

**|| Know Your Alumni 71 || "Public Health & Global Health Challenges"|| 15th Sep. 2025
– 05:00 PM to 06:00 PM IST || Offline**

IIHMRU President Office
To- Dheeraj Kumar Kaushik
Dear Dheeraj Kumar Kaushik,

Greetings for the day!!!

Hope this email finds you in great health.

IIHMR University takes the lead to organize a series of **Know Your Alumni Series** specially curated for the students to orient them with the current developments going in the industry and to enhance their skills for comprehending the challenges in the professional arena, as well as to build a strong connection between current and former students. The University is conducting a session on 15th Sep. 2025 – 05:00 PM to 06:00 PM IST.

The session will help students to understand “Public Health & Global Health Challenges”.

Guest Speaker: Mr. Prabal Mukherjee, Batch: MBA HM - 19 (2014-16), Public Health Consultant, The World Bank, Kolkata, West Bengal, India

Title: “Public Health & Global Health Challenges”.

Welcome: Mr. N Satheeshkanna, Senior Manager - Placements, IIHMR University, Jaipur, Rajasthan, India

Student Coordinator: Mr Dheeraj Kumar Kaushik, MBA HM 29, Second year, IIHMR University, Jaipur

Date: 15th Sep. 2025

Time: 05:00 PM to 06:00 PM IST

Mode: Offline

The Session will be of Approx 45 minutes followed by 15-minute question-answer session (1 Hour duration). The target audience will be the 2nd year students of MBA HM, PM, HA & DM. Please reserve your seat before 15 minutes to avoid last minute hassle.

Thanks and Regards

President Office

IIHMR UNIVERSITY, JAIPUR
EVENT OUTCOME REPORT
“Know your Alumni Episode 71”

“Know your Alumni Episode 71”	
TOPIC: “Public Health and Global Health Challenges”	
DATE: 15 th September 2025 from 5:00 pm to 6:00 pm	
VENUE: IIHMR University, Jaipur, India	
SPEAKER: Mr. Prabal Mukherjee, Public Health Consultant, World Bank	
NUMBER OF PARTICIPANTS: 153 participants	
INTRODUCTION: The session, led by Mr. Prabal Mukherjee, focused on the theme “Public Health and Global Health Challenges.” The discussion provided a comprehensive overview of the core principles of public health, differentiating its population-level focus from individual-level clinical care. Mr. Mukherjee, drawing from his experience as a Public Health Consultant at the World Bank, shed light on the most pressing global health issues, including non-communicable and infectious diseases, antimicrobial resistance, and mental health. The session emphasized the importance of a multidisciplinary approach, combining data-driven planning, policy advocacy, and community engagement to build resilient and equitable healthcare systems for the future.	
OBJECTIVE: The primary objectives of the session were: <ul style="list-style-type: none">• To define public health and differentiate between the roles of a public health professional and a clinician.• To emphasize the importance of preventive and promotive health in improving quality of life and reducing healthcare costs.• To align public health challenges with the UN's Sustainable Development Goal 3 (Good Health and Well-being).• To highlight critical global health challenges such as non-communicable diseases, pandemics, antimicrobial resistance (AMR), and mental health.• To discuss systemic issues like health inequalities, the impact of climate change on health, and the inefficiencies within healthcare delivery systems.• To explore strategic approaches for disease prevention and addressing broader population health through data, community engagement, and policy advocacy.• To introduce key global health initiatives and recommendations, including the "One Health" approach and the implementation of a unique health ID.	

Salient Novel Points Covered:

ROLE: Mr. Prabal Mukherjee has built a distinguished career in public health, with a trajectory that has taken him from state-level program implementation to shaping global health policy. He began his professional journey with the **National Health Mission (NHM) in Gujarat**, contributing to vital grassroots health initiatives. Building on this foundational experience, he took on roles of increasing responsibility within national health agencies, focusing on policy and large-scale program management. This path eventually led him to the international arena, and he currently serves as a **Public Health Consultant at the World Bank**, where he advises on complex global health challenges and strategies.

KEY TAKEAWAY POINTS FROM THE SESSION:

Here are the specific points highlighted:

- **Integrated Expertise:** Hospital administration requires a blend of clinical understanding and managerial skills to run healthcare systems sustainably.
- **Career Pathways: Entrepreneurship** can fill service gaps in rural areas, while traditional jobs in hospital administration offer structured growth.
- **Public-Private Partnerships (PPP):** A strong understanding of government processes and PPP models is crucial for expanding healthcare access.
- **Financial Literacy:** Knowledge of cost structures, financial ratios, and balance sheets is essential for effective hospital management.
- **Technology Integration: AI and analytics** are becoming central to hospital operations, efficiency, and financial planning.
- **Consultancy Roles:** Consultancy is a viable career path that demands strong analytical and problem-solving skills.
- **Professional Growth:** Mentorship, networking, and continuous learning are key factors in shaping a successful career in hospital administration.
- **Multidisciplinary Approach:** Modern healthcare demands a combination of healthcare knowledge, business acumen, and technological adaptability.

Q&A and Interactive Session: The session concluded with an engaging Q&A segment where students posed a range of insightful questions. A key query focused on the intersection of global trade and public health, with a student asking about the role of leading organizations, like the World Bank, in addressing the impact of trade tariffs imposed by the U.S. on medical supplies and health systems. Other questions centered on the practical implementation of the "One Health" approach, career opportunities in global public health, and strategies to combat health inequalities in developing nations. Mr. Mukherjee provided detailed answers, encouraging students to think critically and pursue careers where they can contribute to building stronger, more equitable health systems globally.

Future Scope:

- Strengthening Primary Health Systems
- Implementation of a Universal Unique Health ID
- Adoption of the "One Health" Approach

- Data-Driven Policy and Planning
- Focus on Climate-Health Synergy Initiatives
