

IIHMR UNIVERSITY, JAIPUR
EVENT OUTCOME REPORT
“Master Class Episode 133”

“Master Class Episode 133”	
TOPIC: Basics of Digital Health and Healthcare Applications	
DATE: 20 th March, 2025 from 4:00pm to 5:00pm.	
VENUE: New Auditorium- Part A, IIHMR University, Jaipur	
SPEAKER: Dr. Narayan Pendse (Vice President- Medical Strategy and Operations, Fortis Healthcare Corporate)	
NUMBER OF PARTICIPANTS: 129 students from 1 st year MBA (Hospital and Health Management), MBA(Pharmaceutical Management) and MBA(Development Management) , MBA (Healthcare Analytics)	
INTRODUCTION: The 133 rd episode of Master class Session titled – “Basics of Digital Health and Healthcare Applications” held on: 20 th March, 2025, at IIHMR University. This session featured the guest speaker Dr. Narayan Pendse (Vice President- Medical Strategy and Operations, Fortis Healthcare Corporate). The event was moderated by Mr. Vinod Tejawani, Dean, Placements and Alumni Relations and Student Co-ordinator Ms. Divya Gupta from batch HM-29.	
OBJECTIVE: This session aims to introduce the fundamentals of digital health and its impact on modern healthcare. Participants will gain insights into key healthcare applications, their benefits, and challenges. The expert discussed emerging trends and technologies shaping digital healthcare. By the end, attendees understood the role of digital solutions in enhancing patient care and hospital management.	
Salient Novel Points Covered:	
ROLE: Dr. Narayan Pendse provided an insightful overview of the current landscape of the Digital healthcare industry, focusing on its regulatory framework, key terminologies, and various roles and verticals. He discussed the importance of an efficient Hospital Management Information System as well as difficulties in adapting to new changing technologies by the stakeholders, especially the doctors.	
KEY TAKEAWAY POINTS FROM THE SESSION:	
<ul style="list-style-type: none">• Digital Health & the Digital Circle – Digital health integrates technology like telemedicine, AI, and mobile apps for efficient healthcare delivery.• Hospital Digitalization – HMIS and EMR streamline operations, enhance patient data management, and improve decision-making.• HMIS & EMR for Financial & Operational Efficiency – These systems reduce paperwork, optimize billing, and enhance resource utilization.• Business Transformation in Healthcare – Digital platforms enable virtual care, AI diagnostics, and data-driven decision-making.• Government Initiatives in Digital Health – Programs like ABDM and NDHM promote a unified, tech-driven healthcare ecosystem in India.	
Q&A and Interactive Session : The session encouraged active participation from students, who not only clarified their conceptual doubts about the hospital sector, but also asked relevant questions about how to co-relate their previous experiences in the health and hospital industry and progress further in their career integrating digital platforms.	

Future Scope: The future of digital health will be driven by AI, IoT, and big data for predictive healthcare and personalized treatment. Enhanced HMIS and EMR systems will improve interoperability and real-time data access. Telemedicine, blockchain, and government initiatives will further transform healthcare, making it more accessible, efficient, and patient-centric.
