## Apply skills, knowledge for nation building: Gov at IIHMR convocation

## **EXPRESS NEWS SERVICE**

JAIPUR, JULY 19

THE IIHMR university organised its annual convocation in Jaipur on Saturday with Rajasthan Governor and Chief Guest Haribhau Bagde stating that he was "happy to see that all four students who received gold medals were females."

The Governor asked the graduating students to apply knowledge and skills acquired at the university towards the noble cause of nation-building. "I also suggest that universities collaborate with national as well as international universities and institutions. By integrating traditional and modern knowledge, National Education Policy 2022 aims to foster the holistic development of students," he said.

Welcoming the dignitaries and students, Dr PR Sodani, university president, said, "I extend my heartiest congratulations to our graduating students. Out of 423 graduating students, 247 are women, outnumbering 176 male students." He said this year's placement season marked another milestone for the university with the highest package at Rs 28.56 LPA, with 11 students securing international placements in the UAE, Kenya, Indonesia, and Congo.

Guest of Honour, Dr Rajeev Singh Raghuvanshi, Drugs Controller General of India, said, "India is a very important part of the global healthcare value chain. We provide medicines and trained manpower to over 200 nations. Healthcare is not just a system but a promise of care, dignity, and equity for all. Helping patients is the highest order of service."
