

Management Development Programme
on
Project Management for Effective
Program Implementation

 **January 6 - 8, 2027**

Background

Effective project management is essential for translating development priorities into measurable results. Projects in the public, private health, and development sectors often face challenges related to planning, resource allocation, coordination, implementation, risk management, and monitoring. This Management Development Programme (MDP) aims to strengthen participants' competencies in managing projects efficiently, ensuring timely implementation, optimal resource utilization, and achievement of intended outcomes.

Objectives

Project Planning & Design: Develop skills in situation analysis, prioritization, problem identification, stakeholder analysis, and objective setting.

Project Implementation: Learn to prepare logical frameworks, implementation plans for effective project execution.

Project Management: Strengthen capabilities in budget planning, risk management, and efficient resource utilization throughout the project lifecycle.

Monitoring & Evaluation: Apply monitoring and evaluation tools to track progress, measure outcomes, and ensure successful project delivery

Pedagogy

The programme offers a multifaceted learning experience through lectures, group discussions, case studies, and hands-on experiential learning. Participants are immersed in a dynamic learning environment designed to foster theoretical understanding and actionable real-world insights.

Contents

Fundamentals and principles of project management.

Situation analysis, problem tree, and objective tree analysis.

Stakeholder Analysis and Power-Interest Grid Matrix

Project formulation, objective setting, and results-based management.

Logical Framework Approach (LFA) and results framework.

Project scheduling, work plans, Gantt charts, and resource allocation.

Budgeting, financial management, and procurement planning.

Risk assessment, mitigation, and quality management.

Leadership, team building, communication, and stakeholder coordination.

Monitoring, evaluation, reporting, and impact assessment.

Project sustainability, documentation, and lessons learned.

Who Should Attend?

The program is designed for project managers, program officers, public health professionals, development professionals, government officials, CSR executives, NGO and civil society organization representatives, consultants, monitoring and evaluation specialists, and professionals working in health, water and sanitation, rural development, livelihoods, education, and other development sectors. It will also benefit team leaders and mid-level and senior-level managers seeking to strengthen their project implementation and management capabilities.
