About IIHMR University

IIHMR University, Jaipur is a leading post-graduate education and research university established in accordance with the provisions of the IIHMR University Act, 2014. Our vision is to provide students with a unique learning experience in management education and research that will contribute towards the betterment of society.

The genesis of the IIHMR University dates back to 1984 when its sponsoring body, the Indian Institute of Health Management Research was established with a mission of improving standards of health through better management of healthcare and related programs through management research, education, training, consultation, and institutional networking in a national and global perspective. The institute is led by exceptional faculty, steered by an outstanding advisory council, and buoyed by international collaborations.

This is absolutely wonderful news – thank you so much for sharing this! I am so happy to hear about this new endeavor and the name of the School. Congratulations to all of you, but especially to Dr. Gupta for his tireless efforts, vision and contributions to the betterment of our world.

Prof. Marie Diener-West
Chair, Master of Public Health Program
Abbey-Merrell Professor of Biostatistics, Johns Hopkins Bloomberg School of Public Health, USA

SD GUPTA SCHOOL *of* PUBLIC HEALTH

Where academic rigor meets real-world application

Through teaching and research, SDG-SPH will train future public health leaders, advance knowledge on pressing health challenges, and enhance population health and well-being. Our faculty are pioneering radical solutions for imminent public health problems and providing tools and resources for creative and critical thinking both in and outside the classroom.

Be the change!

What wonderful news! This is just terrific. I cannot think of a better person to honor in the school's naming. I look forward to hearing more of the details ... very exciting!

Prof. Ellen J. MacKenzie
Dean

Bloomberg Distinguished Professor
Johns Hopkins Bloomberg School of Public Health, USA

SDG-SPH ...*The IIHMR Edge!*

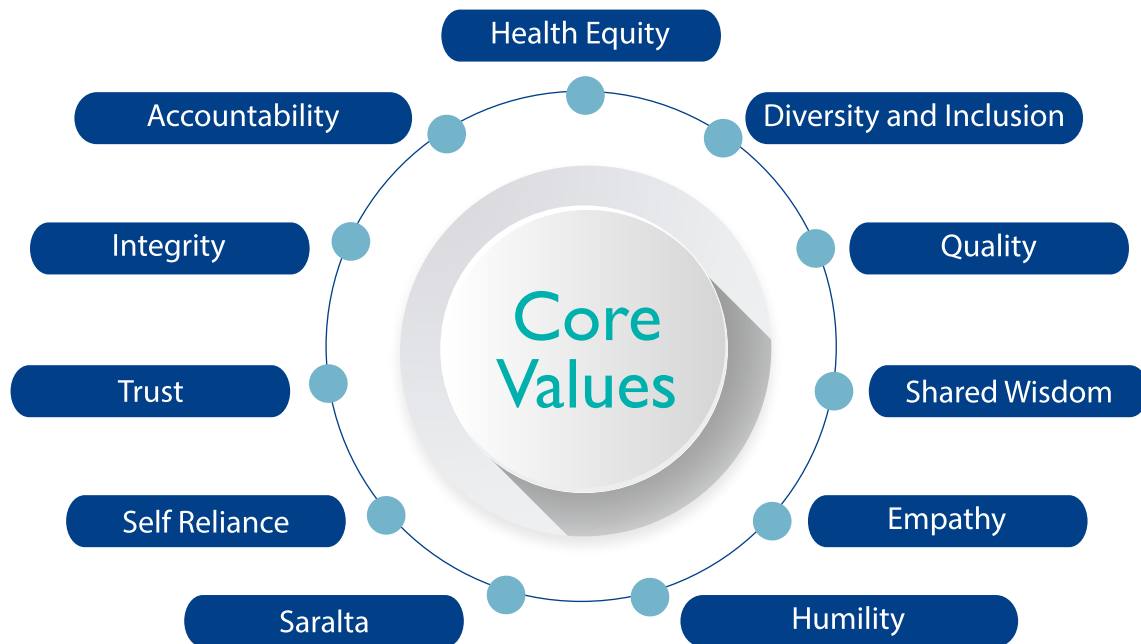

Thank you for sharing this and congratulations for the opening of the S. D. Gupta School of Public Health. My sincere congratulations for this to the IIHMR Family.

Dr Tomas Zapata
Regional Advisor, Human Resources for Health (HRH)
Department of Health System Development (HSD)
WHO – Regional Office for South East Asia

Mission

SDG-SPH is dedicated to the improvement of health and well-being globally by preparing students to become public health leaders, scholars, and practitioners; conducting high-quality public health research; engaging collaboratively with communities and populations; and actively championing for betterment of policies, programs, and services through the lens of equity and social justice.

Goal

SDG-SPH will work to unleash the power of public health to pursue the significant health challenges of national and global importance and drive transformative changes.

Objectives

- ▶ Prepare Future Leadership in Public Health
- ▶ Achieve Excellence in Public Health Research
- ▶ Provide Technical and Managerial Support to Health Systems
- ▶ Develop and Design Knowledge Products and Academic Programs in Public Health
- ▶ Promote Implementation Science
- ▶ Harness New Technologies
- ▶ Develop Health Workforce

Many congratulations to IIHMR leadership for establishing S. D. Gupta School of Public Health. This is certainly one more feather in the cap of IIHMR University. I am sure this school will soon become one of the best public health schools in the world.

Prof Sanjay Zodpey

Vice President, Public Health Foundation of India, Director – Indian Institute of Public Health, Delhi
National President – Indian Association of Preventive and Social Medicine

- ▶ Policymakers

Leveraging Collaborations and Partnerships

Congratulations on this great news. Indeed, it is an honour bestowed rightfully to Prof. S. D. Gupta for his immense contribution to the IIHMR. We look forward to collaborating and take benefit from the opportunity.

Dr Kinzang P. Tshering
President
Khesar Gyalpo University of Medical Sciences of Bhutan

Our Offerings

RESEARCH

We are a force for change. Continuous learning and scientific rigour fuel our work. Our collaborative research environment has led to cutting edge discoveries that we apply in ways that ensure healthier communities. Every outcome informs new waves of discovery. SDG-SPH will celebrate important work across the continuum from fundamental methodologies to the development and implementation of evidence-based strategies for understanding and changing complex health systems.

SDG-SPH provides state-of-the-art multidisciplinary education in public health. Johns Hopkins Bloomberg School of Public Health, USA offers an offshore cooperative Master of Public Health program with IIHMR University to prepare future public health leaders. This joint degree program brings together best of the knowledge and expertise of the two institutions: health management from IIHMR and public health from JHSPH. The program is accredited by the Council on Education for Public Health (CEPH), USA and approved by the University Grants Commission (UGC), India.

EDUCATION

TRAINING

Executive education programs offered by the IIHMR University are designed and delivered by the experienced faculties and administrators. IIHMR University prides itself in housing eminent experts in the interdisciplinary fields of quality assurance, organizational behavior, leadership, pharmacoepidemiology, patient medication, big data analytics, and health insurance. We offer a wide range of programs for enhancing leadership and managerial skills for the individuals and organizations engaged in areas of public health, health management, and hospital management.

Our goal is to drive policy changes and facilitate decision-making through academic research and empirical evidence. Furthermore, we will improve public health awareness through community education and literacy programs. We aim to foster greater access to health services and information for the most vulnerable communities and contribute towards attaining sustainable development goals.

Gathering, Evaluating, and Interpreting Data

Influencing Change in Healthcare Systems

Promoting Healthy Lifestyles

Conducting Population-based Research

Sustaining Healthy Environments

Improving Access to Affordable Healthcare

Creating lasting solutions.

...SAVING LIVES.

Thanks for sharing the information. This is fantastic recognition. He truly deserves it and earned it. This is one of the highest recognitions an academician can get and please convey my heartiest congratulations to Dr. Gupta. It is also a testament for the trustees who recognize the individuals in the organization for their contributions to the institution.

Prof. Ashish Chandra
Professor of Healthcare Administration
College of Business
University of Houston-Clear Lake (UHCL), USA
