Compass: Navigating the Transition from
Campus to Corporate"||1st August 2026 – 11:00 AM to 12:00 PM IST || Online**

IIHMRU President Office
To- Dear Aastha Garg,
aasthagarg.ha02@iihmr.in

Dear Aastha Garg,

Greetings for the day!!!

Hope this email finds you in great health.

IIHMR University takes the lead to organizing a series of **Know Your Alumni Series** specially curated for the students to orient them with the current developments going in the industry and to enhance their skills for comprehending the challenges in the professional arena, as well as to build a strong connection between current and former students. The University is conducting a session on 1st August 2026 – 11:00 AM to 12:00 PM IST.

The session will help students to understand “Career Compass: Navigating the Transition from Campus to Corporate”.

Guest Speaker1: Ms. Shilpa Garg, Senior Consultant, Deloitte, Hyderabad Batch- MBA HM 15 (2010-2012)

Guest Speaker2: Ms. Mansi Gupta, Senior Data Scientist, Batch- MBA HM 25 (2020-2022)

Title: “Career Compass: Navigating the Transition from Campus to Corporate”.

EVENT OUTCOME REPORT

“Know Your Alumni Episode 80”

EVENT: “Know Your Alumni Episode 80”
TOPIC: "Career Compass: Navigating the Transition from Campus to Corporate"
DATE: 1 st August ,2026 from 11:00 AM to 12:00 PM
VENUE: IIHMR University, Jaipur, India
SPEAKER: Ms. Shilpa Garg (currently working as a Senior Consultant at Deloitte (Batch HM 2010-12) and Ms. Mansi Gupta, currently working as a Senior Data Scientist (HM Batch 2020-22)
NUMBER OF PARTICIPANTS: 87
INTRODUCTION: IIHMR University, Jaipur, hosted a "Know Your Alumni" session as part of its alumni engagement initiative. The session featured distinguished alumni who shared their professional experiences, career journeys, and industry insights with the students. The discussion focused on emerging career opportunities, placement preparation, resume building, and the evolving healthcare analytics landscape. Students actively participated in the interactive session by seeking guidance on career planning, interview preparation, and professional development.
OBJECTIVE: The primary objectives of the session were: • To provide students with an understanding of career opportunities in healthcare analytics. • To familiarize students with various sectors such as healthcare providers, insurance, consulting, EMR, and public healthcare. • To guide students in preparing effectively for campus placements. • To offer practical advice on resume building and interview preparation. • To encourage students to take ownership of their career planning and professional growth. • To bridge the gap between academic learning and industry expectations through alumni interaction.

Salient Novel Points Covered:

- Healthcare analytics graduates have diverse career opportunities across hospitals, EMR companies, insurance organizations, consulting firms, healthcare IT, and government healthcare bodies.
- Employers value curiosity, adaptability, analytical thinking, problem-solving skills, and a willingness to learn more than extensive prior domain knowledge.
- Clinical, engineering, commerce, pharmacy, and other academic backgrounds can all contribute uniquely to healthcare analytics.
- The Government of India is creating significant opportunities through healthcare digitization initiatives and organizations such as NABH, NABL, and NHSRC.
- Students should identify their primary, secondary, and tertiary career interests before placements.
- Financial knowledge plays a vital role in healthcare analytics, supporting hospital budgeting, revenue analysis, cost optimization, and strategic decision-making.
- Understanding the complete patient journey is essential for analytics professionals working in healthcare.
- Resume preparation should focus on relevance, clarity, and the strategic use of industry-specific keywords rather than excessive detail.
- AI tools can be effectively utilized to tailor resumes according to specific job descriptions.

KEY TAKEAWAY POINTS FROM THE SESSION:

- Career success depends on continuous learning, adaptability, and curiosity.
- Students should focus on strengthening their existing skills instead of trying to master entirely new technologies just before placements.
- A strong understanding of healthcare operations enhances analytical decision-making.
- Confidence during interviews comes from genuine knowledge and practical experience.
- Recruiters value authenticity and expect candidates to explain every project and skill mentioned on their resumes.
- A concise, one-page resume highlighting projects, certifications, technical skills, and achievements is more effective than a lengthy resume.
- Students should actively explore opportunities beyond campus placements and remain open to multiple career pathways.

Q&A and Interactive Session:

The session concluded with an engaging question-and-answer session where students interacted directly with the alumni.

Students sought guidance on:

- Effective placement preparation strategies.

- Choosing suitable career paths in healthcare analytics.
- Developing domain knowledge.
- Resume writing and highlighting project work effectively.
- Interview expectations from a recruiter's perspective.
- Balancing technical skills with healthcare domain understanding.

The alumni emphasized that recruiters primarily assess candidates based on their ability to confidently explain their projects, skills, and experiences rather than the quantity of information presented on the resume. Students were also encouraged to customize their resumes using relevant keywords and AI tools while maintaining authenticity.

Appropriate caption for the webinar: "Exploring Careers, Building Confidence: Alumni Insights for the Future of Healthcare Analytics."
