIC HEALTH

The Johns Hopkins Bloomberg School of Public Health (JHSPH) was founded in 1916 in Baltimore, Maryland U.S.A. JHSPH is the largest and oldest school of public health in the world and the first institution of its kind worldwide. The School has 709 Full-time and 829 Part-time Public Health faculty members, who

are renowned for teaching, public health practice, and ongoing research in the U. S. and in more than 130 countries. Johns Hopkins Bloomberg School of Public Health has ten departments and over 100 research centers & institutes. The student body consists of over 2,600 masters and doctoral students who come from 79 countries. The school has 20,000 plus alumni from more than 120 countries. Because of these accomplishments, US News and World Report perennially rank JHSPH number one among schools of Public Health.

IIHMR UNIVERSITY

IIHMR UNIVERSITY

IIHMR University Jaipur, India has made pioneering contributions to research, education, and training in the areas of health management and public health. The University is a national leader in these domains. Over the past thirty-six years IIHMR has

carved a niche for itself among management institutions, both in India and abroad. In its long journey built around a culture of action-oriented research, the university has worked collaboratively with the Johns Hopkins Bloomberg School of Public Health, USA – as well as international agencies like the World Health Organization (WHO) and United Nations (UN) in a range of research, training, and education activities.

MPH Program Overview

The Johns Hopkins Bloomberg School of Public Health - IIHMR University's Master of Public Health (MPH) has been designed by leveraging the core strength of both the institutions, to uniquely poised to meet the needs of Indian students as well as those confronting public health changes in Southeast Asian Region. The program combines the JHSPH's excellence in Public Health education with the IIHMR's expertise in Health Management and Research in Southeast Asia. These strengths are visible in the curriculum of this exciting program.

Since 2013, the Johns Hopkins University's Bloomberg School of Public Health (JHSPH), Baltimore, Maryland, USA in cooperation with the IIHMR University, Jaipur has been offering MPH degree program in Jaipur, India for Indian students as well as those from Southeast Asian Region.

Program Objectives:

The overarching goal of this MPH program is to provide students with a population perspective on health build knowledge and skills to perform as an effective manager, leader or administrator in health systems, both in public and private sector. The MPH program is designed to provide students with critical multidisciplinary training to help solve global public health problems.

The full-time MPH program aims to develop students' competencies in the following core areas:

Epidemiology | Biostatistics | Environmental Health Sciences | Public Health Biology | Health Management and Functional Management | Social and Behavioral Sciences | Public Policy | Ethics

Program Duration:

The Master of Public Health (MPH) Program is a two-year full-time degree program. The MPH program 2021-2023 will commence from October 2021.

Learning Pedagogy:

The pedagogy in each course is selected judiciously, with an emphasis on involving the students in learning and helping them to relate concepts and theories to real-world situations in public health and its management. The program is conducted with intensive teaching and learning methods which includes coursework, capstone project in the first year and practicum experience in the second year all cumulatively totaling to eighty two credits.

Course Work:

The MPH program offers students unique opportunity to attend the academically rigorous courses offered at Johns Hopkins Bloomberg School of Public Health (JHSPH), Baltimore, USA and IIHMR University, Jaipur.

The courses are taught by distinguished faculty members from Johns Hopkins Bloomberg School of Public Health and IIHMR University; who have contributed in meeting the challenges of public health and health care management nationally and internationally.

Capstone Project:

The capstone project is a requirement of the MPH program also an opportunity for students to work on public health practice projects that are of particular

interest to them. The goal is for students to synthesize, integrate and apply the skills and competencies they have acquired during the program.

Practicum:

Special emphasis is placed on practical training, whereby the students are required to conduct a significant practicum experience in population-based health prior to graduation. A practicum experience involves a mentored in population-based health prior to graduation. A practicum experience involves a mentored hands-on experience working and interacting with public health professionals.

Winter Institute at JHSPH, USA and Travel Scholarship:

The students will travel to Johns Hopkins Bloomberg School of Public Health (JHSPH), Baltimore, USA for attending the Winter Institute in January 2022. Students will be given scholarship from IIHMR University for attending the Winter Institute at JHSPH which includes International and local travel expenses for Jaipur-Baltimore- Jaipur trip and lodging arrangements in USA during the coursework.

Key highlights of the MPH program:

- Total fee payable in India is one-third of the fee payable at Johns Hopkins University, USA for the same program.
- Travel Scholarship for attending Winter Institute at JHSPH, USA.
- The Johns Hopkins University's MPH curriculum is delivered jointly by distinguished faculties of JHSPH and IIHMR University.
- Degree is awarded by Johns Hopkins Bloomberg School of Public Health (JHSPH), USA.
- Network of 20,000+ alumni around the world.

Alumni Speaks

In the realm of public health in developing nations, IIHMR University is one of the best institutions which offer both cutting-edge knowledge and hands-on experience to the students. The faculties and researchers in IIHMR make it sure that the aspiring students have access to the intellectual resources they need to become leaders in their respective domains. During my MPH program, I had the privilege to study in the world-class curriculum of Johns Hopkins University, which was further enriched by the practical insights offered by experienced faculties of IIHMR.

Dr. Mahbub Hossain
MPH Cohort-4

The quality of education here is crafted for excellence, and it has helped me carve my niche in my area of interest. This program is very fruitful as well as a very affordable opportunity for anyone, looking to enter the field of public health, as this program helps one gain an internationally recognised degree from the world's best public health school, and in the process also, to carefully carve out one's career choices and then also to look in the right direction to pursue them.
