Title	Management Development Programme (MDP) on Project Management for BVG Emergency Medical Services
Date	May 20–22, 2026
Duration	Three days
Venue	Pune
School/Center	School of Management / Executive Education, IIHMR University
Organizer	IIHMR University
Contact Person	Executive Education, IIHMR University (iihmr@iihmr.edu.in)

Event Details

IIHMR University organized a three-day Management Development Programme (MDP) on Project Management for BVG Emergency Medical Services from May 20 to 22, 2026, in Pune. The programme was specifically designed to enhance project management and leadership competencies among senior managers engaged in the planning, implementation, and management of emergency medical service operations.

The programme featured sessions by Dr. P. R. Sodani, President of IIHMR University; Dr. Biranchi Kumar Jena, Associate Professor; Dr. Goutam Sadhu, Associate Professor; Dr. Anoop Khanna, Associate Professor; and Ms. Kirti Agarwal, Assistant Professor, IIHMR University.

Key thematic areas covered included health system frameworks for emergency medical services, project management processes, stakeholder analysis, monitoring and evaluation, risk management, and project execution tools. The programme served as a comprehensive learning platform to strengthen managerial capabilities and promote operational excellence in emergency healthcare systems.

Objectives

The program aims to equip senior managers with practical knowledge and skills in project management within the EMS framework. By the end of the program, participants will:

- Develop a comprehensive understanding of project management concepts, tools, and frameworks.
- Strengthen their ability to plan, execute, and monitor projects effectively in emergency medical service settings.
- Enhance leadership and innovation skills for designing and managing impactful EMS projects.
- Build competencies in risk management, stakeholder analysis, and team dynamics.
- Gain hands-on exposure to project execution tools such as PERT charts, Gantt charts, and network diagrams.
- Improve their ability to ensure quality outcomes through structured monitoring and evaluation frameworks.
