2. EVENT DETAILS

IIHMR University, in collaboration with GSK, organised an insightful health talk on Adult Vaccination on May 26, 2026, under its "Let's Talk About Health" initiative. The session was held at the Old Auditorium of the university campus and was followed by a Hi-Tea.

The talk was delivered by Dr. Sudhir Bhandari, who holds the position of Pro-Chancellor and Senior Professor at Jaipur National University (JNU) Institute for Medical Sciences, Jaipur, and is the former Vice Chancellor of Rajasthan University of Health Sciences (RUHS). He is also recognized as a renowned physician and diabetologist.

The session focused on the growing importance of adult vaccination in preventing infectious diseases and reducing severe health complications, particularly among older adults and individuals with comorbidities such as diabetes, hypertension, and cardiac disease. Dr. Bhandari highlighted the role of specific vaccines — including those for influenza, pneumococcal disease, and herpes zoster (shingles) — in promoting preventive healthcare and public health awareness. He also discussed the necessity of booster doses to improve quality of life and emphasized evidence-based health communication as a critical tool in driving vaccination uptake.

The event was held against the backdrop of India's rising national immunization coverage, which reached 98.4% by January 2026. Dr. P.R. Sodani, President of IIHMR University, was also present as a key attendee, underscoring the institutional commitment to health awareness and education. The session served as a platform to promote adult vaccination as an emerging healthcare priority, driven by factors such as urbanization, aging populations, and post-pandemic health consciousness.
