IIHMR UNIVERSITY, JAIPUR
EVENT OUTCOME REPORT
“Know Your Alumni Episode 72”

“Know Your Alumni Episode 72”	
TOPIC: “Discussion on Pathway to Enter in Health Insurance Sector”	
DATE: 24 th September 2025 from 6:30 pm to 7:30 pm.	
VENUE: IIHMR University, Jaipur, India	
SPEAKER: 1.Dr. Kartikeya Sharma, Senior Manager, TATA AIG General Insurance Company Limited, Jaipur, Rajasthan India 2: Dr. Kingshuk Mazumder, Senior Manager, TATA AIG General Insurance Company Limited, Mumbai, Maharashtra, India	
NUMBER OF PARTICIPANTS: 300 Participants	
INTRODUCTION: IIHMR University, Jaipur, hosted an insightful "Know Your Alumni" session featuring two distinguished alumni working with Tata AIG, Dr. Kingshuk Mazumder and Dr. Kartikeya Sharma. The session focused on the topic of “Pathway to Enter in Health Insurance Sector.” The speakers shared their on-ground experiences and strategic insights into how the insurance sector is being leveraged to improve healthcare access.	
OBJECTIVE: The primary objectives of the session were: <ul style="list-style-type: none">• To define insurance, its key principles, and its historical advent in India.• To differentiate between types of health insurance companies (SAHI and General) and their business segments (Consumer, Commercial, Government).• To outline the specialized departments within an insurance company, such as underwriting, claims processing, and investigation.• To explain the components of a health insurance policy and the ideal lifecycle of a claim.• To introduce the future trends in the insurance sector, including the use of AI and data analysis.	
Salient Novel Points Covered: ROLE- 1.Dr. Kartikeya Sharma, Senior Manager, TATA AIG General Insurance Company Limited, Jaipur, Rajasthan India 2: Dr.Kingshuk Mazumder, Senior Manager, TATA AIG General Insurance Company Limited, Mumbai, Maharashtra, India KEY TAKEAWAY POINTS FROM THE SESSION: <ul style="list-style-type: none">• Definition & Purpose: Insurance is a contract where a company pools clients' risk to provide financial protection against losses.• Need in India: It is crucial in India, which had an 86% out-of-pocket expenditure in 2011. The COVID-19 pandemic has further highlighted the need for health insurance.	

- **Core Principles:** The insurance industry operates on fundamental principles, including Utmost Good Faith (full disclosure), Insurable Interest (financial stake), Indemnity (making the insured whole, not for profit) , and Proximate Cause (the closest reason for loss).
- **Industry Structure:** Health insurance is provided by two main types of companies: SAHI (Stand Alone Health Insurance) and General Insurance companies.
- **Key Functions:** Specialized departments handle the core business, including Medical Underwriting, the Claims Processing Team, and the Claim Investigation Team.
- **Policy Essentials:** When evaluating a policy, the most important components are the waiting period, exclusions, sum insured, and any copayments or deductibles.
- **Claim Process:** Claims are handled in two ways: Cashless or Reimbursement. The goal is to follow an "Ideal Claim Life" for efficient settlement.
- **Future Trends:** The industry is moving towards faster claim settlements (reducing TAT) , using AI for claim lodging and processing, strengthening investigation teams to combat fraud , and heavily relying on data analysis tools like Power BI.

Q&A and Interactive Session: Students asked about what specific roles can a public health professional play in the "Underwriting team" or the "Claim investigation team" and How is the "burn cost calculation" used differently for "Retail health" versus "Group health" policies Since the Principle of Indemnity does not apply to critical health policies, how are those claims calculated they also enquired what Could the use of AI in claim processing potentially increase fraudulent activities in new ways and what are the key differences in skills required for working in a "SAHI" (stand-alone health insurance) company versus a "General" insurance company?, the questions were answered with relevant industry examples and expertise.

Future Scope:

1. Insurance companies are focusing on reducing the Turn Around Time (TAT) for quicker claim settlements.
2. Artificial Intelligence (AI) will be used significantly soon for lodging and processing claims.
3. Investigation teams will be strengthened to manage the increasing number of fraudulent claims.
4. Data analysis will become critically important in the sector.
5. Data analysis tools like Power BI are already being used in great capacity and will continue to be important.

Appropriate caption for the webinar: “Health Insurance Fundamentals: A Guide for Public Health Professionals.”
