

Master Class Ep. 155 "Scope of AI & ML in Healthcare and Pharma Industry" Monday, 12th October 2026, 11: 00 AM – 12:30 PM IST (Offline)

Dear Venna Harsha Vardhan Reddy,

Greetings for the day.

Hope this email finds you in great health.

IIHMR University takes the lead to organize a series of Master Classes specially curated for the students to enlighten and share insights on issues and initiatives of current interest. The University is conducting a session on October 12, 2026– from 11:00 AM – 12:30 PM IST (Offline).

The masterclass will help students to understand “Scope of AI & ML in Healthcare and Pharma Industry”.

Session Agenda:

- Generative AI, Machine Learning and the Future of Healthcare Analytics, Predictive Insights and Automation
- Introduction to Syneos Health
- Commercial Data Sciences at Syneos Health
- AI Use Cases in the Pharmaceutical Industry
- Scope of AI & Machine Learning in Healthcare and Pharma

Title – “Scope of AI & ML in Healthcare and Pharma Industry”

Guest Speaker: Mr. Gowtham Karupothula, Director Data & Analytics, Syneos Health, Bengaluru

Welcome: Prof. (Dr.) Rajesh Kumar Sinha, Dean – School of Digital Health, IIHMR University, Jaipur

Student Coordinator – 1.Mr. Harsha Reddy (MBA HA 2)

2.Ms. Aditi (MBA PM 17)

Date: Monday, 12th October 2026

Time: 11:00 AM – 12:30 PM IST

Mode: Offline

With best wishes,

Dr. P.R. Sodani

President, IIHMR University, Jaipur

Co-Founder, IIHMR Foundation

IIHMR UNIVERSITY, JAIPUR

EVENT OUTCOME REPORT

"Master Class 155"

Master Class Episode 155
TOPIC: Scope of AI & ML in Healthcare and pharma Industry.
DATE: October 12, 2026 (Monday) Time 11:00 AM to 12: 30 PM.
VENUE: IIHMR University, Jaipur (OFFLINE MODE)
SPEAKER: Mr. Gowtham Karupothula, Director – Data & Analytics, Syneos Health Moderator: Dr. Rajesh Kumar Sinha, Professor and Dean, School of Digital Health, IIHMR University, Jaipur.
NUMBER OF PARTICIPANTS: 288
INTRODUCTION: The Master Class titled “Scope of AI & ML in Healthcare and Pharma Industry” was organized at IIHMR University, Jaipur, on October 12, 2026. The session featured Mr. Gowtham Karupothula, Director – Data & Analytics, Syneos Health, Bengaluru. Dr. Rajesh Kumar Sinha, Professor and Dean, School of Digital Health, IIHMR University, Jaipur, welcomed the speaker. The session was coordinated by Mr. Harsha Reddy (MBA HA 02 Student Placement Coordinator) and Ms. Aditi (MBA PM 17 Student Placement Coordinator) as student coordinators. The session focused on exploring the growing role of Artificial Intelligence (AI) and Machine Learning (ML) in healthcare and the pharmaceutical industry. It aimed to provide students with an industry-oriented perspective on emerging technologies, their practical applications, and their potential to improve healthcare delivery, pharmaceutical research, data-driven decision-making, and operational efficiency.
OBJECTIVE: • Explain students to the scope and practical applications of AI and ML in healthcare and the pharmaceutical industry. • Familiarize students with the use of AI-driven analytics for clinical research, drug discovery, predictive modelling, and healthcare decision-making. • Develop awareness of how data analytics and machine learning can support operational efficiency and evidence-based decisions. • Highlight the importance of data quality, patient privacy, data security, model validation, and responsible AI implementation.

- Help students understand emerging career opportunities at the intersection of healthcare, pharmaceutical sciences, data analytics, and technology.

SALIENT NOVEL POINTS COVERED:

1. **AI and ML in Drug Discovery:** AI and ML can support molecule identification, drug discovery, and the development of new treatments, potentially reducing research time and costs.
2. **Generative AI and Agentic AI:** Generative AI creates content and insights, while Agentic AI can plan and execute multi-step tasks to achieve specific goals under appropriate human supervision.
3. **RAG and Data Privacy:** Retrieval-Augmented Generation (RAG) connects AI models with trusted organizational information to provide context-specific responses while supporting controlled access to internal data.
4. **AI Solution Architecture and Predictive Analytics:** Effective AI solutions combine databases, APIs, AI models, and security mechanisms. Predictive analytics can support pharmaceutical sales forecasting, physician targeting, and business decision-making.
5. **Clinical Trial Analytics and Healthcare Data Integration:** ML can help identify suitable clinical-trial participants, improve trial-site selection, and predict dropout risks. Integrating electronic health records, claims, physician interactions, and commercial data can support better decision-making.
6. **Digital Analytics and Strategic AI Adoption:** Tools such as Google Analytics, Adobe Analytics, and lift analysis can evaluate digital engagement and marketing performance. Organizations should identify workflow bottlenecks and assess AI solutions based on productivity, accuracy, privacy, security, implementation costs, and business value.

Q&A and Interactive Session: The session concluded with an engaging question-and-answer session, providing students with the opportunity to interact with Mr. Gowtham Karupothula and gain industry-oriented insights into the applications of AI and ML in healthcare and the pharmaceutical industry. The discussion helped students understand emerging technological trends, practical industry applications, data-driven decision-making, and the importance of developing relevant analytical and technical skills for future career opportunities.
