Jaipur, June 22, 2026: Reinforcing its position as a pioneering institution in management education, IIHMR University, Jaipur has announced a transformative redesign of its flagship MBA (Development Management) programme, aligning it with the national vision of **Viksit Bharat @2047** and the evolving needs of the development sector, sustainability ecosystem, and social impact landscape.

As part of this strategic initiative, IIHMR University undertook an extensive stakeholder consultation involving industry leaders, development practitioners, policy experts, academicians, alumni, and employers to review and reimagine the programme curriculum. The outcome is a future-ready, industry-driven MBA designed to equip professionals with the knowledge, skills, and leadership capabilities required to address complex developmental challenges and contribute meaningfully to nation-building.

Drawing upon its distinguished four-decade legacy of transforming management education in the healthcare and social sectors, IIHMR University has developed a contemporary curriculum that integrates emerging themes, innovative pedagogy, outcome-based learning, experiential education, and industry-aligned assessments. The redesigned programme has been developed with inputs from leading domain experts and global consulting firms to ensure relevance to future employment opportunities and evolving workforce demands.
