WASH Programme : **Plan, Implement, Monitor and Evaluate**

December 13 - 15, 2023

About IIHMR University

The genesis of IIHMR University dates to October 5, 1984, when the Indian Institute of Health Management Research (IIHMR) was established. In 2014, IIHMR University was established and incorporated as a postgraduate research university by the Government of Rajasthan vide the IIHMR University, Jaipur Act, 2014 (Act No. 3, of 2014). Our multi-disciplinary faculty, representing Public Health, Hospital Management, Health Management, Pharmaceutical Management, Development Management, Economics, Statistics, Demography and Social and Behavioural Sciences provides an enabling environment for learning and professional growth and development.

IIHMR University offers the following programmes :

- MBA (Hospital and Health Management)
- MBA (Pharmaceutical Management)
- MBA (Development Management)
- Master of Public Health
(Offered by Johns Hopkins Bloomberg School of Public Health, Baltimore, USA, in cooperation with IIHMR University)
- Master of Public Health (Implementation Science)
(Fully funded WHO-TDR programme)
- Master of Public Health (Executive)
- Master of Hospital Administration (Executive)
- Ph. D.

Background

WASH professionals and well-informed policymakers are key stakeholders to provide WASH services to community members around the world. Currently, it is seen that over 1.3 billion people are facing severe water, sanitation, and hygiene (WASH) challenges in India. Access to clean drinking water and sanitation facilities resulted in high rates of water borne diseases leading to serious health and economic burden on families and country. To address these challenges, government of India (GoI) has taken several initiatives to improve WASH conditions in the country, such as the Swachh Bharat Mission (SBM phase I and II) and the Jal shakti programme. However, there are still significant challenges seen in planning, implementation, monitoring, and evaluation covering different issues such as lack of access to clean water, inadequate sanitation facilities, poor hygienic practices, poor infrastructure, gender inequality, cultural practices, Urbanisation, climate change, funding etc.

Introduction / Programme Overview

The successful planning and implementation of any programme begins with a shared vision and facilitates taking effective decisions. Literature also reflects that planning is more easily done through incremental steps, which could be defined monthly, annually, biannually or any other appropriate period. Currently, professionals working in the WASH area are managing programme in lack of proper information and knowledge on strategic management, how to conduct situational analysis, how to develop logical framework analysis, and how to do monitoring and evaluation. The current programme is designed to address the existing gaps in operationalizing the WASH aligned programmes at country, state, district and block level and will develop skills among them.

What You Can Expect

The programme objectives are.

- To develop understanding and skill to plan and implement effectively WASH programmes in urban and rural areas.
- To understand and analyse the nuisance of need assessment of WASH programmes and
- To develop capacity on how to do effective monitoring and evaluation of WASH programmes.

Programme Highlights

- WASH Scenario In India: Opportunities, Challenges and Policies
- Situational Analysis, Need Assessment and Theory of Change
- SWOT and PESTAL Analysis on WASH Programmes
- Logical Framework Analysis
- CPM and PERT techniques to take effective decision.
- Fostering Community Participation through Result Based Management
- Monitoring through Technology such as Open Data Kit or Google Forms
- Evaluation methods focusing on Impact Assessment

Key Programme Takeaways

By the end of this programme, participants will be able to articulate: What is an enabling environment for WASH programmes? What is the Framework and Theory of Change to design any WASH related programmes? How a WASH programme can be successfully planned and implemented in any region? What are the governance functions that support enabling environment strengthening? What is the support process for strengthening the enabling environment for WASH programmes?

Who Should Join the Programme

This programme provides training to mid-career level professionals who are working with different projects/programmes, and practicing designing of programmes in Government sector (Especially with Swachha Bharat Mission, Jal Jeevan Mission, Department of Health and Family Welfare, Department of Panchayati Raj Institution and Rural Development), CSR division of corporate groups, Key officials from Non-Governmental Organizations, Bilateral agencies / Donors, Researchers and University professors from Academic Institutions, and Non-Governmental Organizations.

Pedagogy & Key Features

The programme will use a mix of training methods including lecture-cum-discussion, case study analysis, group work, assignment, and experiential learning.

Venue and Duration

The training has been scheduled between **December 13 - 15, 2023**. The Venue of the programme would be IIHMR University, Jaipur, India. IIHMR University is located near Jaipur International airport, Sanganer, Jaipur. The University campus provides a learning environment to the participants. The participants are welcome to use the library and recreational facilities at the campus.

Certification

A Certificate of participation on completion of the programme will be issued by IIHMR University, Jaipur.

Programme Fee

The programme fee for Indian participants **INR 24,750 plus GST (18%)** and for International participants **USD 462 plus GST (18%)**. The programme fee includes tuition, background reading material, programme kit, lodging, and boarding.
