

Management Development Programme on

Governance in Public Health: System Strengthening Strategies

 October 7-9 2026

Background

Aiming towards Viksit Bharat, India has progressed from a resource-constrained country to a resource optimized country. While resource sufficiency has provided us with lot of freedom to invest in our infrastructure and improve availability and accessibility of the services, we are yet to witness desired concurrent efficiency and impact. Our Health System tirelessly attempts to achieve better health outcomes but often falls short of the agreed goals. The solution could be in Governance.

Public health systems operate within complex environment involving government, health departments, healthcare providers, communities, civil society, development partners and the private sector. The effectiveness of these systems depends not only on the availability of financial, human and technological resources, but also on how the system is governed.

This three-day programme is designed to develop the knowledge, analytical skills and practical competencies required by public-health leaders and managers to assess governance challenges and translate governance principles into system-strengthening strategies.

Objectives

The objectives of the training programme are:

To provide insights into concepts, principles and functions of governance in public health

Describe the relationship between governance, health-system performance, health equity, quality of care, Universal Health Coverage and population health outcomes

Assess governance capacity at different levels of the health system using appropriate frameworks

Use data and performance information for governance and develop strategies for system strengthening

Contents

Understanding governance in Public Health and its dimensions

Identifying governance problems and consequences

Accountability, transparency and social participation

Strategic system strengthening approaches

Pedagogy

The programme offers a multifaceted learning experience through lectures, group discussions, case studies, and hands-on experiential learning. Participants are immersed in a dynamic learning environment designed to foster theoretical understanding and actionable real-world insights.
