## EVENT OUTCOME REPORT

### “Master Class Episode 73”

<b>Event Category:</b> Master Class Episode 73
<b>Topic:</b> "Coining the New AI (Academia- Industry) Linkage- The power of Partnerships & Collaborations in MedTech"
<b>Date &amp; Time:</b> 24th Apr. 2023 from 3:30 PM to 4:30 PM (IST).
<b>Venue</b> Old Audi, IIHMR University and Online Mode.
<b>Details of Speaker:</b> Dr Rajiv Chhibber, PhD, Vice President, Sahajanand Medical Technologies
<b>Number of Participants:</b> Total 42 Students from MBA 2nd year.
<b>Introduction:</b> IIHMR University takes the lead in organizing a series of Master Classes 73 specially curated for the students to enlighten and share insights of the corporate culture. This session featured MR: <b>Dr Rajiv Chhibber</b> PhD, Vice President, <b>Sahajanand Medical Technologies</b> , as the guest speaker. The event was moderated by Mr. Vinod Tejwani, Dean of Placement and Alumni Relations, Dr. Saurabh Banerjee, Dean School of Pharmaceutical Management, and student moderator Mr. Vivek Pande from the MBA PM 14 batch. The session focused on discussing the role of AI (Academia- Industry) in Collaboration in MedTech.
<b>Objective of the Session:</b> To provide insights into the field of MedTech all over the India not only in Industries.
<b>Salient Novel Points Covered:</b> He gave a Sunshine ray on his decades of experience in the field, Dr. Chhibber discussed a wide range of topics, from India's ranking in the global medical devices market to the opportunities and challenges facing the industry. Dr. Chhibber's also emphasize on the medical devices export and import market, Overview of Indian med tech companies, import summary of 6 categories of medical devices, Segmentation of med tech as (Disposables, consumables, electronics, equipment's, implants, diagnostics, instruments) He also shared his thoughts on the different segments of the med tech industry and the exciting innovations that are driving growth in this field. MedTech is the new Sunshine Industry, and there is still a void in understanding this sector. He also shares his thoughts on AI (Academia-Industry) which needs to be strengthened in India and not only the industry, but Academia also needs to join hands to create an Atmanirbhar Bharat. The industry academia concept that is followed in the US and other western countries, can excel & accelerate India's move towards becoming the next (human capital) hub. The need is to have strong and sustainable partnerships that can be a win-win situation for not only the two, but also develop a cadre of industry-academia units that are capable to understand the emerging business opportunities and the healthcare ecosystem (needs) in India and move in tandem to bring about lasting change to meet the sustainable development goals 2030. Although the session was very informative and thought-provoking that left me with a deeper knowledge for the incredible work that is being done in the medical devices industry, and the broad capability that still exists for innovation and growth.
<b>Future Scope:</b> The event served as a valuable platform for students from diverse disciplines to acquire insights into the essential skills and requirements necessary for success. It helped students develop a deeper understanding of the challenges they may encounter and the mindset they should cultivate to effectively excel in their work in the field of MedTech.
