**Management Development Programme
on
Effective Implementation of Health Programme
Through Implementation Research**

December 5-7, 2024

Background

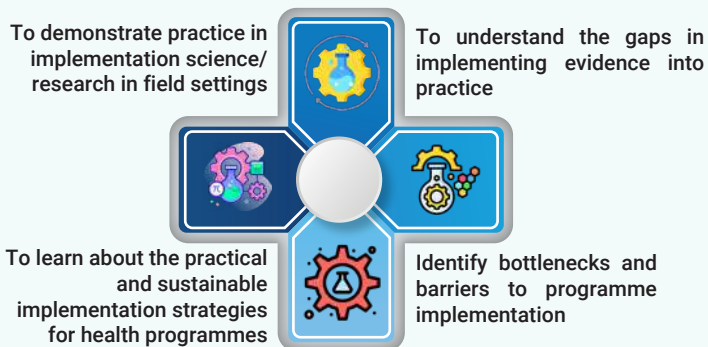

Successful and effective implementation of the health programmes is critical for achieving the health outcomes. Health programmes are, though, based on evidence-based sound strategies and technologies, yet unable to achieve key performance indicators and health outcomes due to various barriers in access, availability, and utilization of health services, such as lack of community awareness, inadequate logistics, and supplies, transportation, shortage of human resources, lack of motivation and training of the health workforce, and partnerships and coordination.

Implementation Science is a new and emerging area in public health that entails identifying problems and priority setting, analysis of causes and barriers to effective implementation, developing solutions and effective implementation of activities and monitoring of programme. IIHMR University has developed a **Management Development Programme on the Effective Implementation of Health Programmes through Implementation Research**, which builds on lessons learned in the successful eradication of poliomyelitis under the Global Polio Eradication Initiatives (GPEI).

Objectives

The Management Development Programme aims to build the capacity to identify the challenges of various health settings, assess the appropriateness of existing strategies, and develop new interventions and strategies by working with communities and stakeholders. This includes designing rigorous IR proposals, identifying IR outcomes, evaluating effectiveness, and making a plan to scale up real-life implementation.

The specific objectives of the programme are as follows:

Content

Pedagogy

The programme will be delivered using a mix of lectures by resource persons to introduce the lead concept. It will encourage active participant interaction through lectures-cum-discussions, case discussion/analysis, and project work. The participants can be immersed in a dynamic learning environment designed to foster theoretical understanding, actionable insights, and practical skills.

Who Should Attend

The programme is specifically designed for healthcare managers, doctors and nurses, state/district level officers, executives of hospital and healthcare organizations, researchers, and faculty of healthcare institutions involved in implementing/supervising health programmes.

Programme Coordinator

Dr. Piyusha Majumdar
Associate Professor
SD Gupta School of Public Health
IIHMR University, Jaipur

The programme will be delivered by a team of national and internal subject experts.

Nominations/Registration

Please send your nominations/registrations to the following address:

 Programme Officer (Training)
IIHMR University
1, Prabhu Dayal Marg, Sanganer Airport,
Jaipur-302029, Rajasthan, India

Duration and Venue

The programme will start on Thursday, December 5, 2024, and conclude on Saturday, December 7, 2024. It will be organized at the IIHMR University, 1 Prabhu Dayal Marg, Sanganer Airport, Jaipur - 302 029. The university campus provides a learning environment for the participants, who are welcome to use the library and recreational facilities.

Certification

A certificate of participation on completion of the programme will be issued by IIHMR University, Jaipur.

Programme Fee

The programme fee for Indian participants is Rs. 24,750 plus GST (18% as applicable), and for international participants, it is USD 462 plus GST (18% as applicable). The programme fees include tuition, background reading material, lodging, and boarding.
