2. EVENT DETAILS

IIHMR University organised the Career Architects' Conclave 2026 on May 16, 2026, under the theme "The Course Compass: How to Map High-Growth Careers in a Post-AI World." The event commenced with an auspicious lamp-lighting ceremony led by Dr. P.R. Sodani, President of IIHMR University, alongside esteemed faculty and a panel of distinguished experts, setting the tone for a day dedicated to knowledge, inspiration, and purpose.

The conclave was designed as a free career guidance initiative for final-year students and graduates exploring careers in healthcare, public health, MBA, MPH, and allied sectors. Over 200 students participated from diverse colleges and academic streams, making the event a vibrant platform for dialogue, discovery, and the exchange of ideas.

Seven expert-led sessions were conducted, covering five future-ready career pathways: Hospital and Health Management, Pharmaceutical Management, Development Management, Healthcare Analytics, and Public Health. The sessions addressed the evolving role of artificial intelligence in shaping future careers and helped participants explore how specialised management education can lead to impactful roles in hospitals, health systems, life sciences, social development, analytics, policy, and global health. The programme also included career guidance interactions, networking opportunities, and an immersive campus experience, enabling

participants to explore informed and future-oriented career pathways in healthcare and allied sectors. The conclave concluded with a networking luncheon and a campus tour for all participants.

All attendees received a Certificate of Participation upon completion of the event.
