-----------------	----

Message from the President

It gives me immense pleasure to welcome you to IIHMR University for the placement process for the batch of 2020-2022. It is a moment of pride for us to present you with a vibrant, young, dynamic and talented batch of student managers ready to join the corporate world. Our student mix is selected through a rigorous selection process, ensuring that only the very best of the lot get into our campus. This selected batch is exposed to a thoroughly updated curriculum that is in sync with modern scenario demand.

The Indian Institute of Health Management Research, now in its 38th year, continues to impact health policies, programs, and ground-level action for public health. Our university's vision is to improve health standards by better managing health care and related programs. It seeks to accomplish this through management research, training, consultation and institutional networking from a national and global perspective. IIHMR University creates highly knowledgeable and skilled professionals for the industry. It empowers them to find sustainable solutions to people's problems, health issues, and health transformation.

The MBA (Hospital and Health Management) program, offered by IIHMR University, is a one-of-its-kind and path-breaking program in India. It is the University's flagship educational program that aims to develop professional managers with requisite skills in planning, implementation, operational management, diagnosis and problem solving, consultancy, and entrepreneurship. Through this rigorous program, graduates can manage hospitals and healthcare institutions globally, both in public and the private sectors, thus meeting the demand for quality healthcare management. In other words, this program is a designed mix of social context, entrepreneurial skills and management tools. The students undergo two years of rigorous theoretical and field-based training with pilot ventures, rural practicum, and dissertation.

I invite you to visit our campus, interact with our committed and sensitive students and discover their innovative ideas, commitment, and enthusiasm in contributing and responding to the need of the hour. I am confident that our students will contribute immensely to your esteemed organization and become assets to you.

Dr. P. R. Sodani

President

IIHMR University

About IIHMR University ■

IIHMR, established in 1984, has a rich legacy of 37 years of journey in institutional learning. The institution has made a distinct place in creating and nurturing young talents for leading and managing organisations in Health and Development Sectors globally. Within six years from its inception as a University in 2014, the IIHMR University has been ranked 73rd by National Institutional Ranking Framework (NIRF) 2021, in Management Category.

The University has multi-disciplinary team of faculty from different areas of Social and Behavioural Sciences Management, Public Health, Hospital, Health, Pharmaceutical, Rural Management and Leadership. The University is specially known for its significant contribution to research and capacity building.

IIHMR has been identified as the Institute of Excellence for capacity building by Ministry of Health and Family Welfare Government of India.

Mission

IIHMR University is dedicated to the improvement in standards of health through better management of health care and related programs. It seeks to accomplish this through management education, research, training, consultation and institutional networking in a national and global perspective.

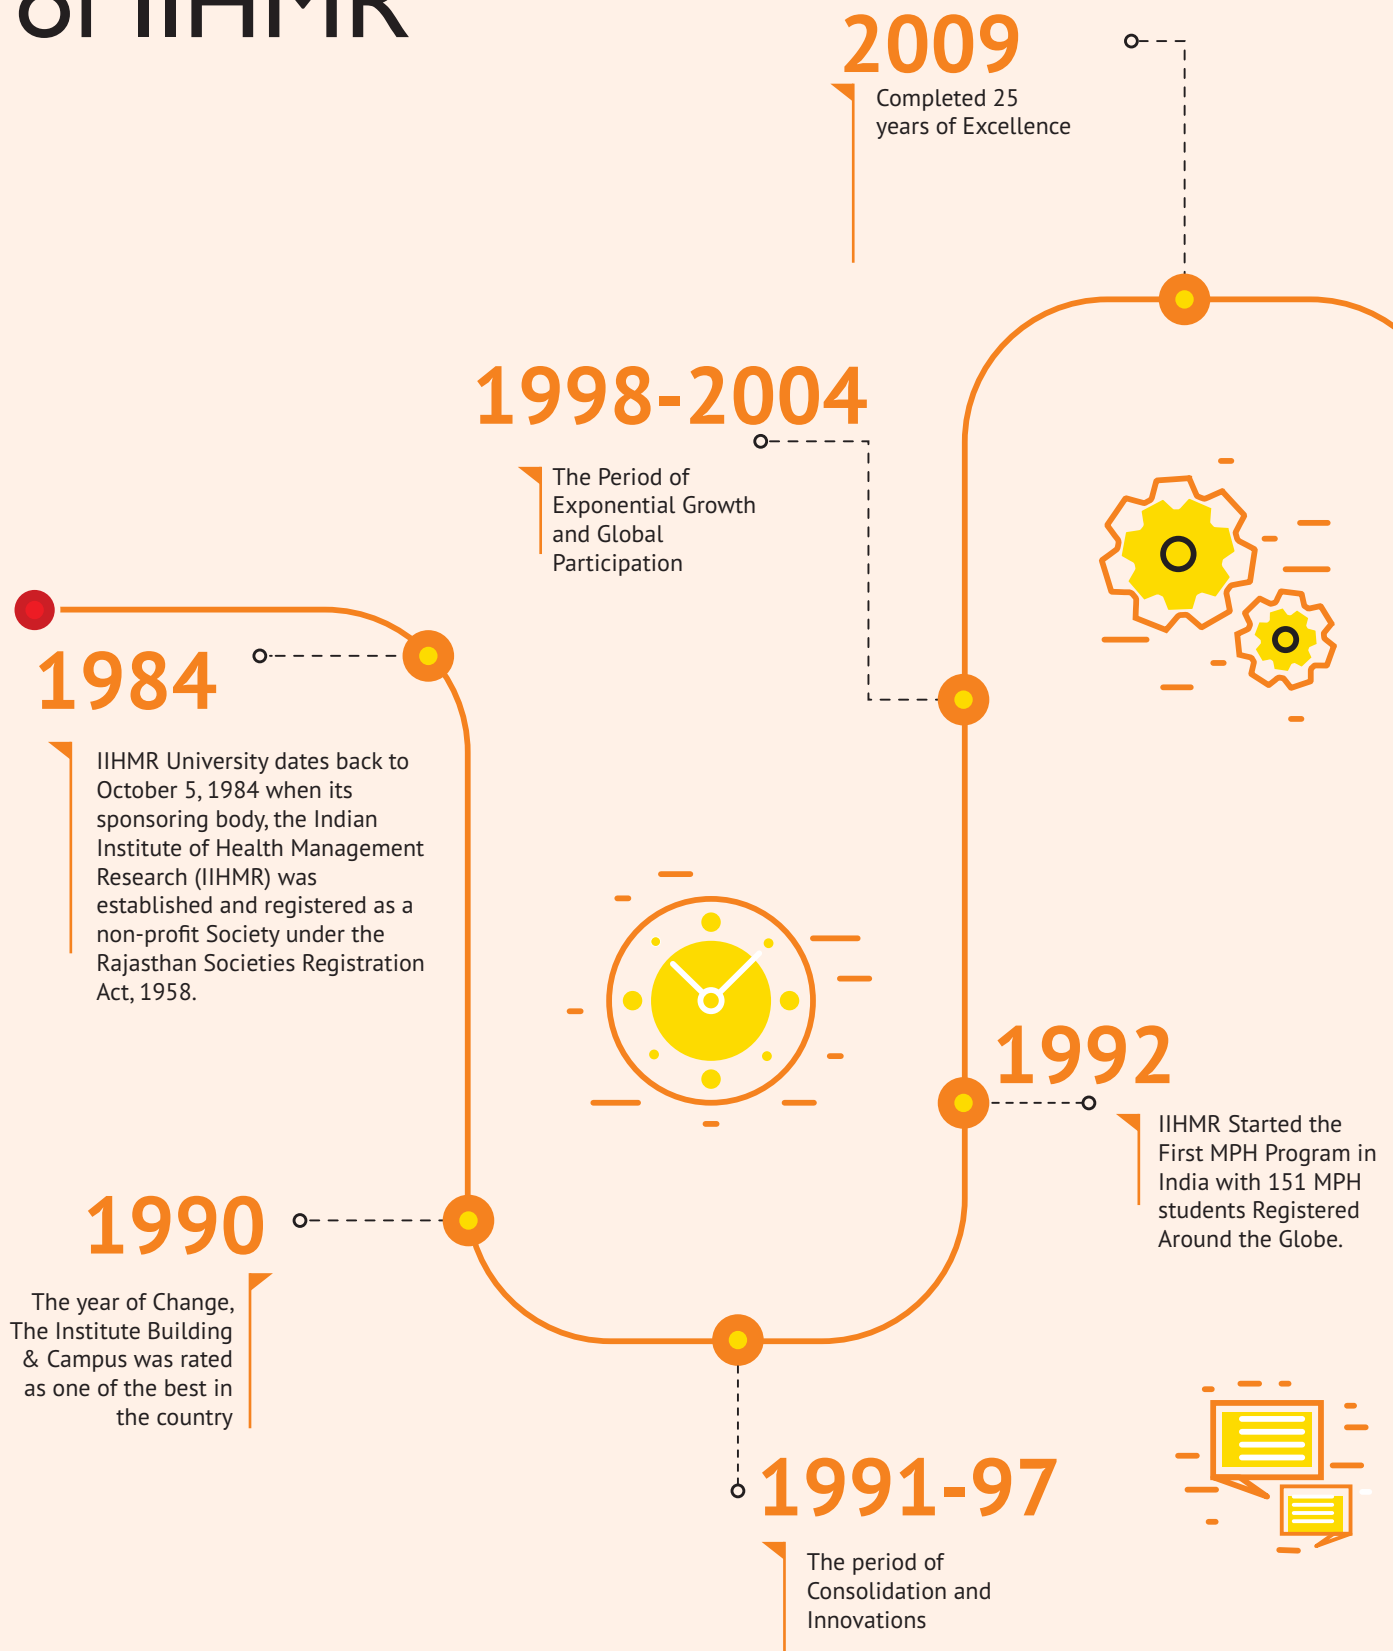

Vision

To become a world class higher education institution by promoting education and research for the betterment of the society.

Journey of IIHMR

2018

National & International Networking
along with major collaborations

2014

An ordinance was replaced by the IIHMR University Act, 2014 (Act No. 3, of 2014) passed by the State Legislature on February 07, 2014. The Act of 2014 received the assent of the Governor on 25th day of February 2014 and was notified in Rajasthan Gazette Extraordinary on February 26, 2014.

2020

Completed 36
years of Excellence

Ranked 65 by NIRF Ranking 2020

2013

The IIHMR University has been established and incorporated as a postgraduate research University by the Government of Rajasthan vide the IIHMR University Ordinance, 2013 (Ordinance No 30 of 2013) promulgated on September 27, 2013 by the Governor

2010

In a commitment to global education, IIHMR collaborates with various universities for student interaction and joint study.

Industry Interface Summits

Pradanya means “Wisdom.” The event has had a long journey of 23 years spreading wisdom amongst young minds and professionals of healthcare, hospital, pharmaceutical and rural development sectors. Every year IIHMR University organizes an international three day conference, 'Pradanya'. Expert leaders from India and abroad in the fields of healthcare, pharmaceuticals, the development sector and allied industries address the students for intellectual churning. Pradanya gives an opportunity for engagement with corporate leaders across the industries. It also creates a space for discussion of one-on-one meetings with top corporate leaders.

Global Networking and Collaborations

Why Recruit from IIHMR-U

The IIHMR University Jaipur-The Pioneer Healthcare, Pharmaceutical and Rural Management University in India has always been the first choice of the leading organization for recruitments. We are proud to announce that all the alumni of the University have secured excellent placements with Public and Corporate healthcare organization at National and International level.

Placements have always been critical in recognizing students' potential, and it is the goal of the entire IIHMR community to raise the bar on placements year after year by instilling significant technical and non-technical knowledge in students, preparing them to meet the ever-changing industry requirements and challenges. Even during Covid-19 scenario we aimed to facilitate highest number of placements from our current batch, whether it is internships or final placements, the placement cell has worked relentlessly to make sure that every student is placed irrespective of the pandemic.

“
**Learning is a
treasure that
will follow its
owner
everywhere.**
”

A Well- Defined Placement Process

The University offers a platform for placements wherein the leading corporations from a variety of industries are invited to campus placements on a schedule in order to place our students effectively before the end of their studies. Top companies from the country and abroad are invited to recruit students from various specializations in Hospital & Health Management, Pharmaceutical Management and Rural Management. IIHMR is really delighted of its industry ties and works hard to ensure that they are mutually beneficial.

Complete Pre-placement Guidance

The placement cell works dedicatedly with the faculty and alumni to prepare the students for a rewarding placement season. This includes, developing crisp and unique resumes, regular technical and non-technical training to help them succeed in interviews, conducting mock interviews and group discussions, hosting aptitude tests, and mentoring sessions by the alumni. They gain practical experience by interacting with our large alumnus network through webinars and sessions like 'Know Your Alumni' also the Masterclass session from the Top Management of Industry. The team also organizes various events, fairs, and workshops to help students understand the corporate culture and deal effectively with the placement pressure.

Final Placements with Fascinating Packages

IIHMR has focused on developing future leaders that bring actual value to enterprises, not just in terms of technical proficiency, but also in terms of strong ethics that guide them as authentic persons and corporate leaders, since its inception. Once the students are all geared up and confident to face the industry, the placement process takes shape in its final leg. The program starts in the month of September and continues till the end of the academic calendar as per the mutual convenience of the recruiters and the university.

During the final placements, the entire process is smooth and well-planned for both, students, and companies. As a result, employers get industry-ready candidates who have the ability to use their skills and knowledge to help businesses thrive in a highly competitive market.

We are pleased to announce that all of the University's graduates have been placed in good positions with both public and private healthcare organizations on a national and international level. All hospital and health program/management graduates have been placed. Our students not only get an impressive opportunity, in terms of the package, but also in terms of priceless learning and endless growth.

Alumni Mentoring Programme

Alumni Mentoring Programme is a unique initiative undertaken by IIHMR University, Jaipur. Through this programme students are connected with alumni who serve both as a guide and a source of inspiration for them. Alumni Mentoring Programme is launched with the goal of keeping the alumni connected to their alma mater as well as share their valuable experiences with the current students.

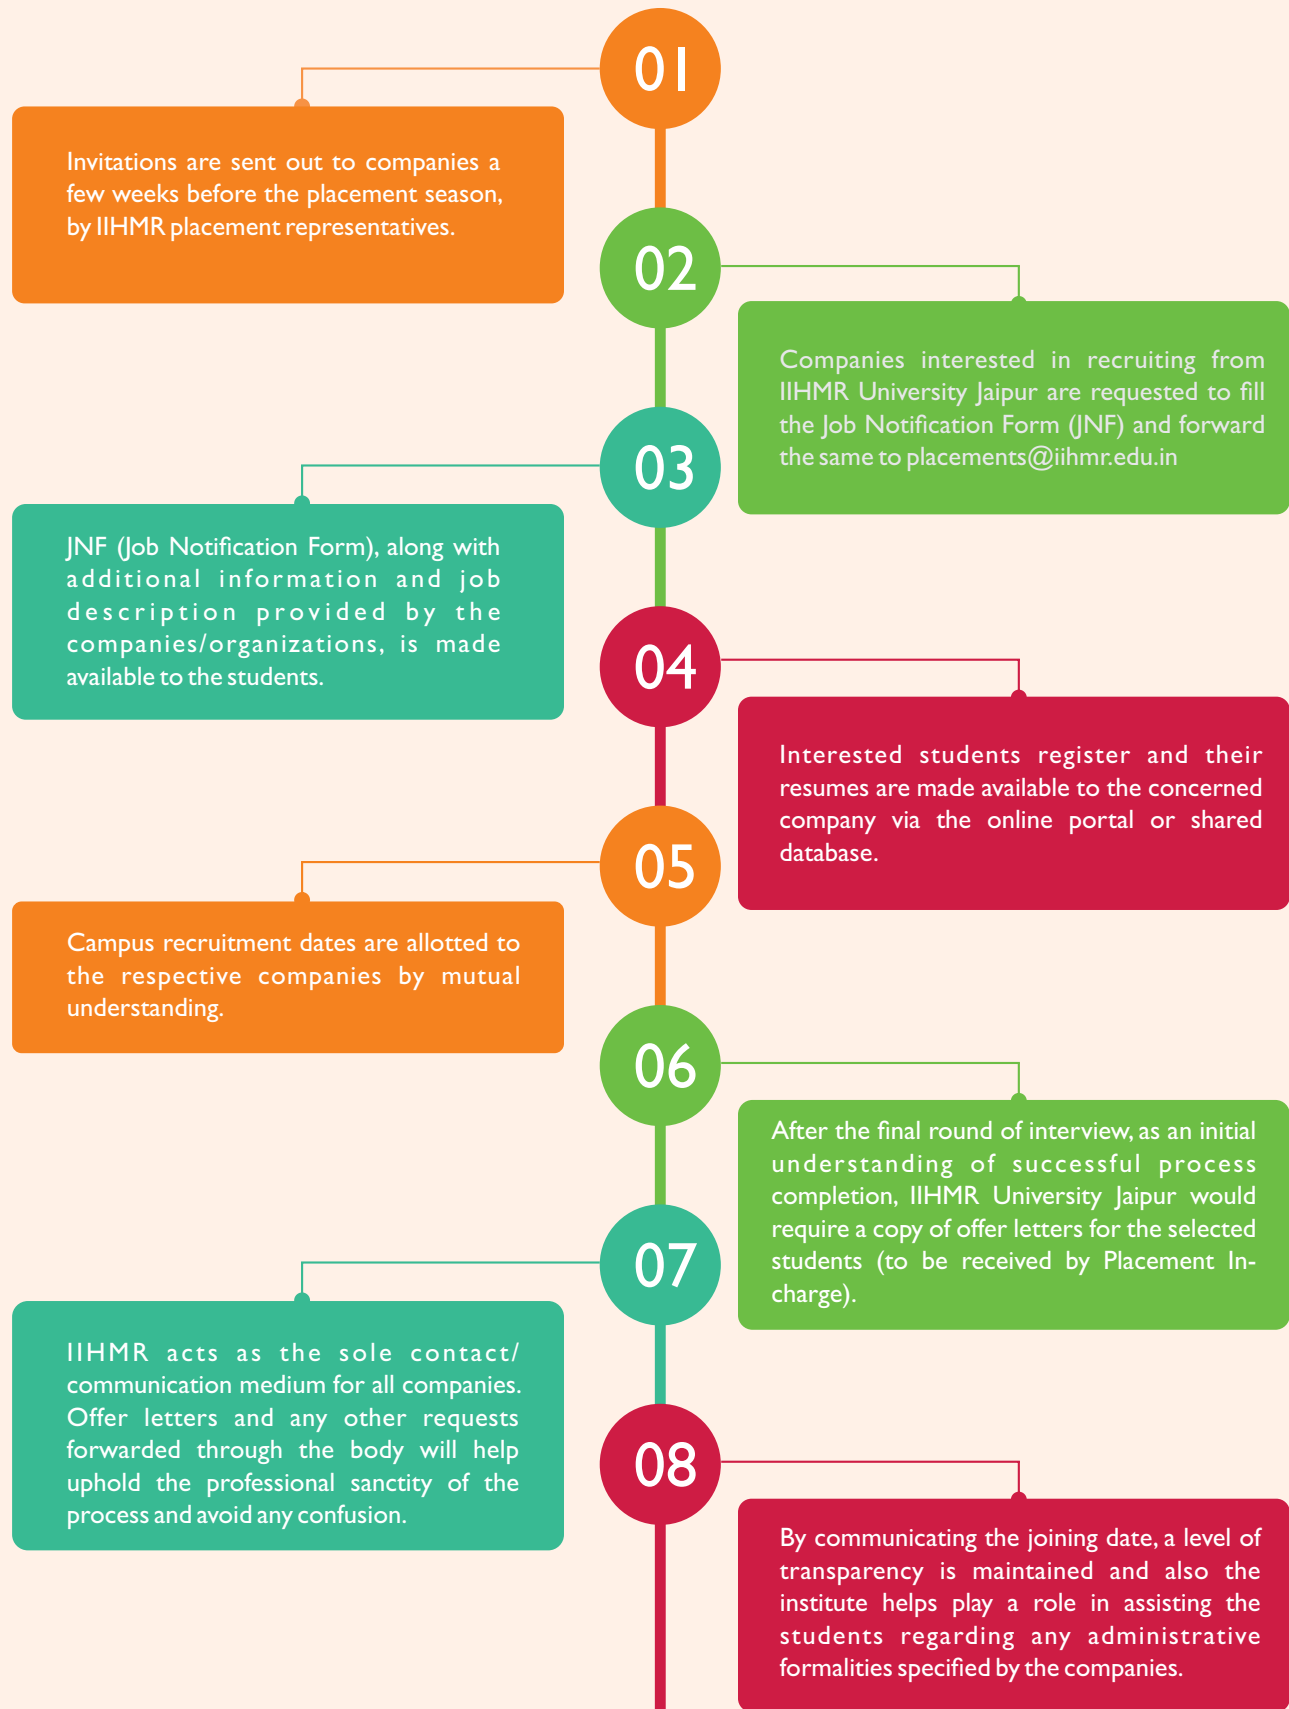

Framework of Mentorship Programme

Under this programme, we invite our alumni across the globe and from different fields to interact with the students and help them build their network and gain a new perspective on the possibilities open to them, after graduation.

With the students facing crossroads at every other turn and unable to choose what's best for them due to a lack of insight into how things would actually materialize with each road that they choose to take, it becomes crucial that they are guided by people who have faced the same crossroads during their academic life and the competitive world beyond it.

The Alumni with their vast repository of personal experiences can help improve insight among students into diverse aspects of life which include academics, extracurriculars, the professional life after college or the general way of life.

The tiny glow of a candle fills the room with light. We, at IIHMR in Jaipur, believe in bringing light beyond the horizons of India. The Placement Committee at IIHMR University Jaipur is a team of dedicated and committed individuals which is responsible for the development of students' careers and establishment of strong and sustainable corporate relations. The committee relentlessly works for the overall institutional goal of inviting reputed companies and providing desired placement offers to students based on their personal field of interest. It is an elected body where the members are elected by students of the institute. It consists of a Bi-Cameral framework consisting of senior and junior members. The Placement Committee looks into tasks like student brochure development, resume vetting, pitching, students' skills-job mapping and placement related event organizing. Apart from these tasks, the Placement Committee at IIHMRU also conducts mock group discussions, interviews and workshops which equips the students to face the placement interviews and be industry ready.

MBA Hospital and Health Management

(Managing Healthcare with a Difference)

Message from Dean

Institute of Health Management Research

Dr. (Col) Mahender Kumar
Dean
Institute of Health Management Research,
IIHMR University

Greetings from Institute of Health Management Research (IHMR), IIHMR University, Jaipur!

The IIHMR University, Jaipur has been recognised as a post graduate research University by Government of Rajasthan vide the IIHMR University Ordinance, 2013. Earlier known as IHMR, it is the first of its kind knowledge institution in India, established in 1984 in Jaipur, with dedicated mission to improve standards of health through better management of health care.

In view of current COVID 19 pandemics, we strongly believe that the coming together of diverse minds and perspectives with multidisciplinary approach and honest discussion is a necessary pre-requisite for identifying realistic solutions and management interventions to meet the challenges of managing health of people in the country and world. IIHMR University 'mission is a guiding principle to design need based high impact two-year master level programme in Hospital and Health Management to cater the need of especial cadre of health professionals to manage health care systems in private and government sectors. The overall objective of the MBA Hospital and Health Management programme is to develop understanding of health care ecosystem in the country, sharpen the business acumen, mastering in analytical skills to recognize emerging trends and scope of improvement in the health care industry by designing innovation and intervention, strengthening leadership competencies with effective communication during emergency and adverse situation.

IIHMR University, Jaipur has multi-disciplinary faculty with excellent academic records and teaching experience relevant to the healthcare sectors. We have outstanding blend of regular and visiting faculty with rich experience of hospital and health system to ensure the unique insights of learning and examples. We encourage both residential and online blended learning to accommodate and allow the flexibility of learning with student-centric experimental pedagogy.

I am proud to mention that IIHMR University adheres its mission to achieve academic excellence vetted through evidence-based research findings. The eminent faculty at the Institute promotes a knowledge-sharing culture of innovation and excellence among the students. IIHMR also offers its students the best-in-class placement opportunities. Thanks to the support of prominent recruiters from across industries.

The dynamic business ecosystem of healthcare needs competent managers who are also excellent leaders to drive it towards a more progressive, inclusive, and kinder future. In addition to instilling strong ethical values in the students in line with its mission, IIHMR University, Jaipur is also conscious of the invaluable partnership it shares with businesses, employers and the society at large, which enables us to produce effective leaders. In recognition of this bond, I hereby extend a wholehearted invitation to all recruiters to visit IIHMR University, Jaipur and interact with promising thought leaders and high-potential change-masters from the 2020-22 batch to fulfil their lateral hiring requirements.

MBA Pharmaceutical Management

(Launching Zestful Business Professionals)

Message from Dean

School of Pharmaceutical Management

Dr. Saurabh Kumar

Dean

School of Pharmaceutical Management
IIHMR University

Greetings from the School of Pharmaceutical Management, IIHMR University, Jaipur

The global and the Indian Pharmaceutical industry is undergoing a paradigm shift towards changing business representations, expanding strategic partnerships and resourced revenue models. The pharma arena is constantly evolving as each day progresses catering to the needs and aspiration of the consumers and the patients to provide advanced medications for effective disease outcome.

Today the Pharmaceutical Industry aspires to convert its strategies and planning into implementation and expects the people who are joining them to possess managerial competencies apart from technical knowhow. The Industry expects the candidates to have a in depth understanding regarding the various domain of the pharmaceutical industry namely managing the brands of a pharmaceutical formulation, managing the Supply Chain Management, regulating the pharmaceutical product and API's nationally and internationally, carrying out market research of the pharmaceutical product and a in depth understanding of the consumer's/patients behaviour towards OTC, Prescription drugs, Medical devices, Diagnostics, Nutraceuticals and many more .

The curriculum of MBA Pharmaceutical Management, IIHMR University, Jaipur has been designed to impart the skills desired by the various national and international pharmaceutical organization and prepares them for taking the challenging tasks desired by the organizations. They are exposed to real time case studies, group discussions, problem solving approaches which make them ready to enter Industry once they graduate from the campus. Practical exposure in the form of summer training and dissertation enhances their understanding of the pharmaceutical market.

The faculty of School of Pharmaceutical Management are well versed in delivering the high-quality academic competency and industry proficiency in different aspects related to the area of Pharmaceutical Management and constantly guide them not even during the program but even when they enter their professional domain.

The Alumni of MBA PM program are also another significant component of the School and are working with several reputed Pharmaceuticals MNC & Indian firms. They are being invited in the teaching modules to keep the students abreast with the latest development in the industry and are part of Board of studies and Board of Management.

I take pride in sharing the profiles of our students and look forward for a symbiotic relationship between School of Pharmaceutical Management, IIHMR University and your esteemed organization.

Program Structure

MBA Pharmaceutical Management

Basic Courses

- **Design Thinking**
- **Written Analysis and Communication**
- **Excel Application and PowerPoint Presentations**

First Year

Core Courses: Term I, Term 2, and Term 3

- National and International Environment. for Pharmaceutical Industry
- Principles of Management
- Human Resource Management
- Essentials of Pharmaco- epidemiology
- Intellectual Property Rights
- Managerial Economics
- Community Studies (Unnat Bharat Abhiyan)
- Research Methods
- Organisation Behaviour
- Pharmacology and Therapeutic Management
- Financial Management- I
- Digital and Social Media Marketing
- Community Studies (Unnat Bharat Abhiyan)
- Bio-Statistics
- Regulatory Environment for Pharma Business
- Pharmaceutical Marketing
- Business Communication
- Business Development for Pharmaceutical Industry
- Community Studies (Unnat Bharat Abhiyan)

Summer Training

Each student is required to work with an organization, on a project, for a period of eight weeks at the end of the first year. The objective is to allow students an intense day-to-day interaction with organizations. Summer Training provides students exposure to the working of an organisation in real time. It also helps students to develop managerial skills, competencies and facilitate an informed career choice by the students. performance of the students during summer training is assessed by way of report from the institution and poster presentation.

Second Year

Core Courses: Term 4, Term 5, and Term 6

- Sales and Distribution Management
- Product and Brand Management
- Management Information System
- Public Health Policy
- Clinical Research and Development
- Medical Devices
- Total Quality Management
- Project Management
- Entrepreneurship
- Strategic Management
- Supply Chain Management
- Marketing Analytics
- Consumer Behaviour
- Pharmaceutical International Business Management
- Pharmaceutical Production Management
- Business Data Analytics

Dissertation and Internship

Each student is required to submit a dissertation involving primary research in his/her area of interest. The dissertation includes a critical review of literature pertaining to the specific area of interest, data collection and analysis on the selected problem. The dissertation must be completed in the second year to qualify for the degree.

MBA Rural Management

(Be the change for a better world)

Message from Dean

School of Development Studies

Prof. Rahul Ghai
Dean
School of Development Studies
IIHMR University

Greetings from School of Development Studies, IIHMR University, Jaipur!

The post graduate degree program in MBA Rural Management is committed to hone professional managers, who can contribute to ongoing development transformation in a meaningful manner. The programme is a unique blend of theory and practice that prepares professionals for a challenging career in the public, private sectors, CSOs, CSR, national and multinational organizations. Through innovative pedagogy and robust industry connect the program strives to equip students with skills and perspectives embedded in scientific knowledge, interdisciplinarity, equity, justice, ecological sustainability. Being embedded in a discourse of public health at IIHMR makes the MBA Rural Management uniquely placed to contribute to engage with human and societal well-being.

We are indeed passing through momentous times, negotiating daily the life context set by the corona pandemic. The pandemic hit as a public health crisis rolled into a humanitarian crisis that led to an embedded social and economic crisis. It threatens to disproportionately hit not only the health security but also cause a devastating social and economic crisis over the months and years to come. The invisible virus has stuck deep roots into our conventional notions of work and nature- human engagement. These are times of reconfiguration beckoning us to reimagine our conventional inventory of things but also and more significantly what new needs to be done. The protracted process of economic recovery and social security has to happen in the context of a more permanent refactoring of jobs being accelerated by the predictable changes that will need to be implemented, such as work from home, masks, temperature checks, social distancing, and other behavioural shifts.

Students from batch 2020-2021 have been successfully engaging with a blend of online as well as offline education. This has made them adaptable to the future of professional workplaces that they would soon be seeking out. At SDS we firmly believe they would be able to contribute to recovery and making of the post corona work order. Be it planning and executing innovative solutions, integrating basic public health measures in managing systems and processes, bonding with fellow colleagues in a compassionate manner they would be at the forefront, trail blazing passionate professional action for the 'new normal'.

On behalf of faculty and alumni of SDS I wish them great luck for exciting and meaningful professional pathways that lie ahead.

Program Structure

MBA Rural Management

Basic Courses

- **Design Thinking**
- **Written Analysis and Communication**
- **Excel Application and PowerPoint Presentations**

First Year

Core Courses: Term I, Term 2, and Term 3

- Rural and Rurban Society
- Development Theories and Practices
- Principles of Management
- Basic Services and Entitlement

- Research Methods -I
- Preparation for Exams
- Community Studies (Unnat Bharat Abhiyan)

Summer Training

Each student is required to work with an organization, on a project, for a period of eight weeks at the end of the first year. The objective is to allow students an intense day-to-day interaction with organizations. Summer Training provides students exposure to the working of an organisation in real time. It also helps students to develop managerial skills, competencies and facilitate an informed career choice by the students. performance of the students during summer training is assessed by way of report from the institution and poster presentation.

Second Year

Core Courses: Term 4, Term 5, and Term 6

- Rural Finance and Banking
- Information Communication Technology in Rural Development
- Data Management and Analysis
- Strategic Management
- Management Information System
- Production and Operation Management
- Project Management
- Research Methods
- Corporate Social Responsibility
- Participatory Irrigation Management and Watershed Management
- Rural Health, Water, Sanitation, Hygiene and Nutrition
- Field Segment I
- Forest, Grass Land and Farm Based Livelihood
- Non-Farm livelihoods, Value Chain and Enterprise
- Inclusive Quality Education and Governance
- Field Segment II

Dissertation and Internship

Each student is required to submit a dissertation involving primary research in his/her area of interest. The dissertation includes a critical review of literature pertaining to the specific area of interest, data collection and analysis on the selected problem. The dissertation must be completed in the second year to qualify for the degree.
