It focused on fundamental insurance concepts, different insurance functions and departments, underwriting, health insurance, claims and investigations, the role of brokers, and the functioning of the Special Investigation Unit (SIU) . The session also helped students understand industry expectations, identify potential fraud indicators, and develop a broader perspective on career opportunities within the insurance sector.
SALIENT NOVEL POINTS COVERED: Fundamentals of Insurance: The session introduced students to fundamental concepts of insurance, including sum insured, different types of insurance, and the basic principles governing insurance contracts. Principle of Indemnity: The speaker explained the principle of indemnity, highlighting its importance in ensuring that insurance compensation is intended to restore the insured to the financial position they were in before the loss, subject to the terms and conditions of the policy. Understanding Insurance Departments: The session provided an overview of the various functions and departments within an insurance organisation, helping students understand how different teams contribute to the insurance value chain. Role of Insurance Brokers: The session provided insights into the working of insurance brokers, their role as intermediaries, and how they facilitate the insurance process between customers and insurers. 8. **Legal Aspects of Insurance:**

The session also touched upon the **legal aspects of insurance**, enabling students to understand the importance of regulatory and legal considerations in insurance operations, claims, and investigations.

Q&A and Interactive Session: The session concluded with an engaging **Q&A session**, where students interacted with Dr. Anuradha Bose and sought practical insights into the insurance industry. Questions covered a range of topics, including **legal aspects of insurance, the working and role of insurance brokers, insurance industry work life, SIU functions and processes, and career opportunities within the insurance sector**. The interaction provided students with an opportunity to clarify their doubts and gain an industry-oriented perspective beyond theoretical classroom learning.

CONCLUSION: The Career Readiness and Preparation Session provided students with a comprehensive introduction to the **insurance sector and its diverse functional areas**, while also helping them prepare for the upcoming TATA AIG selection process. The discussion on insurance principles, sum insured, indemnity, underwriting, retail and group health insurance, brokerage functions, and SIU operations helped students connect academic concepts with their practical application in the industry. The session also enhanced students' awareness of legal considerations and fraud red flags involved in insurance operations. Through the interactive Q&A, students gained valuable insights into **industry expectations, professional work life, and career opportunities**, making the session a meaningful and relevant step towards their career readiness in the insurance sector.
