Event Details & Description:

A two-day residential workshop for identified field investigators from Rajeevika department (SRLM) of Karauli was organized by the team member of CBS. The objective of the workshop was to orient the participants on the digitized (CAPI-based) survey tool developed for the purpose of evaluation to be carried out under the Maternal Nutrition behavioral intervention research project.

The orientation workshop comprised classroom-based learning as well as hand-on field-based mock test of the survey instrument developed. The feedback and input received from the trainees during the two days were duly recorded in order to make the survey tool more rigorous and effective in capturing the intended responses.

Ms Manjaree Pant (Specialist SBC, UNICEF Rajasthan office) graced the workshop with her presence and highlighted the qualities of a good investigator and shed light on the fact that how the evaluation that they (the investigators) would lead on the ground would make a significant impact on the future course of reforms/changes in the government -led maternal nutrition-related programming in the state of Rajasthan.
