Managing and Implementing NCD Programmes

 November 25-27, 2026

Background

Noncommunicable diseases which include which include cardiovascular diseases, diabetes, cancer, and chronic respiratory diseases, kill 41 million people every year, which amounts to almost three quarters of total annual global deaths. Of these more than 15 million deaths occur in the age groups of 30-69 years. 85% of such deaths are in Low- and middle-income countries. NCDs are also responsible to considerable morbidity among the patients in terms of disability, complications and economic burden. There is however strong evidence that investing in high impact interventions offered early on to the patients with NCDs is extremely cost effective because of the potential to considerably reduce the need for more expensive treatments.

The importance of managing NCDs is underscored by the fact that SDGs target a one third reduction in premature deaths due to NCDs by the year 2030. Efforts to address NCDs demand a skilled and well-informed cadre of professionals who can effectively design, implement, and manage NCD programs. These diseases require a comprehensive and strategic approach for prevention, management, and control. To meet this need, we are pleased to introduce the Management Development Program (MDP) on "Managing and Implementing Non-Communicable Diseases (NCDs) Program." The program aims to provide an overall understanding of epidemiology and burden of NCDs and also to equip the participants with necessary knowledge, concepts and skills to manage and implement the NCD programs in an efficient manner.

Objectives

The key objectives of the program include:

-  To enhance the knowledge on NCDs with special focus on their epidemiology, risk factors, burden and impact on public health.
-  To equip participants with the skills and knowledge required to develop comprehensive NCD programs, including prevention, screening, treatment, and monitoring.
-  To augment the participants' understanding on strategically managing NCD programs with focus on resource allocation, stakeholder engagement, policy implementation and Monitoring & evaluation.
-  To illustrate innovative approaches and best practices in NCD program management and explore recent advances and initiatives.

Pedagogy

The programme offers a multifaceted learning experience through lectures, group discussions, case studies, and hands-on experiential learning. Participants are immersed in a dynamic learning environment designed to foster theoretical understanding, actionable real-world insights, and service-ready skills.

Content

-  Burden, Determinants and Impact of NCDs
-  Health systems and evidence based Interventions for NCDs
-  Program Management
-  Strategic Management
-  Monitoring, Surveillance and Evaluation
-  Newer Initiatives in managing NCDs
-  Multisectoral approach for NCD management
-  Continuum of care for NCDs
-  Program review and identifying enablers and challenges

Who Should Attend?

This MDP is designed for professionals working in health departments, development partners, NGOs, and other organizations involved in the management and implementation of NCD programs. This includes:

- Health Program Managers
- Public Health Officials
- Healthcare Administrators
- Policy Analysts
- Development Partners
- Non-Governmental Organizations (NGOs) Staff
- Researchers and Academics

By attending this program, participants will gain the knowledge and skills necessary to effectively manage and implement non-communicable diseases programs and optimize the impact of such programs. Join us in this transformative journey to become effective leaders in managing and implementing NCD programs.

Programme Coordinator

Dr. Vinod Kumar SV

Professor
IIHMR University, Jaipur

The programme will be offered by a team of national and international subject experts.

Nominations/Registration

Please send your nominations/registrations to the following address:

Management Development Programme (MDP) Office

IIHMR University
1, Prabhu Dayal Marg, Sanganer Airport
Jaipur - 302029, INDIA
Tel: +91-141-3924700
Mobile: +91 9116006536
E-mail: training@iihmr.edu.in

Duration and Venue

The programme will start on Tuesday, November 25, 2026, and will conclude on Thursday, November 27, 2026. The programme will be held at IIHMR University, 1, Prabhu Dayal Marg, Sanganer Airport, Jaipur - 302029. The University campus provides a conducive learning environment for participants, who are welcome to use the library and recreational facilities available on campus.

Certificate

A certificate of participation on completion of the programme will be issued by IIHMR University, Jaipur.

Programme fee

The programme fee for Indian participants is Rs. 30,000 plus GST (18% as applicable), and for international participants it is USD 315 plus GST (18% as applicable). The programme fee covers tuition, background reading material, lodging, and boarding.

Discounts on Fee

- ✳️ **Early Bird Discount:** Nominations received with payment before four weeks of the commencement of the programme will be entitled to a 10% early bird discount.
- ✳️ **Group Discount:** Any organization sponsoring four or more participants to the programme will be entitled to a 20% discount on the total fee payable, provided that at least four participants attend the programme.
- ✳️ **Maximum Discount:** Organizations can avail themselves of both discounts, subject to a maximum discount of 20%.
