Few Glimpses from our interventions

- Mobilisation of more than 1,000 women farmers for millet cultivation through millet sowing festivals and live kitchen demonstrations.
- Market linkage initiatives, including interaction with retail chains to promote millet entrepreneurship.
- Capacity building and Entrepreneurship Development Programme (EDP) training of 72 women farmers with RSETI, Udaipur.

- International academic exchange interactions to boost confidence and professional pride among tribal women farmers.

4. Project Interventions and Outcomes

- Established a strong evidence base through baseline assessment for nutrition interventions.
- Improved awareness and acceptance of millet-based diets among tribal communities.
- Enhanced participation of women farmers in millet cultivation and micro-enterprise development.
- Strengthened community capacity for sustainable nutrition and livelihood models.

The MoU between IIHMR University, Jaipur and the Centre for Tribal Development, Udaipur, has been effectively implemented through systematic research, community engagement and capacity building initiatives. The project demonstrates a scalable and sustainable model for improving nutrition security and livelihoods among tribal women and children through the promotion of millets.
