

Awareness and Sensitizing Drive towards mentally and physically challenged children and senior citizens

This Christmas Eve, on 24 December 2024 the students of **Cultural Committee** of IIHMR University under the guidance of Dr Kajal Sitlani embarked on a heartfelt journey to create **awareness and empathy** for the differently-abled children and elderly in the community at Mother Teresa Home Jaipur.

Purpose: Sensitizing students towards the challenges faced by mentally and physically challenged children and senior citizens. Through this initiative, we aimed to foster compassion, inclusivity, and a sense of responsibility among students, while bringing smiles and warmth to those who truly deserve it.

Our activities included:

- Some of the residents showcased their talents through beautiful songs, filling the atmosphere with warmth and joy.
- Spreading the festive cheer by sharing healthy treats with the children and elderly.
- Interactive Sessions: Students and residents engaged in meaningful conversations, building bridges of empathy and understanding.
- Posters for creating awareness about Save Water – Save Life were also placed at the activity center at the concerned place.

Apart from Dr. Kajal Sitlani, Dr. Gotam Sadhu and Dr. Hemant Mishra also participated in the drive.
