IIHMR University Marks 36th Foundation Day with the Launch of School of Public Health

October 5, 2020: IIHMR University, a premier health management institute of the country, completed its 36 successful years today. On the auspicious occasion, the University announced the launch of a new School of Public Health - 'S D Gupta School of Public Health' in IIHMR University, Jaipur. The event was held virtually and was actively witnessed by the team of faculty members and students. While addressing the audience, the Chairperson of IIHMR University Dr Gupta talked about the initial idea with which IIHMR was started, i.e. to undertake research policy and program management research. The institute has extensively collaborated with the Government of India and other state governments in the administration and implementation of national health programmes including the HIV control programme, Immunisation programme and Blindness control programme.

IIHMR Hosts Webinar on 'Transparency, Ethics and Integrity in Healthcare and Pharmaceuticals Sector'

September 18, 2020: In joint efforts with the Centre of Excellence for Governance, Ethics and Transparency (CEGET) at Global Compact Network India (GCNI), IIHMR University hosted a webinar session on 'Transparency, Ethics and Integrity in Healthcare and Pharmaceuticals Sector'. The country has witnessed a sudden increase in corruption cases amid the global pandemic situation due to Coronavirus. The session was organised with an aim to create awareness among the youth of the country on the importance of transparency in the healthcare sector. Healthcare firms need solid ethical pillars to improve the culture of 'esteem' between the caregiver and the group.

To facilitate this session, IIHMR-U invited global academic leaders and industry professionals such as Professor Wolfgang C Amann, Academic Programme Director, HEC Paris; Sarah Steingruber, an Independent Global Health Consultant from Germany; Prof. Matthias Kleinhempel, Director, Centre for Governance and Transparency, IAE Business School, Argentina, Ashley Demming, Project Manager, United Nations Global Compact, New York; and, Professor Ronald E Berenbeim, Adjunct Professor, NYU who discussed the need of rapid, broad, state-of-the-art education and technology; capacity building programmes for health care professionals that focus on values and ethics.; "Corruption risk assessment to evaluate its impact; and, the macro-level corruption that occurs when activities of an organisation do not optimise economic productivity and benefit all of their members.

The session was informative.
