Activity Details

Activity Title: Faculty Retreat 2026 – Reflect | Reframe | Renew

Date & Duration of activity (Days): 20–22 March 2026; 3 days

Venue of the Activity: Ananta Spa & Resort, Ajabgarh, Rajasthan

Organised by: IIHMR University, Jaipur

Event Details & Description

IIHMR University hosted **Faculty Retreat 2026** from 20–22 March 2026 at Ananta Spa & Resort, Ajabgarh, Rajasthan, around the theme “**Reflect. Reframe. Renew.**” The retreat was designed as a structured off-site engagement to enable faculty members to reflect on the university’s journey, reframe academic and institutional priorities, and renew their commitment to teaching, research and institutional development.

Across three days, the retreat featured legacy talks and reflections by senior leadership on the evolution of IIHMR University and its future strategic direction, followed by sessions on institutional SWOT analysis, priority setting and roadmap discussions for academic programmes, research, outreach and rankings/accreditation. Faculty worked in mixed groups to identify strengths, gaps and opportunities, and to outline actionable ideas for curriculum enhancement, industry and community engagement, and inter-school collaboration.

In addition to formal deliberations, the retreat incorporated **interactive team-building and problem-solving activities** such as the “Geo Hunt Olympics”, “Million Dollar Challenge” and “Chain Reaction”, which were designed to foster teamwork, cross-functional collaboration and creative thinking among faculty and staff. These activities created an informal yet purposeful environment that helped strengthen inter-personal bonds and improve communication across departments and schools.

The retreat offered ample space for open dialogue on academic culture, faculty development needs and future institutional priorities, supported by structured plenary feedback and group presentations. By the end of the programme, broad consensus emerged on key focus areas for the coming years (such as innovative pedagogy, research intensity, global engagement, and student experience), along with suggestions for follow-up working groups and action plans to translate retreat insights into concrete initiatives.

Participants Details

Total Participants: 44

Faculty members and key academic/administrative leaders of IIHMR University (across all schools and centres).

| Sr. No. | Name |
|----------------|-----------------------------------|
| 1 | Dr. P. R. Sodani |
| 2 | Dr. Ashok Agarwal |
