

# 8<sup>th</sup> ANNUAL REPORT

2021 - 2022

# Message from President

It is my great pleasure to share the Annual Report of IIHMR University for the year 2021-22. As we look back on the past year, we take pride in showcasing the outstanding achievements and advancements made by our institution. I extend my heartfelt congratulations to my colleagues for their dedication to enhancing performance and fostering a conducive environment through their unwavering commitment to progress.

At IIHMR University, our dedication to fostering excellence in research, education, training, and executive education stands firm. This year, we have taken significant strides in executive education by introducing two industry-tailored programmes tailored to the needs of working professionals: Executive MPH and Executive MHA. Moreover, we are proud to announce our collaboration with the Odisha State Health & Family Welfare Society, Department of Health & Family Welfare, Government of Odisha, through a Memorandum of

Understanding (MoU) to offer two executive education programs: Executive Master of Public Health Management (a two-year program) and the Executive Post Graduate Diploma in Public Health Financial Management (a one-year program). This endeavour underscores our commitment to providing impactful and professional executive education opportunities that equip individuals with the skills and knowledge necessary to excel in their respective fields.

Research stands as the bedrock of our institution, embodying our unwavering commitment to advancing knowledge in healthcare management, policy, and delivery. Our esteemed faculty members consistently lead the charge in pioneering research endeavors, generating invaluable insights that underpin evidence-based decision-making and policy development.

Central to our ethos is the cultivation of a dynamic research ecosystem, one that fosters interdisciplinary collaboration and cultivates innovation. Throughout the year, our faculty members have actively contributed to the scholarly landscape through a myriad of research initiatives, including conducting comprehensive research studies and publishing high-quality research publications, cases, book chapters, and policy briefs.

In the year 2021-2022, we proudly highlight the culmination of significant achievements as nine research scholars successfully completed their PhD, delving into a spectrum of vital and pertinent topics. This milestone not only underscores our dedication to academic excellence but also reaffirms our commitment to pushing the boundaries of knowledge and driving impactful change in the field of healthcare.

IIHMR University is actively involved in designing and conducting management development programs tailored to industry professionals. This year, we are happy to share the initiation of a significant capacity-building endeavour, in collaboration with NISHTHA/Jhpiego, known as the "Community Health Officers (CHO) Leadership Certification Program." This comprehensive 10-week online course spans 40 hours and comprises 7 modules meticulously designed to empower selected CHOs from 14 states across India, organized into 13 cohorts.

The primary objective of this program is to augment the capabilities of Community Health Workers (CHOs) in effectively managing Health and Wellness Centres to deliver high-quality primary healthcare services. During the year 2021-2022, a notable achievement was realized as 103 out of 1275 CHOs successfully completed the training programme. Furthermore, our university has forged partnerships with a multitude of governmental and non-governmental entities, such as the Government of Uttarakhand, TATA Trusts, and the Department of Science & Technology, among others, to contribute to the capacity building of public health professionals collectively.

Our faculty, staff, and students have demonstrated resilience, creativity, and dedication, enabling us to overcome obstacles and thrive in a rapidly evolving landscape. Throughout the year, we have continued to expand our academic offerings and enhance the quality of education imparted to our students. Our programmes are designed to equip future healthcare leaders with the knowledge, skills, and ethical values necessary to navigate complex healthcare systems and drive positive change. We take pride in our graduates who are making significant contributions to the healthcare industry, both nationally and internationally.

In tandem with our robust efforts in Research, Academics, and Training, IIHMR University remains deeply committed to fostering dynamic partnerships with industry stakeholders, government bodies, and other organizations. These collaborations are instrumental in addressing the pressing challenges confronting the healthcare sector while championing sustainable development initiatives.

One such noteworthy alliance is our Memorandum of Understanding (MoU) with the Institute for Health Policy and Organisation, University of Manchester. This strategic partnership is dedicated to advancing research, education, and the practical application of scientific knowledge through mutually enriching student and faculty exchange programs.

Additionally, IIHMR University has embarked on significant collaborations to further our mission. We recently formalized an MoU with the National Health Systems Resource Centre (NHSRC), New Delhi. This collaboration is aimed at institutionalizing educational and scientific cooperation programs, collaborative academic initiatives, research projects, and the exchange of faculty and students. These partnerships underscore our unwavering commitment to fostering innovation, knowledge exchange, and capacity building, ultimately driving positive change in the healthcare landscape.

Amidst challenges, we've demonstrated resilience by maintaining the uninterrupted flow of our endeavours. IIHMR University has spearheaded a dynamic series of conferences and webinars, meticulously tailored to explore pivotal subjects and efficiently disseminate knowledge. These platforms serve as vital conduits for intellectual exchange and growth.

Furthermore, our facilitation of MasterClasses, guided by industry stalwarts, imparts invaluable insights and pragmatic wisdom to our community. These sessions empower individuals with the expertise needed to thrive in their respective fields. Moreover, the active involvement of our esteemed alumni in 'Know Your Alumni' sessions enriches the educational journey of our students. Through the sharing of experiences and expertise, these sessions foster a vibrant learning environment, nurturing holistic development. These initiatives underscore our unwavering commitment to academic excellence and the holistic advancement of our community, reinforcing our position as a beacon of knowledge and innovation.

As we look ahead, we remain focused on our mission of excellence in healthcare education and research. We are committed to nurturing the next generation of healthcare leaders and contributing to the advancement of the healthcare sector in India and beyond. I would like to express my gratitude to our faculty, staff, students, alumni, partners, and stakeholders for their unwavering support and commitment to our shared vision. Together, we will continue to strive for excellence and make a meaningful impact on healthcare delivery and management.

Thank you for your continued trust and support.

Warm regards,

**Dr. P.R. Sodani**  
**President**

## 14. Financial Systems

The University is an autonomous incorporated body. In pursuance of section 6 of the Act, the University manages its finances through its resources like research projects, educational programmes, and training. The University is a self-financed organization and does not receive any grant or other financial assistance from the State Government.

### Accounting and Financial Procedures

IIHMR University has approved Accounting and Financial Procedures, and all activities and tasks of the Finance and Accounts Department are performed in accordance with the Accounting and Financial Procedures. There are adequate checks and balances to insulate the organization from misappropriation and misuse of financial resources. The accounting procedures adequately provide efficient management of university funds and assets. The procedures also manifestly depict the responsibilities of persons managing the finance and budget. The Finance and Accounts Department adheres to the university's accounting procedures.

### Annual Budgeting

The University prepares its Annual Budget every year. For the Financial Year 2021-22, the Annual Budget has been prepared based on a participatory process involving the Registrar, Deans, Faculty Members, and Heads of Department (Administration, Finance, IT, Library, etc.). Each administrative and academic vertical conducted detailed assessments of the enabling and mitigating factors that are likely to shape the coming financial year's budgetary projections. The result is the proposed budget. The separate budgeting of the schools has brought more accountability and awareness about the resource generation at the school-level. This exercise will strengthen the self-sustaining character of the University.

## **INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF IIHMR UNIVERSITY, JAIPUR"**

### **Report on the Financial Statement**

We have audited accompanying financial statement of "IIHMR UNIVERSITY JAIPUR, which comprise the Balance Sheet as at 31<sup>st</sup>March, 2022, the Statement of Income & Expenditure for the year then ended on that date.

### **Management's Responsibility for the Financial Statements**

The University Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance of the University in accordance with the Accounting Standards, as applicable to the institutions and in accordance with the accounting principles generally accepted in India. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the standards on Auditing issued by the Institute of Chartered Accountants of India. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the University's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the University internal control. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give a true and fair view in conformity with the accounting principles generally accepted in India.

- (a) In the case of the Balance Sheet, of the state of affairs of the University as at 31<sup>st</sup> March 2022.
- (b) In case of the Statement of Income and Expenditure, of the excess of income over expenditure for the year ended on that date.

### Report on other Legal and Regulatory Requirement

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- (b) In our opinion proper books of account as required by law have been kept by the University so far as appears from our examination of those books.
- (c) The Balance Sheet and the Statement of income and expenditure dealt with by this Report are in agreement with the books of accounts.
- (d) University does not have any pending litigation which would impact its financial position.
